

**Jason E. Mumpower, Comptroller of the Treasury**

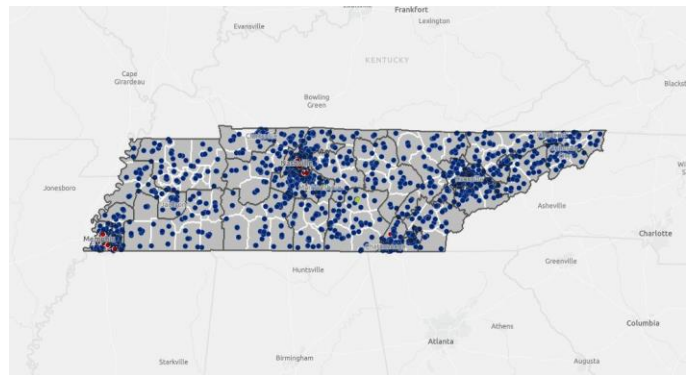

April 28, 2021

## **Comptroller's Office Updates Education Maps with New Data**

For the seventh year in a row, the Tennessee Comptroller's Office has updated its interactive Mapping Tennessee Education. This website hosts several interactive maps on K-12 education data including:

- all schools and school districts by both House and Senate legislative district,
- **New!** increase in average classroom salary from 2019 to 2020 by district,
- average classroom teacher salary by district,
- type of school district, and
- private schools.

The maps allow users to view data such as enrollment, average ACT scores, graduation rates, teacher pay, and demographics for every K-12 public school and school district in the state for the 2019-20 school year. The website is updated annually, and this year's version includes a new map that highlights the increase in average classroom teacher salaries between the 2018-19 and 2019-20 school years.

To view the website, please visit the Comptroller's OREA website at: [tncot.cc/mappingeducation](https://tncot.cc/mappingeducation)
