Independent Auditor's Report

Franklin County Mayor and
Board of County Commissioners
Franklin County, Tennessee

To the County Mayor and Board of County Commissioners:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Franklin County, Tennessee, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the county's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of

significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Franklin County, Tennessee, as of June 30, 2018, and the respective changes in financial position and the respective budgetary comparison for the General, Solid Waste/Sanitation, and Highway Public Works funds for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As described in Note V.B., Franklin County has adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. Our opinion is not modified with respect to this matter.

Emphasis of Matter

We draw attention to Note I.D.10. to the financial statements, which describes restatements increasing the beginning net position of the Governmental Activities of the Primary Government by \$156,502 and decreasing the beginning net position of the Governmental Activities of the Discretely Presented Franklin County School Department by \$2,527,254, on the Government-wide Statement of Activities. These restatements were necessary because of the transitional requirements of GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Accounting principles generally accepted in the United States of America require that the schedule of changes in the county's net pension liability (asset) and related ratios, schedules of county and school contributions, schedule of school's proportionate share of the net pension

liability, and schedules of county and school total OPEB liabilities and related ratios of on pages 99-107 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Franklin County's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, budgetary comparison schedules of nonmajor governmental funds and the General Debt Service and Education Debt Service funds, combining and individual fund financial statements of the Franklin County School Department (a discretely presented component unit), and miscellaneous schedules and the other information such as the introductory section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is also presented for purposes of additional analysis as required by *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is not a required part of the basic financial statements.

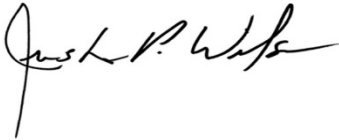

The combining and individual nonmajor fund financial statements, budgetary comparison schedules of nonmajor governmental funds and the General Debt Service and Education Debt Service funds, combining and individual fund financial statements of the Franklin County School Department (a discretely presented component unit), schedule of expenditures of federal awards, and miscellaneous schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, budgetary comparison schedules of nonmajor governmental funds and the General Debt Service and Education Debt Service funds, combining and individual fund financial statements of the Franklin County School Department (a discretely presented component unit), schedule of expenditures of federal awards, and miscellaneous schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 30, 2018, on our consideration of Franklin County’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Franklin County’s internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Franklin County’s internal control over financial reporting and compliance.

Very truly yours,

Justin P. Wilson
Comptroller of the Treasury

Reconciliation of the Balance Sheet of Governmental
Funds to the Statement of Net Position
June 30, 2018

Amounts reported for governmental activities in the statement of net position (Exhibit A) are different because:

Total fund balances - balance sheet - governmental funds (Exhibit C-1)		\$ 29,552,914
(1) Capital assets used in governmental activities are not financial resources and therefore are not reported in the governmental funds.		
Add: land	\$ 27,979,223	
Add: construction in progress	5,399,521	
Add: buildings and improvements net of accumulated depreciation	11,820,796	
Add: infrastructure net of accumulated depreciation	13,183,963	
Add: other capital assets net of accumulated depreciation	<u>5,478,948</u>	63,862,451
(2) Long-term liabilities are not due and payable in the current period and therefore are not reported in the governmental funds.		
Less: bonds payable	\$ (25,765,000)	
Less: notes payable	(2,310,683)	
Less: capital leases payable	(139,184)	
Add: debt to be contributed by the School Department	139,184	
Less: compensated absences payable	(716,133)	
Less: landfill closure/postclosure care costs	(311,917)	
Less: accrued interest on bonds, notes, and capital leases	(139,007)	
Less: unamortized premium on debt	(2,360,741)	
Less: OPEB Obligations	<u>(1,433,617)</u>	(33,037,098)
(3) Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be amortized and recognized as components of pension expense in future years:		
Add: deferred outflows of resources related to pensions	\$ 1,862,394	
Less: deferred inflows of resources related to pensions	(378,634)	
Add: deferred outflows of resources related to OPEB	61,090

Exhibit C-4

Franklin County, Tennessee
Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances
of Governmental Funds to the Statement of Activities
For the Year Ended June 30, 2018

Amounts reported for governmental activities in the statement of activities (Exhibit B) are different because:

Net change in fund balances - total governmental funds (Exhibit C-3)		\$ 3,382,025
(1) Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of these assets is allocated over their useful lives and reported as depreciation expense. The difference between capital outlays and depreciation is itemized as follows:		
Add: capital assets purchased in the current period	\$ 9,685,866	
Less: current-year depreciation expense	<u>(2,146,670)</u>	7,539,196
(2) The net effect of various miscellaneous transactions involving capital assets (sales, trade-ins, and donations) is to increase net position.		
Less: book value of capital assets disposed		(563,142)
(3) Revenues in the statement of activities that do not provide current financial resources are not reported in the funds.		
Add: deferred delinquent property taxes and other deferred June 30, 2018	\$ 1,054,673	
Less: deferred delinquent property taxes and other deferred June 30, 2017	<u>(977,601)</u>	77,072
(4) The issuance of long-term debt (e.g., bonds, notes, other loans, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items:		
Less: bond proceeds	\$ (7,200,000)	
Add: principal payments on notes	580,448	
Add: principal payments on capital leases	115,352	
Add: principal payments on bonds	2,405,000	
Less: change in premium on debt issuance	(742,957)	
Less: change in deferred amount on refunding debt	(300,605)	
Less: contributions from the School Department for capital leases	<u>(64,843)</u>	(5,207,605)
(5) Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds.		
Change in accrued interest payable	\$ (44,982)	
Change in OPEB Obligation (net of restatement)	7,020	
Change in deferred outflows related to OPEB (net of restatement)	1,951	
Change in deferred inflows related to OPEB	(66,830)	
Change in net pension liability/asset	668,994	
Change in deferred outflows related to pensions	(87,328)	
Change in deferred inflows related to pensions	174,516	
Change in compensated absences payable	(22,591)	
Change in landfill closure/postclosure care costs	<u>764</u>	631,514
Change in net position of governmental activities (Exhibit B)		<u>\$ 5,859,060</u>

FRANKLIN COUNTY, TENNESSEE
NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended June 30, 2018

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Franklin County's financial statements are presented in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments.

The following are the more significant accounting policies of Franklin County:

A. Reporting Entity

Franklin County is a public municipal corporation governed by an elected 16-member board. As required by GAAP, these financial statements present Franklin County (the primary government) and its component units. The financial statements of the Franklin County Emergency Communications District, a component unit requiring discrete presentation, were excluded from this report due to materiality calculations; therefore, the effect of their omission did not affect the independent auditor's opinion thereon. The component units discussed below are included in the county's reporting entity because of the significance of their operational or financial relationships with the county.

Discretely Presented Component Units – The following entities meet the criteria for discretely presented component units of the county. They are reported in separate columns in the government-wide financial statements to emphasize that they are legally separate from the county.

The Franklin County School Department operates the public school system in the county, and the voters of Franklin County elect its board. The School Department is fiscally dependent on the county because it may not issue debt, and its budget and property tax levy are subject to the county commission's approval. The School Department's taxes are levied under the taxing authority of the county and are included as part of the county's total tax levy.

The Franklin County Emergency Communications District provides a simplified means of securing emergency services through a uniform emergency number for the residents of Franklin County, and the Franklin County Commission appoints its governing body. The district is funded primarily through a service charge levied on telephone services. Before the issuance of most debt instruments, the district must obtain the county commission's approval. The financial statements of the Franklin County Emergency Communications District were not material to the component units' opinion unit and therefore have been omitted from this report.

The Franklin County School Department does not issue separate financial statements from those of the county. Therefore, basic financial statements of the Franklin County School Department are included in this report as listed in the table of contents. Complete financial statements of the Franklin County Emergency Communications District can be obtained from its administrative office at the following address:

Administrative Office:

Franklin County Emergency Communications District
305 Edgewater Drive
Winchester, TN 37398

Related Organization – The Franklin County Health and Educational Facilities Board is a related organization of Franklin County. The Franklin County Commission appoints the board members, but the county’s accountability for the organization does not extend beyond making the appointments.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. However, when applicable, interfund services provided and used between functions are not eliminated in the process of consolidation in the Statement of Activities. Governmental activities are normally supported by taxes and intergovernmental revenues. Business-type activities, which rely to a significant extent on fees and charges, are required to be reported separately from governmental activities in government-wide financial statements. However, the primary government of Franklin County does not have any business-type activities to report. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable. The Franklin County School Department component unit only reports governmental activities in the government-wide financial statements.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function, and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Franklin County issues all debt for the discretely presented Franklin County School Department. There were no debt issues contributed by the county to the School Department during the year ended June 30, 2018.

Separate financial statements are provided for governmental funds and fiduciary funds. The fiduciary funds are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. **Measurement Focus, Basis of Accounting, and Financial Statement Presentation**

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements, except for agency funds, which have no measurement focus. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Fund financial statements of Franklin County are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, deferred outflows of resources, liabilities, deferred inflow of resources, fund equity, revenues, and expenditures. Funds are organized into three major categories: governmental, proprietary, and fiduciary. An emphasis is placed on major funds within the governmental category. Franklin County has no proprietary funds to report.

Separate financial statements are provided for governmental funds and fiduciary funds. Major individual governmental funds are reported as separate columns in the fund financial statements. All other governmental funds are aggregated into a single column on the fund financial statements. The fiduciary funds in total are reported in a single column.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they become both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the county considers revenues other than grants to be available if they are collected within 30 days after year-end. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met and the revenues are available. Franklin County considers grants and similar revenues to be available if they are collected within 60 days after year-end. Expenditures are generally recognized under the modified accrual basis of accounting when the

related fund liability is incurred. Principal and interest on long-term debt are recognized as fund liabilities when due or when amounts have been accumulated in the debt service funds for payments to be made early in the following year.

Property taxes for the period levied, in-lieu-of tax payments, sales taxes, interest, and miscellaneous taxes are all considered to be susceptible to accrual and have been recognized as revenues of the current period. Applicable business taxes, litigation taxes, state-shared excise taxes, fines, forfeitures, and penalties are not susceptible to accrual since they are not measurable (reasonably estimable). All other revenue items are considered to be measurable and available only when the county receives cash.

Fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Franklin County reports the following major governmental funds:

General Fund – This is the county’s primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Solid Waste/Sanitation Fund – This special revenue fund accounts for transactions relating to the disposal of Franklin County’s solid waste. Local taxes and general service charges are the foundational revenues of this fund.

Highway/Public Works Fund – This special revenue fund accounts for transactions of the county’s Highway Department. Local and state gasoline/fuel taxes are the foundational revenues of this fund.

General Debt Service Fund – This fund accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

Education Debt Service Fund – This fund accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt for construction and renovations of the county’s schools.

Other Capital Projects Fund - The Other Capital Projects Fund is used to account for improvements, renovations, equipping of county buildings and facilities.

Additionally, Franklin County reports the following fund type:

Agency Funds – These funds account for amounts collected in an agency capacity by the constitutional officers and local sales taxes received from the state to be forwarded to the various cities in the county. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. They do, however, use the accrual basis of accounting to recognize receivables and payables.

The discretely presented Franklin County School Department reports the following major governmental funds:

General Purpose School Fund – This fund is the primary operating fund for the School Department. It is used to account for general operations of the School Department.

Central Cafeteria Fund – This special revenue fund is used to account for the cafeteria operations in each of the schools. USDA School Lunch and Breakfast Programs and payments received from the sale of meals are the foundational revenues of this fund.

Amounts reported as program revenues include (1) charges to customers or applicants for goods, services, or privileges provided; (2) operating grants and contributions; and (3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

D. Assets, Liabilities, Deferred Outflow/Inflow of Resources, and Net Position/Fund Balance

1. Deposits and Investments

State statutes authorize the government to make direct investments in bonds, notes, or treasury bills of the U.S. government and obligations guaranteed by the U.S. government or any of its agencies; deposit accounts at state and federal chartered banks and savings and loan associations; repurchase agreements; the State Treasurer's Investment Pool; bonds of any state or political subdivision rated A or higher by any nationally recognized rating service; nonconvertible debt securities of certain federal government sponsored enterprises; and the county's own legally issued bonds or notes.

The county trustee maintains a cash and internal investment pool that is used by all funds and the discretely presented Franklin County School Department. Each fund's portion of this pool is displayed on the balance sheets or statements of net position as Equity in Pooled Cash and Investments. Most income from these pooled investments is assigned to the Solid Waste/Sanitation and General Debt Service Funds. Franklin County and the School Department have adopted a

policy of reporting U.S. Treasury obligations, U.S. agency obligations, and repurchase agreements with maturities of one year or less when purchased on the balance sheet at amortized cost. Certificates of deposit are reported at cost. Investments in the State Treasurer's Investment Pool are reported at amortized cost using a stable net asset value. State statutes require the state treasurer to administer the pool under the same terms and conditions, including collateral requirements, as prescribed for other funds invested by the state treasurer. All other investments are reported at fair value.

2. Receivables and Payables

Activity between funds for unremitted current collections at the end of the fiscal year is referred to as due to/from other funds.

All property taxes receivable are shown net of an allowance for uncollectibles. The allowance for uncollectible property taxes is equal to 2.5 percent of total taxes levied.

Property taxes receivable are recognized as of the date an enforceable legal claim to the taxable property arises. This date is January 1 and is referred to as the lien date. However, revenues from property taxes are recognized in the period for which the taxes are levied, which is the ensuing fiscal year. Since the receivable is recognized before the period of revenue recognition, the entire amount of the receivable, less an estimated allowance for uncollectible taxes, is reported as a deferred inflow of resources as of June 30.

Property taxes receivable are also reported as of June 30 for the taxes that are levied, collected, and reported as revenue during the current fiscal year. These property taxes receivable are presented on the balance sheet as a deferred inflow of resources to reflect amounts not available as of June 30. Property taxes collected within 30 days of year end are considered available and accrued. The allowance for uncollectible taxes represents the estimated amount of the receivable that will be filed in court for collection. Delinquent taxes filed in court for collection are not included in taxes receivable since they are neither measurable nor available.

Property taxes are levied as of the first Monday in October. Taxes become delinquent and begin accumulating interest and penalty the following March 1. Suit must be filed in Chancery Court between the following February 1 to April 1 for any remaining unpaid taxes. Additional costs attach to delinquent taxes after a court suit has been filed.

Most payables are disaggregated on the face of the financial statements.

Retainage payable in the primary government's Other Capital Projects Fund represents amounts withheld from payments made on construction contracts pending completion of the projects. These amounts are held by the county trustee as Equity in Pooled Cash and Investments in the nonmajor governmental funds.

3. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as an expenditure when consumed rather than when purchased. Prepaids are offset in the nonspendable fund balance account in governmental funds.

4. Capital Assets

Governmental funds do not capitalize the cost of capital outlays; these funds report capital outlays as expenditures upon acquisition.

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, and similar items), are reported in the governmental column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of \$5,000 (land improvements \$25,000; buildings, improvements, and infrastructure \$50,000) or more and an estimated useful life exceeding three years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant, equipment, and infrastructure of the primary government and the discretely presented School Department are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings and Improvements	25 - 40
Other Capital Assets	5 - 20
Infrastructure:	
Roads	20
Bridges	40

5. Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The government has items that qualify for reporting in this category. Accordingly, the items are reported in the government-wide Statement of Net Position and the governmental funds balance sheet. These items are for pension changes in experience, pension changes in investment earnings, pension changes in assumptions, pension changes in proportionate share of contributions, employer contributions made to the pension plan after the measurement date, and OPEB contributions made after the measurement date reported in the government-wide Statement of Net Position.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government has items that qualify for reporting in this category. Accordingly, the items are reported in the government-wide Statement of Net Position and the governmental funds balance sheet. These items are from the following sources: current and delinquent property taxes, pension changes in experience, pension changes in investment earnings, pension changes in proportionate share of contributions, OPEB changes in assumptions, and various receivables for revenues, which do not meet the availability criteria in governmental funds. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

6. Compensated Absences

It is the policy of the general government (excluding the Highway Department) to permit its employees to accumulate the following hours of vacation leave based on length of employment:

<u>Years of Service</u>	<u>Hours</u>
One	40
Two through Eight	80
Nine and Over	120

It is the policy of the Highway Department to permit its employees to accumulate the following days of vacation leave based on length of employment:

<u>Years of Service</u>	<u>Days</u>
One	5
Two through Nine	10
Ten and Over	15

In the general government, earned but unused vacation leave will be paid to the employee upon retirement, resignation, or termination. On each employee's anniversary date, all accumulated unused vacation leave will be converted to sick leave. In the Highway Department, employees are required to take at least five days of vacation per fiscal year. Any accumulated unused vacation leave is paid to the employee on June 30 of each year. All vacation leave is accrued when incurred in the government-wide statements for the general county government. The granting of sick leave has no guaranteed payment attached and therefore is not required to be accrued or recorded.

It is the policy of the discretely presented Franklin County School Department to permit its 11- and 12-month employees to accumulate up to a maximum of 30 days over a two-year period of earned but unused vacation leave, which will be paid upon retirement, resignation, or termination. Any accumulated unused vacation leave in excess of two years is forfeited. All vacation leave for 11- and 12-month employees is accrued when incurred in the government-wide statements for the School Department. The policy of the School Department does not allow their ten-month employees to accumulate vacation days beyond June 30. The granting of sick leave has no guaranteed payment attached and therefore is not required to be accrued or recorded. A liability for vacation leave is reported in governmental funds only if amounts have matured, for example, as a result of employee resignations and retirements.

7. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities Statement of Net Position. Debt premiums and discounts are deferred and are amortized over the life of the new debt using the straight-line method. Debt issuance costs are expensed in the

period incurred. In refunding transactions, the difference between the reacquisition price and the net carrying amount of the old debt is reported as a deferred outflow of resources or a deferred inflow of resources and recognized as a component of interest expense in a systematic and rational manner over the remaining life of the refunded debt or the life of the new debt issued, whichever is shorter.

In the fund financial statements, governmental fund types recognize debt premiums and discounts, as well as debt issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Only the matured portion (the portion that has come due for payment) of long-term indebtedness, including bonds payable, is recognized as a liability and expenditure in the governmental fund financial statements. Liabilities and expenditures for other long-term obligations, including compensated absences and landfill postclosure cost, are recognized to the extent that the liabilities have matured (come due for payment) each period.

8. Net Position and Fund Balance

In the government-wide financial statements, equity is classified as net position and displayed in three components:

- a. Net investment in capital assets – Consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net position – Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position – All other net position that does not meet the definition of restricted or net investment in capital assets.

As of June 30, 2018, Franklin County has \$6,854,184 in outstanding debt for capital purposes for the discretely presented Franklin County School Department. This debt is a liability of Franklin County; however, the capital assets acquired are reported in the financial statements of the School Department. Therefore, Franklin County has

incurred a liability significantly decreasing its unrestricted net position with no corresponding increase in the county's capital assets.

It is the county's policy that restricted amounts would be reduced first followed by unrestricted amounts when expenditures are incurred for purposes for which both restricted and unrestricted fund balance is available. Also, it is the county's policy that committed amounts would be reduced first, followed by assigned amounts, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of these unrestricted fund balance classifications could be used.

In the fund financial statements, governmental funds report fund balance in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in these funds can be spent. These classifications may consist of the following:

Nonspendable Fund Balance – includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Restricted Fund Balance – includes amounts that have constraints placed on the use of the resources that are either (a) externally imposed by creditors, grantors, contributors or laws and regulations of other governments or (b) imposed by law through constitutional provisions or enabling legislation.

Committed Fund Balance – includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal resolutions of the county commission, the county's highest level of decision-making authority and the Board of Education, the School Department's highest level of decision-making authority, and shall remain binding unless removed in the same manner.

Assigned Fund Balance – includes amounts that are constrained by the county's intent to be used for specific purposes but are neither restricted nor committed (excluding stabilization arrangements). The county commission has by resolution authorized the county's Financial Management Committee to make assignments for the general government. The Board of Education makes assignments for the School Department.

Unassigned Fund Balance – the residual classification of the General and General Purpose School funds. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned

to specific purposes within the General and General Purpose School funds.

9. Minimum Fund Balance Policy

To provide management with appropriate guidelines and direction to assist in making sound decisions related to managing the fund balance of certain governmental funds, the following minimum fund balance policy exists for unassigned fund balance:

Primary Government

General Fund – 2.5 percent of current-year expenditures and transfers to other funds.

Courthouse and Jail Maintenance, Public Library, Solid Waste/Sanitation, Local Purpose Tax, and Highway/Public Works funds – five percent of current-year expenditures and transfers to other funds.

Debt Service Funds – the county will typically have at least one-half year of future principal and interest payments as fund balance.

Discretely Presented Franklin County School Department

Central Cafeteria Fund – five percent of current-year expenditures and transfers to other funds.

10. Restatements

In prior years, the government was required to recognize a liability for its other postemployment benefits plans under Governmental Accounting Standards Board (GASB) Statement No. 45. As of July 1, 2017, Franklin County has adopted the provisions of GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. Restatements increasing the beginning net position of the Governmental Activities of the Primary Government by \$156,502 and decreasing the beginning net position of the Governmental Activities of the Discretely Presented Franklin County School Department by \$2,527,254 have been recognized to account for the transitional requirements.

E. Pension Plans

Primary Government

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of Franklin County's

participation in the Public Employee Retirement Plan of the Tennessee Consolidated Retirement System (TCRS), and additions to/deductions from Franklin County's fiduciary net position have been determined on the same basis as they are reported by the TCRS for the Public Employee Retirement Plan. For this purpose, benefits (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms of the Public Employee Retirement Plan of TCRS. Investments are reported at fair value.

Discretely Presented Franklin County School Department

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teacher Retirement Plan and the Teacher Legacy Pension Plan in the Tennessee Consolidated Retirement System, and additions to/deductions from fiduciary net position have been determined on the same basis as they are reported by the TCRS. For this purpose, benefits (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms of the Teacher Retirement Plan and the Teacher Legacy Pension Plan. Investments are reported at fair value.

II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

Primary Government

Exhibit C-4 includes explanations of the nature of individual elements of items required to reconcile the net change in fund balances – total governmental

funds with the change in net position of governmental activities reported in the government-wide Statement of Activities.

Discretely Presented Franklin County School Department

Exhibit I-5 includes explanations of the nature of individual elements of items required to reconcile the net change in fund balances – total governmental funds with the change in net position of governmental activities reported in the government-wide Statement of Activities.

III. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Budgetary Information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP) for all governmental funds except the Constitutional Officers - Fees Fund (special revenue fund), which is not budgeted, and the Highway Capital Projects Fund, which adopts a project length budget. All annual appropriations lapse at fiscal year-end.

The county is required by state statute to adopt annual budgets. Annual budgets are prepared on the basis in which current available funds must be sufficient to meet current expenditures. Expenditures and encumbrances may not legally exceed appropriations authorized by the county commission and any authorized revisions. Unencumbered appropriations lapse at the end of each fiscal year.

The budgetary level of control is at the major category level established by the County Uniform Chart of Accounts, as prescribed by the Comptroller of the Treasury of the State of Tennessee. Major categories are at the department level (examples of General Fund major categories: County Commission, Board of Equalization, County Mayor/Executive, County Attorney, etc.). Management may make revisions within major categories, but only the county commission may transfer appropriations between major categories. During the year, several supplementary appropriations were necessary.

The county's budgetary basis of accounting is consistent with GAAP, except instances in which encumbrances are treated as budgeted expenditures. The difference between the budgetary basis and GAAP basis is presented on the face of each budgetary schedule.

At June 30, 2018, Franklin County and the Franklin County School Department reported the following encumbrances:

<u>Fund</u>	<u>Amount</u>
Primary Government:	
General	\$ 960,237
Solid Waste/Sanitation	119,549
Highway/Public Works	76,450
Nonmajor Governmental	<u>112,808</u>
Total	<u><u>\$ 1,269,044</u></u>
Discretely Presented School Department:	
General Purpose School	\$ 921,350
Central Cafeteria	<u>670,167</u>
Total	<u><u>\$ 1,591,517</u></u>

IV. DETAILED NOTES ON ALL FUNDS

A. Deposits and Investments

Franklin County and the Franklin County School Department participate in an internal cash and investment pool through the Office of Trustee. The county trustee is the treasurer of the county and in this capacity is responsible for receiving, disbursing, and investing most county funds. Each fund's portion of this pool is displayed on the balance sheets or statements of net position as Equity in Pooled Cash and Investments. Cash reflected on the balance sheets or statements of net position represents nonpooled amounts held separately by individual funds.

Deposits

Legal Provisions. All deposits with financial institutions must be secured by one of two methods. One method involves financial institutions that participate in the bank collateral pool administered by the state treasurer. Participating banks determine the aggregate balance of their public fund accounts for the State of Tennessee and its political subdivisions. The amount of collateral required to secure these public deposits must equal at least 105 percent of the average daily balance of public deposits held. Collateral securities required to be pledged by the participating banks to protect their public fund accounts are pledged to the state treasurer on behalf of the bank collateral pool. The securities pledged to protect these accounts are pledged in the aggregate rather than against each account. The members of the pool may be required by agreement to pay an assessment to cover any deficiency. Under this additional assessment agreement, public fund accounts covered by the pool are considered to be insured for purposes of credit risk disclosure.

For deposits with financial institutions that do not participate in the bank collateral pool, state statutes require that all deposits be collateralized with collateral whose market value is equal to 105 percent of the uninsured amount of the deposits. The collateral must be placed by the depository bank in an escrow account in a second bank for the benefit of the county.

Investments

Legal Provisions. Counties are authorized to make direct investments in bonds, notes, or treasury bills of the U.S. government and obligations guaranteed by the U.S. government or any of its agencies; deposits at state and federal chartered banks and savings and loan associations; bonds of any state or political subdivision rated A or higher by any nationally recognized rating service; nonconvertible debt securities of certain federal government sponsored enterprises; and the county's own legally issued bonds or notes. These investments may not have a maturity greater than two years. The county may make investments with longer maturities if various restrictions set out in state law are followed. Counties are also authorized to make investments in the State Treasurer's Investment Pool and in repurchase agreements. Repurchase agreements must be approved by the state Comptroller's Office and executed in accordance with procedures established by the State Funding Board. Securities purchased under a repurchase agreement must be obligations of the U.S. government or obligations guaranteed by the U.S. government or any of its agencies. When repurchase agreements are executed, the purchase of the securities must be priced at least two percent below the fair value of the securities on the day of purchase.

Investment Balances. As of June 30, 2018, Franklin County had the following investments carried at amortized cost using a Stable Net Asset Value. All investments are in the county trustee's investment pool. Separate disclosures concerning pooled investments cannot be made for Franklin County and the discretely presented Franklin County School Department since both pool their deposits and investments through the county trustee.

<u>Investment</u>	<u>Weighted Average Maturity (days)</u>	<u>Maturities</u>	<u>Amortized Cost</u>
State Treasurer's Investment Pool	2 to 113	N/A	\$ 16,112,936

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. State statutes limit the maturities of certain investments as previously disclosed. Franklin County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. State statutes limit the ratings of certain investments as previously explained. Franklin County has no investment policy that would further limit its investment choices. As of June 30, 2018, Franklin County's investment in the State Treasurer's Investment Pool was unrated.

B. Capital Assets

Capital assets activity for the year ended June 30, 2018, was as follows:

C. Construction Commitments

Primary Government

At June 30, 2018, the county had uncompleted construction contracts of approximately \$9,796,678 for a jail expansion project, and approximately \$1,202,103 for a communication tower construction project. Funding has been received for these future expenditures.

D. Interfund Receivables, Payables, and Transfers

The composition of interfund balances as of June 30, 2018, was as follows:

Due to/from Other Funds:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
Primary Government:		
General	Nonmajor governmental	\$ 3,394
Solid Waste/Sanitation	General	607
Highway/Public Works	General	665
"	Solid Waste/Sanitation	266
Discretely Presented School Department:		
Nonmajor governmental	General Purpose School	154,705

These balances resulted from the time lag between the dates that interfund goods and services are provided or reimbursable expenditures occur and payments between funds are made.

The receivables in the Solid Waste/Sanitation and Highway/Public Works funds totaling \$607 and \$266 were in transit from the General Fund and the Solid Waste/Sanitation Fund respectively, at June 30, 2018.

Due to/from Primary Government and Component Unit:

Receivable Fund	Payable Fund	Amount
Primary Government: Governmental Activities	Component Unit: School Department: Governmental Activities	\$ 139,184

The Due to Primary Government consists of the balance of a capital lease issued by the county for the School Department. The School Department has agreed to contribute the funds annually to the county's General Debt Service Fund to retire this lease. This long-term obligation is reflected in the governmental activities on the Statement of Net Position.

Interfund Transfers:

Interfund transfers for the year ended June 30, 2018, consisted of the following amounts:

Primary Government

Transfers Out	Transfers In			Purpose
	General Fund	General Debt Service	Other Capital Projects	
General Fund	\$ 0	\$ 0	\$ 1,000,000	Technical School Construction
Solid Waste/Sanitation	48,803	0	0	Reimbursement
Highway/Public Works	53,803	0	0	"
Nonmajor governmental funds	3,000	0	0	"
"	0	200,000	0	Debt Payment
Total	\$ 105,606	\$ 200,000	\$ 1,000,000	

Transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and to use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

E. Capital Leases

On October 1, 2010, Franklin County entered into a ten-year lease-purchase agreement for the School Department for an energy efficient lighting system for some school buildings. The terms of the original agreement required total lease payments of \$581,879 plus interest of five percent. Title to the energy efficient lighting system transfers to the School Department at the end of the lease period. The General Purpose School Fund is contributing the lease payments through the Education Debt Service Fund.

The assets acquired through capital leases are as follows:

F. Long-term Obligations

Primary Government

General Obligation Bonds and Notes

Franklin County issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities for the primary government and the discretely presented School Department. In addition, general obligation bonds have been issued to refund other general obligation bonds. Capital outlay notes are also issued to fund capital facilities and other capital outlay purchases, such as equipment.

General obligation bonds and capital outlay notes are direct obligations and pledge the full faith and credit of the government. General obligation bonds and capital outlay notes outstanding were issued for original terms of up to 21 years for bonds and 12 years for notes. Repayment terms are generally structured with increasing amounts of principal maturing as interest requirements decrease over the term of the debt. Bonds will be retired from the General Debt Service and Education Debt Service funds and notes will be retired from the Highway/Public Works and General Debt Service funds.

General obligation bonds, notes, and capital leases outstanding as of June 30, 2018, for governmental activities are as follows:

Type	Interest Rate	Final Maturity	Original Amount of Issue	Balance 6-30-18
General Obligation Bonds	2 to 5 %	6-1-38	\$ 15,390,000	\$ 15,390,000

There is \$2,998,803 available in the General Debt Service Fund and \$3,533,805 available in the Education Debt Service Fund to service long-term debt. Bonded debt per capita totaled \$628, based on the 2010 federal census. Total debt per capita, including bonds, notes, capital leases, and unamortized debt premiums, totaled \$745, based on the 2010 federal census.

The School Department is currently contributing funds to service some of the debt issued on its behalf by the primary government as noted in the table

below. This debt is reflected in the government-wide financial statements as Due to the Primary Government in the financial statements of the School Department and as Due from Component Units in the financial statements of the primary government.

G. On-Behalf Payments

Discretely Presented Franklin County School Department

The State of Tennessee pays health insurance premiums for retired teachers on-behalf of the Franklin County School Department. These payments are made by the state to the Local Education Group Insurance Plan and the Medicare Supplement Plan. Both of these plans are administered by the State of Tennessee and reported in the state's Comprehensive Annual Financial Report. Payments by the state to the Local Education Group Insurance Plan and the Medicare Supplement Plan for the year ended June 30, 2018, were \$131,050 and \$51,950, respectively. The School Department has recognized these on-behalf payments as revenues and expenditures in the General Purpose School Fund.

H. Short-term Debt

Discretely Presented Franklin County School Department

Franklin County issued revenue anticipation notes totaling \$100,000 from the General Purpose School Fund in advance of revenue collections and deposited the proceeds in the School Federal Projects Fund. These notes were necessary because funds were not available to meet obligations coming due before grant reimbursement collections. Short-term debt activity for the year ended June 30, 2018, was as follows:

	Balance			Balance
	7-1-17	Issued	Paid	6-30-18
Revenue Anticipation Note	\$ 0	\$ 100,000	\$ (100,000)	\$ 0

V. OTHER INFORMATION

A. Risk Management

Franklin County and the discretely presented Franklin County School Department participate in the Tennessee Risk Management Trust (TN-RMT), which is a public entity risk pool created under the auspices of the Tennessee Governmental Tort Liability Act to provide governmental insurance coverage. The county and the School Department pay annual premiums to the TN-RMT for their general liability, property, and casualty coverage. The creation of the TN-RMT provides for it to be self-sustaining through member premiums.

The county carries commercial insurance for risks of loss relating to workers' compensation. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years. The county does not insure against environmental claims or losses.

Franklin County provides health insurance coverage to its employees through the Local Government Group Insurance Fund (LGGIF), a public entity risk pool established to provide a program of health insurance coverage for employees of local governments and quasi-governmental entities that was established for the primary purpose of providing services for or on behalf of state and local governments. In accordance with Section 8-27-207, *Tennessee Code Annotated (TCA)*, all local governments and quasi-governmental entities described above are eligible to participate. The LGGIF is included in the Comprehensive Annual Financial Report of the State of Tennessee, but the state does not retain any risk for losses by the fund. The state statute provides for the LGGIF to be self-sustaining through member premiums.

The School Department's risks of loss relating to workers' compensation are covered by participation in a public entity risk pool. The School Department is a member of the Tennessee Risk Management Trust (TN-RMT), which is a public entity risk pool created under the auspices of the Tennessee Governmental Tort Liability Act to provide governmental insurance coverage. The School Department pays annual premiums to the TN-RMT for its workers' compensation coverage. The creation of the TN-RMT provides for it to be self-sustaining through member premiums.

The School Department participates in the Local Education Group Insurance Fund (LEGIF), a public entity risk pool established to provide a program of health insurance coverage for employees of local education agencies. In accordance with Section 8-27-301, *TCA*, all local education agencies are eligible to participate. The LEGIF is included in the Comprehensive Annual Financial Report of the State of Tennessee, but the state does not retain any risk for losses by this fund. Section 8-27-303, *TCA*, provides for the LEGIF to be self-sustaining through member premiums.

B. Accounting Changes

Provisions of Governmental Accounting Standards Board (GASB) Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*; Statement No. 81, *Irrevocable Split-Interest Agreements*; Statement No. 85, *Omnibus 2017*; and Statement No. 86, *Certain Debt Extinguishment Issues* became effective for the year ended June 30, 2018.

GASB Statement No. 75, establishes accounting and reporting requirements for postemployment benefits other than pensions (other postemployment benefits or OPEB), which are included in the general purpose financial reports of state and local governmental OPEB plans. This statement replaces GASB Statements No. 45 and No. 57. The scope of this statement establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures. For defined benefit OPEB, this statement identifies the methods and assumptions that are required to be used to project benefit payments, discount projected benefit payments to their actuarial present value, and attribute that present value to

periods of employee service. Note disclosure and required supplementary information requirements about defined benefit OPEB also are addressed.

GASB Statement No. 81, establishes accounting and financial reporting guidance for irrevocable split-interest agreements in which a government is a beneficiary.

GASB Statement No. 85, addresses practice issues that have been identified during implementation and application of certain GASB Statements. This statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits [OPEB]).

GASB Statement No. 86, establishes guidance for transactions in which cash and other monetary assets acquired with only existing resources—resources other than the proceeds of refunding debt—are placed in an irrevocable trust for the sole purpose of extinguishing debt. This statement also provides guidance for accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance.

C. Contingent Liabilities

The county is involved in several pending lawsuits. Attorneys for the county and officials with the School Department estimate that the potential claims against the county not covered by insurance resulting from such litigation would not materially affect the county's financial statements.

D. Landfill Postclosure Care Costs

Franklin County has an active permit on file with the state Department of Environment and Conservation for a sanitary landfill. The county has provided financial assurances for estimated postclosure liabilities as required by the State of Tennessee. These financial assurances are on file with the Department of Environment and Conservation.

State and federal laws and regulations require the county to place a final cover on its landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for 30 years after closure. Although closure and postclosure care costs will be paid only near or after the date that the landfill stops accepting waste, the county reports a portion of these postclosure care costs as an operating expense in each period based on landfill capacity used as of each balance sheet date. Franklin County closed its sanitary landfill in 1995. The \$311,917 reported as landfill postclosure care liability at June 30, 2018, represents amounts based on what it would cost to perform all postclosure care in 2018. Actual costs may be higher due to inflation, changes in technology, or changes in regulations.

E. Joint Ventures

The Interlocal Solid Waste Authority is jointly operated by the counties of Franklin and Lincoln and the municipality of Tullahoma for the purpose of developing a solid waste regional plan. Since inception, the municipalities of Shelbyville, Ardmore, Elkton, Petersburg, Pulaski, and Minor Hill have been admitted as “participants.” The authority’s board was appointed by each participating county commission or City Council for varying terms of office. Franklin County made no contributions to the authority for the year ended June 30, 2018.

The Twelfth Judicial District Drug Task Force (DTF) is a joint venture formed by an interlocal agreement between the district attorney general of the Twelfth Judicial District; Bledsoe, Franklin, Grundy, Marion, Rhea, and Sequatchie counties; and various cities within these counties. The purpose of the DTF is to provide multi-jurisdictional law enforcement to promote the investigation and prosecution of drug-related activities. Funds for the operations of the DTF come primarily from federal grants, drug fines, and the forfeiture of drug-related assets to the DTF. The DTF is overseen by the district attorney general and is governed by a board of directors comprised of the district attorney general, sheriffs, and police chiefs of the participating law enforcement agencies within the judicial district. Franklin County made no contributions to the DTF for the year ended June 30, 2018.

Franklin County does not have equity interests in any of the above-noted joint ventures. Complete financial statements for the Interlocal Solid Waste Authority and the Twelfth Judicial District Drug Task Force can be obtained from their administrative offices at the following addresses:

F. Retirement Commitments

1. Tennessee Consolidated Retirement System (TCRS)

Primary Government

General Information About the Pension Plan

Plan Description. Employees of Franklin County and non-certified employees of the discretely presented Franklin County School Department are provided a defined benefit pension plan through the Public Employee Retirement Plan, an agent multiple-employer pension plan administered by the TCRS. The primary government employees comprise 57.47 percent, the non-certified employees of the discretely presented School Department comprise 42.53 percent of the plan based on contribution data. The TCRS was created by state statute under *Tennessee Code Annotated (TCA)*, Title 8, Chapters 34-37. The TCRS Board of Trustees is responsible for the proper operation and administration of the TCRS. The Tennessee Treasury Department, an agency in the legislative branch of state government, administers the plans of the TCRS. The TCRS issues a publicly available financial report that can be obtained at www.treasury.tn.gov/tcrs.

Benefits Provided. TCA, Title 8, Chapters 34-37 establish the benefit terms and can be amended only by the Tennessee General Assembly. The chief legislative body may adopt the benefit terms permitted by statute. Members are eligible to retire with an unreduced benefit at age 60 with five years of service credit or after 30 years of service credit regardless of age. Benefits are determined by a formula using the member's highest five consecutive year average compensation and the member's years of service credit. Reduced benefits for early retirement are available to vested members at age 55. Members vest with five years of service credit. Service related disability benefits are provided regardless of length of service. Five years of service is required for non-service related disability eligibility. The service related and non-service related disability benefits are determined in the same manner as a service retirement benefit but are reduced ten percent and include projected service credits. A variety of death benefits is available under various eligibility criteria.

Member and beneficiary annuitants are entitled to an automatic cost of living adjustment (COLA) after retirement. A COLA is granted each July for annuitants retired prior to the second of July of the previous year. The COLA is based on the change in the consumer price index (CPI) during the prior calendar year, capped at three percent, and applied to the current benefit. No COLA is granted if the change in the CPI is less than one-half percent. A one percent COLA is granted if the

CPI change is between one-half percent and one percent. A member who leaves employment may withdraw their employee contributions plus any accumulated interest.

Employees Covered by Benefit Terms. At the measurement date of June 30, 2017, the following employees were covered by the benefit terms:

Inactive Employees or Beneficiaries Currently Receiving Benefits	346
Inactive Employees Entitled to But Not Yet Receiving Benefits	400
Active Employees	<u>522</u>
Total	<u><u>1,268</u></u>

Contributions. Contributions for employees are established in the statutes governing the TCRS and may only be changed by the Tennessee General Assembly. Employees are non-contributory. Franklin County makes employer contributions at the rate set by the Board of Trustees as determined by an actuarial valuation. For the year ended June 30, 2018, the employer contribution for Franklin County was \$2,176,005 based on a rate of 14 percent of covered payroll. By law, employer contributions are required to be paid. The TCRS may intercept Franklin County’s state shared taxes if required employer contributions are not remitted. The employer’s actuarially determined contributions (ADC) and member contributions are expected to finance the costs of benefits earned by members during the year, the cost of administration, as well as an amortized portion of any unfunded liability.

Net Pension Liability (Asset)

Franklin County’s net pension liability (asset) was measured as of June 30, 2017, and the total pension liability (asset) used to calculate net pension liability (asset) was determined by an actuarial valuation as of that date.

Actuarial Assumptions. The total pension liability as of the June 30, 2017, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.5%
Salary Increases	Graded Salary Ranges from 8.72% to 3.46% Based on Age, Including Inflation, Averaging 4%
Investment Rate of Return	7.25%, Net of Pension Plan Investment Expenses, Including Inflation
Cost of Living Adjustment	2.25%

Mortality rates were based on actual experience including an adjustment for some anticipated improvement.

The actuarial assumptions used in the June 30, 2017, actuarial valuation were based on the results of an actuarial experience study performed for the period July 1, 2012, through June 30, 2016. The demographic assumptions were adjusted to more closely reflect actual and expected future experience.

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees in conjunction with the June 30, 2016, actuarial experience study. A blend of future capital market projections and historic market returns was used in a building-block method in which a best-estimate of expected future real rates of return (expected returns, net of pension plan investments expense and inflation) is developed for each major asset class. These best-estimates are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target allocation percentage and by adding expected inflation of 2.5 percent. The best-estimates of geometric real rates of return and the TCRS investment policy target asset allocation for each major class are summarized in the following table:

Asset Class	Percentage Long-term Expected Real Rate of Return		Percentage Target Allocations	
U.S. Equity	5.69	%	31	%
Developed Market				
International Equity	5.29		14	
Emerging Market				
International Equity	6.36		4	
Private Equity and				
Strategic Lending	5.79		20	
U.S. Fixed Income	2.01		20	
Real Estate	4.32		10	
Short-term Securities	0.00		1	
			100	%
Total			100	%

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees as 7.25 percent based on a blending of the factors described above.

Changes of Assumptions. In 2017, the following assumptions were changed: decreased inflation rate from 3.0 percent to 2.5 percent; decreased the investment rate of return from 7.5 percent to 7.25 percent; decreased the cost-of-living adjustment from 2.5 to 2.25 percent; decreased salary growth graded ranges from an average of 4.25 percent to an average of 4 percent; and modified the mortality assumptions.

Discount Rate. The discount rate used to measure the total pension liability was 7.25 percent. The projection of cash flows used to determine the discount rate assumes that employee contributions will be made at the current rate and that contributions from Franklin County will be made at the actuarially determined contribution rate pursuant to an actuarial valuation in accordance with the funding policy of the TCRS Board of Trustees and as required to be paid by state statute. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make projected future benefit payments of current active and inactive members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Discretely Presented Franklin County School Department

Non-certified Employees

General Information About the Pension Plan

Plan Description. As noted above under the primary government, employees of Franklin County and non-certified employees of the discretely presented Franklin County School Department are provided a defined benefit pension plan through the Public Employee Retirement Plan, an agent multiple-employer pension plan administered by the TCRS. The primary government employees comprise 57.47 percent and the non-certified employees of the discretely presented School Department comprise 42.53 percent of the plan based on contribution data.

Teacher Retirement Plan

General Information About the Pension Plan

Plan Description. Teachers of the Franklin County School Department with membership in the TCRS before July 1, 2014, are provided with pensions through the Teacher Legacy Pension Plan, a cost-sharing multiple-employer pension plan administered by the TCRS. The Teacher Legacy Pension Plan is closed to new membership. Teachers with membership in the TCRS after June 30, 2014, are provided with pensions through a legally separate plan referred to as the Teacher Retirement Plan, a cost-sharing multiple-employer pension plan administered by the TCRS. The TCRS was created by state statute under *Tennessee Code Annotated (TCA)*, Title 8, Chapters 34-37. The TCRS Board of Trustees is responsible for the proper operation and administration of all employer pension plans in the TCRS. The Tennessee Treasury Department, an agency in the legislative branch of state government, administers the plans of the TCRS. The TCRS issues a publicly available financial report that can be obtained at www.treasury.tn.gov/tcrs.

Benefits Provided. TCA, Title 8, Chapters 34-37 establish the benefit terms and can be amended only by the Tennessee General Assembly. Members are eligible to retire with an unreduced benefit at age 65 with five years of service credit or pursuant to the rule of 90 in which the member's age and service credit total 90. Benefits are determined by a formula using the member's highest five consecutive year average compensation and the member's years of service credit. A reduced early retirement benefit is available to vested members at age 60 or pursuant to the rule of 80. Members are vested with five years of service credit. Service related disability benefits are provided regardless of length of service. Five years of service is required for non-service related disability eligibility. The service related and non-service related disability benefits are determined in the same manner as a service retirement benefit but are reduced ten percent and include projected service credits. A variety of death benefits is available under various eligibility criteria. Member and beneficiary annuitants are entitled to an automatic cost of living adjustment (COLA) after retirement. A COLA is granted each July for annuitants retired prior to the second of July of the previous year. The COLA is based on the change in the consumer price index (CPI) during the prior calendar year, capped at three percent, and applied to the current benefit. No COLA is granted if the change in the CPI is less than one-half percent. A one percent COLA is granted if the CPI change is between one-half percent and one percent. Members who leave employment may withdraw their employee contributions, plus any accumulated interest. Under the Teacher

Retirement Plan, benefit terms and conditions, including COLA, can be adjusted on a prospective basis. Moreover, there are defined cost controls and unfunded liability controls that provide for the adjustment of benefit terms and conditions on an automatic basis.

Contributions. Contributions for teachers are established in the statutes governing the TCRS and may only be changed by the Tennessee General Assembly or by automatic cost controls set out in law. Teachers are required to contribute five percent of their salary to the plan. The Local Education Agencies (LEAs) make employer contributions at the rate set by the Board of Trustees as determined by an actuarial valuation. Per the statutory provisions governing TCRS, the employer contribution rate cannot be less than four percent, except in years when the maximum funded level, approved by the TCRS Board of Trustees, is reached. By law, employer contributions for the Teacher Retirement Plan are required to be paid. The TCRS may intercept the state shared taxes of the sponsoring governmental entity of the LEA if the required employer contributions are not remitted. Employer contributions for the year ended June 30, 2018, to the Teacher Retirement Plan were \$101,671, which is 4.01 percent of covered payroll. The employer rate, when combined with member contributions, is expected to finance the costs of benefits earned by members during the year, the cost of administration, as well as an amortized portion of any unfunded liability.

Pension Liabilities (Assets), Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

Pension Liabilities (Assets). At June 30, 2018, the School Department reported a liability (asset) of (\$80,604) for its proportionate share of the net pension liability (asset). The net pension liability (asset) was measured as of June 30, 2017, and the total pension liability (asset) used to calculate the net pension liability (asset) was determined by an actuarial valuation as of that date. The School Department's proportion of the net pension liability (asset) was based on the School Department's share of contributions to the pension plan relative to the contributions of all participating LEAs. At the measurement date of June 30, 2017, the School Department's proportion was .305505 percent. The proportion as of June 30, 2016, was .336686 percent.

Pension Expense. For the year ended June 30, 2018, the School Department recognized pension expense of \$36,714.

Deferred Outflows of Resources and Deferred Inflows of Resources. For the year ended June 30, 2018, the School Department reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference Between Expected and Actual Experience	\$ 2,825	\$ 6,062
Net Difference Between Projected and Actual Earnings on Pension Plan Investments	0	4,337
Changes in Assumptions	7,081	0
Changes in Porportion of Net Pension Liability (Asset)	3,452	812
LEA's Contributions Subsequent to the Measurement Date of June 30, 2017 (1)	<u>101,671</u>	<u>N/A</u>
Total	<u>\$ 115,029</u>	<u>\$ 11,211</u>

The School Department's employer contributions of \$101,671, reported as pension related deferred outflows of resources subsequent to the measurement date, will be recognized as an increase of net pension asset in the year ending June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30	Amount
2019	\$ (231)
2020	(231)
2021	(479)
2022	(1,595)
2023	450
Thereafter	4,234

In the table above, positive amounts will increase pension expense, while negative amounts will decrease pension expense.

Actuarial Assumptions. The total pension liability in the June 30, 2017, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.5%
Salary Increases	Graded Salary Ranges from 8.72% to 3.46% Based on Age, Including Inflation, Averaging 4%
Investment Rate of Return	7.25%, Net of Pension Plan Investment Expenses, Including Inflation
Cost of Living Adjustment	2.25%

Mortality rates are based on actual experience including an adjustment for some anticipated improvement.

The actuarial assumptions used in the June 30, 2017, actuarial valuation were based on the results of an actuarial experience study performed for the period July 1, 2012, through June 30, 2016. The demographic assumptions were adjusted to more closely reflect actual and expected future experience.

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees in conjunction with the June 30, 2016, actuarial experience study. A blend of future capital market projections and historic market returns was used in a building-block method in which a best-estimate of expected future real rates of return (expected returns, net of pension plan investments expense and inflation) is developed for each major asset class. These best-estimates are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target allocation percentage and by adding expected inflation of 2.5 percent. The best-estimates of geometric real rates of return and the TCRS investment policy target asset allocation for each major class are summarized in the following table:

Asset Class	Percentage Long-term Expected Real Rate of Return	Percentage Target Allocations
U.S. Equity Developed Market	5.69 %	31 %
International Equity Emerging Market	5.29	14
International Equity Private Equity and Strategic Lending	6.36	4
U.S. Fixed Income Real Estate	5.79	20
	2.01	20
	4.32	10
Short-term Securities	0.00	1
Total		100 %

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees as 7.25 percent based on a blending of the factors described above.

Changes of Assumptions. In 2017, the following assumptions were changed: decreased inflation rate from 3.0 percent to 2.5 percent; decreased the investment rate of return from 7.5 percent to 7.25 percent; decreased the cost-of-living adjustment from 2.5 percent to 2.25 percent; decreased salary growth graded ranges from an average of 4.25 percent to an average of 4.0 percent; and modified the mortality assumptions.

Discount Rate. The discount rate used to measure the total pension liability was 7.25 percent. The projection of cash flows used to determine the discount rate assumes that employee contributions will be made at the current rate and that contributions from all the LEAs will be made at the actuarially determined contribution rate pursuant to an actuarial valuation in accordance with the funding policy of the TCRS Board of Trustees and as required to be paid by state statute. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make projected future benefit payments of current active and inactive members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Proportionate Share of Net Pension Liability (Asset) to Changes in the Discount Rate. The following presents the School Department's proportionate share of the net pension liability (asset) calculated using the discount rate of 7.25 percent, as well as what the School Department's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is one percentage point lower (6.25%) or one percentage point higher (8.25%) than the current rate:

School Department's Proportionate Share of the Net Pension Liability (Asset)	1% Decrease 6.25%	Current Discount Rate 7.25%	1% Increase 8.25%
Net Pension Liability	\$ 16,081	\$ (80,604)	\$ (151,522)

Pension Plan Fiduciary Net Position. Detailed information about the pension plan's fiduciary net position is available in a separately issued TCRS financial report.

Teacher Legacy Pension Plan

General Information About the Pension Plan

Plan Description. Teachers of the Franklin County School Department with membership in the TCRS before July 1, 2014, are provided with pensions through the Teacher Legacy Pension Plan, a cost-sharing multiple-employer pension plan administered by the TCRS. The Teacher Legacy Pension Plan closed to new membership on June 30, 2014, but will continue providing benefits to existing members and retirees. Beginning July 1, 2014, the Teacher Retirement Plan became effective for teachers employed by LEAs after June 30, 2014. The Teacher Retirement Plan is a separate cost-sharing, multiple-employer defined benefit plan. The TCRS was created by state statute under *Tennessee Code Annotated (TCA)*, Title 8, Chapters 34-37. The TCRS Board of Trustees is responsible for the proper operation and administration of all employer pension plans in the TCRS. The Tennessee Treasury Department, an agency in the legislative branch of state government, administers the plans of the TCRS. The TCRS issues a publicly available financial report that can be obtained at www.treasury.tn.gov/tcrs.

Benefits Provided. TCA, Title 8, Chapters 34-37 establish the benefit terms and can be amended only by the Tennessee General Assembly. Members of the Teacher Legacy Pension Plan are eligible to retire with an unreduced benefit at age 60 with five years of service credit or after 30 years of service credit regardless of age. Benefits are determined by a formula using the member's highest five consecutive year average compensation and the member's years of service credit. A reduced early

retirement benefit is available to vested members at age 55. Members are vested with five years of service credit. Service related disability benefits are provided regardless of length of service. Five years of service is required for non-service related disability eligibility. The service related and non-service related disability benefits are determined in the same manner as a service retirement benefit but are reduced ten percent and include projected service credits. A variety of death benefits is available under various eligibility criteria. Member and beneficiary annuitants are entitled to an automatic cost of living adjustment (COLA) after retirement. A COLA is granted each July for annuitants retired prior to the second of July of the previous year. The COLA is based on the change in the consumer price index (CPI) during the prior calendar year, capped at three percent, and applied to the current benefit. No COLA is granted if the change in the CPI is less than one-half percent. A one percent COLA is granted if the CPI change is between one-half and one percent. A member who leaves employment may withdraw their employee contributions, plus any accumulated interest. Under the Teacher Legacy Pension Plan, benefit terms and conditions, including COLAs can be adjusted on a prospective basis. Moreover, there are defined cost controls and unfunded liability controls that provide for the adjustment of benefit terms and conditions on an automatic basis.

Contributions. Contributions for teachers are established in the statutes governing the TCRS and may only be changed by the Tennessee General Assembly. Teachers are required to contribute five percent of their salaries. The Local Education Agencies (LEAs) make employer contributions at the rate set by the Board of Trustees as determined by an actuarial valuation. By law, employer contributions for the Teacher Legacy Pension Plan are required to be paid. The TCRS may intercept the state shared taxes of the sponsoring governmental entity of the LEA if the required employer contributions are not remitted. Employer contributions by the Franklin County School Department for the year ended June 30, 2018, to the Teacher Legacy Pension Plan were \$1,744,155, which is 9.08 percent of covered payroll. The employer rate, when combined with member contributions, is expected to finance the costs of benefits earned by members during the year, the cost of administration, as well as an amortized portion of any unfunded liability.

Pension Liabilities (Assets), Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

Pension Liability (Assets). At June 30, 2018, the School Department reported a liability (asset) of (\$179,290) for its proportionate share of the net pension liability (asset). The net pension liability (asset) was measured as of June 30, 2017, and the total pension liability used to

calculate the net pension liability (asset) was determined by an actuarial valuation as of that date. The School Department's proportion of the net pension liability (asset) was based on the School Department's long-term share of contributions to the pension plan relative to the contributions of all participating LEAs. At the measurement date of June 30, 2017, the School Department's proportion was .547981 percent. The proportion measured at June 30, 2016, was .538739 percent.

Pension Expense. For the year ended June 30, 2018, the School Department recognized pension expense of \$16,521.

Deferred Outflows of Resources and Deferred Inflows of Resources. For the year ended June 30, 2018, the School Department reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
	<u> </u>	<u> </u>
Difference Between Expected and Actual Experience	\$ 108,089	\$ 3,701,500
Changes in Assumptions	1,518,484	0
Net Difference Between Projected and Actual Earnings on Pension Plan Investments	27,216	0
Changes in Proportion Net Pension Liability (Asset)	127,463	95,973
LEA's Contributions Subsequent to the Measurement Date of June 30, 2017	<u>1,744,155</u>	N/A
Total	<u>\$ 3,525,407</u>	<u>\$ 3,797,473</u>

The School Department's employer contributions of \$1,744,155 reported as pension related deferred outflows of resources subsequent to the measurement date, will be recognized as a decrease in net pension liability in the year ending June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30	Amount
2019	\$ (1,268,465)
2020	565,707
2021	(447,607)
2022	(865,856)
2023	0
Thereafter	0

In the table above, positive amounts will increase pension expense, while negative amounts will decrease pension expense.

Actuarial Assumptions. The total pension liability in the June 30, 2017, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.5%
Salary Increases	Graded Salary Ranges from 8.72% to 3.46% Based on Age, Including Inflation, Averaging 4%
Investment Rate of Return	7.25%, Net of Pension Plan Investment Expenses, Including Inflation
Cost of Living Adjustment	2.25%

Mortality rates are based actual experience including an adjustment for some anticipated improvement.

The actuarial assumptions used in the June 30, 2017, actuarial valuation were based on the results of an actuarial experience study performed for the period July 1, 2012, through June 30, 2016. The demographic assumptions were adjusted to more closely reflect actual and expected future experience.

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees in conjunction with the June 30, 2016, actuarial experience study. A blend of future capital market projections and historic market returns was used in a building-block method in which a best-estimate of expected future real rates of return (expected returns, net of pension plan investments expense and inflation) is developed for each major asset class. These best-estimates are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target allocation percentage and by adding expected inflation of 2.5 percent. The best-estimates of geometric real rates of return and the TCRS

investment policy target asset allocation for each major class are summarized in the following table:

Asset Class	Percentage Long-term Expected Real Rate of Return	Percentage Target Allocations
U.S. Equity Developed Market	5.69 %	31 %
International Equity Emerging Market	5.29	14
International Equity Private Equity and Strategic Lending	6.36	4
U.S. Fixed Income	5.79	20
Real Estate	2.01	20
Short-term Securities	4.32	10
	0.00	1
Total		100 %

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees as 7.25 percent based on a blending of the factors described above.

Changes of Assumptions. In 2017, the following assumptions were changed: decreased inflation rate from 3.0 percent to 2.5 percent; decreased the investment rate of return from 7.5 percent to 7.25 percent; decreased the cost-of-living adjustment from 2.5 percent to 2.25 percent; decreased salary growth graded ranges from an average of 4.25 percent to an average of 4.0 percent; and modified the mortality assumptions.

Discount Rate. The discount rate used to measure the total pension liability was 7.25 percent. The projection of cash flows used to determine the discount rate assumes that employee contributions will be made at the current rate and that contributions from all the LEAs will be made at the actuarially determined contribution rate pursuant to an actuarial valuation in accordance with the funding policy of the TCRS Board of Trustees and as required to be paid by state statute. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make projected future benefit payments of current active and inactive members. Therefore, the long-term expected rate of return on pension plan investments was applied to all

periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Proportionate Share of Net Pension Liability (Asset) to Changes in the Discount Rate. The following presents the School Department's proportionate share of the net pension liability (asset) calculated using the discount rate of 7.25 percent, as well as what the School Department's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is one percentage point lower (6.25%) or one percentage point higher (8.25%) than the current rate:

School Department's Proportionate Share of the Net Pension Liability (Asset)	1% Decrease	Current Discount Rate	1% Increase
	6.25%	7.25%	8.25%

Net Pension Liability	\$ 16,087,442	\$ (179,290)	\$ (13,624,816)
-----------------------	---------------	--------------	-----------------

Pension Plan Fiduciary Net Position. Detailed information about the pension plan's fiduciary net position is available in a separately issued TCRS financial report.

2. Deferred Compensation

Teachers hired after July 1, 2014, by the School Department are required to participate in a hybrid pension plan consisting of a defined benefit portion, which is detailed in the pensions footnote above and is managed by the Tennessee Consolidated Retirement System, and a defined contribution portion which is placed into the state's 401 (K) plan and is managed by the employee. The defined contribution portion of the plan requires that the School Department contribute five percent of each teacher's salary into their deferred compensation plan. In addition, teachers are required to contribute two percent of their salaries into this deferred compensation plan, unless they opt out of the employee portion. During the year the School Department contributed \$101,671 and teachers contributed \$126,676 to this deferred compensation pension plan.

G. Other Postemployment Benefits (OPEB)

Franklin County and the discretely presented Franklin County School Department provide OPEB benefits to its retirees under various OPEB plans. These include OPEB provided through state administered public entity risk pools and commercial health insurance plans. For reporting purposes the plans are considered single employer defined benefit OPEB plans based on criteria in Statement No. 75 of the Governmental Accounting Standards Board (GASB). The plans are funded on a pay-as-you-go basis and there are no assets

accumulating in a trust that meets the criteria of paragraph 4 of GASB Statement No. 75.

OPEB Provided through State Administered Public Entity Risk Pools

Primary Government

Retirees of Franklin County and the Franklin County Highway Department (Hwy) are provided healthcare under separate Local Government Plans (LGPs) until they reach Medicare eligibility. The primary government's LGPs are combined for presentation purposes.

The county's total OPEB liability for each plan was measured as of June 30, 2017, and was determined by an actuarial valuation as of that date.

Actuarial Assumptions and other inputs. The total OPEB liability in the June 30, 2017, actuarial valuation of each plan was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Actuarial Cost Method	Entry Age Normal
Inflation	2.25%
Salary Increases	Salary increases used in the July 1, 2017, TCRS actuarial valuation; 3.44% to 8.72%, including inflation
Discount Rate	3.56%
Healthcare Cost Trend Rates	LGP - Based on the Getzen Model, with trend starting at 7.5% for the 2018 calendar year, and gradually decreasing over a 33-year period to an ultimate trend rate of 3.53% with .18% added to approximate the effect of the excise tax
Retirees Share of Benefit Related Cost	Discussed under each plan

The discount rate was 3.56 percent, based on the daily rate of Fidelity's 20-Year Municipal GO AA index closest to but not later than the measurement date.

Mortality rates were based on the results of a statewide experience study undertaken on behalf of the Tennessee Consolidated Retirement System (TCRS). These mortality rates were used in the July 1, 2017, actuarial valuation of the TCRS.

Unless noted otherwise, the actuarial demographic assumptions used in the June 30, 2017, valuations were the same as those employed in the July 1, 2017, Pension Actuarial Valuation of the TCRS. These assumptions were developed by TCRS based on the results of an actuarial experience study for the period July 1, 2012 - June 30, 2016. The demographic assumptions were adjusted to more closely reflect actual and expected future experience. Mortality tables are used to measure the probabilities of participants dying before and after retirement. The mortality rates employed in this valuation are taken from the RP-2014 Healthy Participant Mortality Table for Annuitants for non-disabled post-retirement mortality, with mortality improvement projected to all future years using Scale MP-2016. Post-retirement tables are Blue Collar and adjusted with a 2 percent load for males and a -3 percent load for females. Mortality rates for impaired lives are the same as those used by TCRS and are taken from a gender distinct table published in the IRS Ruling 96-7 for disabled lives with a 10 percent load.

Changes in Assumptions. The discount rate changed from 2.92 percent as of the beginning of the measurement period to 3.56 percent as of the measurement date of June 30, 2017.

Closed Local Government OPEB Plan (Primary Government)

Plan Description. Employees of Franklin County who were hired prior to July 1, 2015, are provided with pre-65 retiree health insurance benefits through the closed Local Government Plan (LGP) administered by the Tennessee Department of Finance and Administration. All eligible pre-65 retired employees and disability participants of local governments, who choose coverage, participate in the LGP. This plan is closed to the employees of all participating employers that were hired on or after July 1, 2015.

Benefits Provided. Franklin County offers the LGP to provide health insurance coverage to eligible pre-65 retirees and disabled participants of local governments. With the exception of a small group of grandfathered individuals, retirees are required to discontinue coverage under the LGP upon obtaining Medicare eligibility. Insurance coverage is the only postemployment benefit provided to retirees. An insurance committee created in accordance with TCA 8-27-701 establishes and amends the benefit terms of the LGP. All members have the option of choosing between the premier preferred provider organization (PPO), standard PPO, limited PPO or the wellness health savings consumer-driven health plan (CDHP) for healthcare benefits. Retired plan members, of the LGP, receives the same plan benefits as active employees, at a blended premium rate that considers the cost of all participants. This creates an implicit subsidy for retirees. Participating employers determine their own policy related to direct subsidies provided for the retiree premiums. Franklin County does not provide a direct subsidy and is only subject to the implicit subsidy.

Employees Covered by Benefit Terms

At the measurement date of June 30, 2017, the following employees were covered by the benefit terms:

	Franklin County	Hwy Dept	Total
Inactive Employees or Beneficiaries Currently Receiving Benefits	4	0	4
Inactive Employees Entitled to But Not Yet Receiving Benefits	0	0	0
Active Employees	163	17	180
Total	<u>167</u>	<u>17</u>	<u>184</u>

An insurance committee, created in accordance with *TCA 8-27-701*, establishes the required payments to the LGP by member employers and employees through the blended premiums established for active and retired employees. Claims liabilities of the plan are periodically computed using actuarial and statistical techniques to establish premium rates. For the fiscal year ended June 30, 2018, the county paid \$58,655 (Franklin County - \$57,757, Highway Dept - \$898) to the LGP for OPEB benefits as they came due.

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources. For the year ended June 30, 2018, the county recognized OPEB expense of \$118,949 (Franklin County - \$96,285, Highway Dept - \$22,664). At June 30, 2018, the county reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference Between Expected and Actual Experience (Franklin County \$0, Hwy \$0)	\$ 0	\$ 0
Changes of Assumptions/Inputs (DI - County \$55,550, Hwy \$11,280)	0	66,830

Total	<u>\$ 61,090</u>	<u>\$ 66,830</u>

Amounts reported as deferred inflows and deferred outflows of resources (excluding benefits paid after the measurement date) related to OPEB will be recognized in OPEB expense as follows:

<u>Year Ending June 30</u>	<u>County</u>	<u>Hwy</u>	<u>Total Amount</u>

2023	(6,693)	(1,763)	(8,456)
Thereafter	(22,085)	(2,465)	(24,550)

In the table shown above positive amounts will increase OPEB expense while negative amounts will decrease OPEB expense.

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate. The following presents the total OPEB liability of the county calculated using the current discount rate as well as what the OPEB liability would be if it was calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

Closed Local Education (LEP) OPEB Plan (Discretely Presented School Department)

Plan Description. Employees of the Franklin County School Department who were hired prior to July 2015, are provided with pre-65 retiree health insurance benefits through the closed Local Education Plan (LEP) administered by the Tennessee Department of Finance and Administration. All eligible pre-65 retired teachers, support staff, and disability participants of local education agencies, who choose coverage, participate in the LEP. This plan is closed to the employees of all participating employers that were hired on or after July 1, 2015.

Benefits Provided. The Franklin County School Department offers the LEP to provide health insurance coverage to eligible pre-65 retirees, support staff, and disabled participants of local education agencies. Retirees are required to discontinue coverage under the LEP upon obtaining Medicare eligibility. Insurance coverage is the only postemployment benefit provided to retirees. An insurance committee created in accordance with TCA 8-27-301 establishes and amends the benefit terms of the LEP. All members have the option of

choosing between the premier preferred provider organization (PPO), standard PPO, limited PPO or the wellness health savings consumer-driven health plan (CDHP) for healthcare benefits. Retired plan members of the LEP receive the same plan benefits as active employees at a blended premium rate that considers the cost of all participants. This creates an implicit subsidy for retirees. Participating employers determine their own policy related to direct subsidies provided for retiree premiums. Franklin County School Department does not provide direct subsidies for retirees. The state, as a governmental non-employer contributing entity, provides a direct subsidy for eligible retirees' premiums based on years of service. Therefore, retirees with 30 or more years of service will receive 45%; 20 but less than 30 years, 35%; and less than 20 years, 20% of the scheduled premium. No subsidy is provided for enrollees of the health savings CDHP.

Employees Covered by Benefit Terms

At the measurement date of June 30, 2017, the following employees were covered by the benefit terms:

	<u>School Department</u>
Inactive Employees or Beneficiaries Currently Receiving Benefits	30
Inactive Employees Entitled to But Not Yet Receiving Benefits	0
Active Employees	649
Total	<u><u>679</u></u>

A state insurance committee, created in accordance with TCA 8-27-301, establishes the required payments to the LEP by member employers and employees through the blended premiums established for active and retired employees. Claims liabilities of the plan are periodically computed using actuarial and statistical techniques to establish premium rates. Administrative costs are allocated to plan participants. Employers contribute towards employee costs based on their own developed policies. During the current reporting period, the School Department paid \$305,350 to the LEP for OPEB benefits as they came due.

Balance June 30, 2018	\$ 9,049,801	\$ 2,865,436	\$ 11,915,237

The Franklin County School Department has a special funding situation related to benefits paid by the State of Tennessee for its eligible retired employees participating in the LEP. The Franklin County School Department's proportionate share of the collective total OPEB liability was based on a projection of the employers' long-term share of benefit payments to the OPEB plan relative to the projected share of benefit payments of all participating employers and nonemployer contributing entities, actuarially determined. The School Department recognized \$238,108 in revenue for subsidies provided by nonemployer contributing entities for benefits paid by the LEP for School Department retirees.

During the year, the Franklin County School Department's proportionate share of the collective OPEB liability was 75.95% and the State of Tennessee's share was 24.06%.

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources. For the year ended June 30, 2018, the School Department recognized OPEB expense of \$990,115, including the state's share of the expense. At June 30, 2018, the School Department reported deferred outflows of resources and deferred inflows of resources related to its proportionate share of OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
	<u>Resources</u>	<u>Resources</u>
Difference Between Expected and Actual Experience	\$ 0	\$ 0

H. Office of Central Accounting, Budgeting, and Purchasing

Franklin County operates under the provisions of the County Financial Management System of 1981. This act provides for a central system of accounting, budgeting, and purchasing for all county departments. The act also provides for the creation of a Finance Department operated under the direction of the finance director.

I. Purchasing Law

The County Financial Management System of 1981 provides for the finance director or a deputy appointed by her to serve as the county purchasing agent. The finance director serves as the purchasing agent for Franklin County. All purchase orders are issued by the Finance Department. Purchases exceeding \$25,000 for the Office of County Mayor, the discretely presented School Department, and the Office of Highway Superintendent are required to be competitively bid.

J. Subsequent Events

Richard Stewart left the Office of County Mayor on August 31, 2018, and was succeeded by David Alexander.

Lydia Curtis Johnson left the Office of Register of Deeds on August 31, 2018, and was succeeded by Denise Marshall.

Major Governmental Funds

Debt Service Funds

Debt Service Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

General Debt Service Fund – The General Debt Service Fund is used to account for the accumulation of resources for, and the payment of, debt principal, interest, and related costs.

Education Debt Service Fund – The Education Debt Service Fund is used to account for the retirement of bonds, other loans, and most notes issued for the construction and renovations of the county's schools.

Fiduciary Funds

Agency Funds are used to account for assets held by the county in a trustee capacity or as an agent for individuals, private organizations, other governments, and/or other funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Cities - Sales Tax Fund – The Cities - Sales Tax Fund is used to account for the second half of the sales tax revenues collected inside incorporated cities of the county. These revenues are received by the county from the State of Tennessee and forwarded to the various cities on a monthly basis.

Constitutional Officers - Agency Fund – The Constitutional Officers - Agency Fund is used to account for amounts collected in an agency capacity by the county clerk; circuit, general sessions, and juvenile courts clerk; clerk and master; register of deeds; and sheriff. Such collections include amounts due the state, cities, other county funds, litigants, heirs, and others.

Franklin County School Department

This section presents combining and individual fund financial statements for the Franklin County School Department, a discretely presented component unit. The Franklin County School Department uses a General Fund and two Special Revenue Funds.

General Purpose School Fund – The General Purpose School Fund is used to account for general operations of the School Department.

School Federal Projects Fund – The School Federal Projects Fund is used to account for restricted federal revenues, which must be expended on specific education programs.

Central Cafeteria Fund – The Central Cafeteria Fund is used to account for the cafeteria operations in each of the schools.

Franklin County, Tennessee
Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances
of Governmental Funds to the Statement of Activities
Discretely Presented Franklin County School Department
For the Year Ended June 30, 2018

Amounts reported for governmental activities in the statement of activities (Exhibit B) are different because:

Net change in fund balances - total governmental funds (Exhibit I-4)		\$	831,283
(1) Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of these assets is allocated over their useful lives and reported as depreciation expense. The difference between capital outlays and depreciation is itemized as follows:			
Add: capital assets purchased in the current period	\$	615,192	
Less: current-year depreciation expense		<u>(1,912,976)</u>	(1,297,784)
(2) The net effect of various miscellaneous transactions involving capital assets (sales, trade-ins, and donations) is to decrease net position			
Less: book value of capital assets disposed			(97,165)
(3) Revenues in the statement of activities that do not provide current financial resources are not reported in the funds.			
Add: deferred delinquent property taxes and other deferred June 30, 2018	\$	707,284	
Less: deferred delinquent property taxes and other deferred June 30, 2017		<u>(657,807)</u>	49,477
(4) The contributions of long-term debt (e.g., notes, bonds, leases) by the primary government provide current financial resources to governmental funds, while the contributions by the School Department of the principal of long-term debt consume the current financial resources of governmental funds. Neither transaction, however, has any effect on net position.			
Add: principal contributions on leases to primary government			64,843
(5) Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds.			
Change in compensated absences payable	\$	(4,762)	
Change in OPEB Obligation (net of restatement)		(144,849)	
Change in deferred outflows related to OPEB (net of restatement)		68,466

**Report on Internal Control Over Financial Reporting and
on Compliance and Other Matters Based on an Audit of Financial Statements
Performed in Accordance With *Government Auditing Standards***

Independent Auditor's Report

Franklin County Mayor and
Board of County Commissioners
Franklin County, Tennessee

To the County Mayor and Board of County Commissioners:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Franklin County, Tennessee, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise Franklin County's basic financial statements, and have issued our report thereon dated October 30, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Franklin County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Franklin County's internal control. Accordingly, we do not express an opinion on the effectiveness of Franklin County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

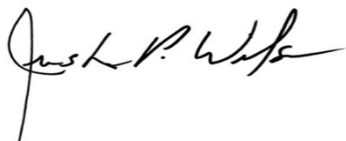

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Franklin County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Franklin County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Very truly yours,

Justin P. Wilson

Report on Compliance for Each Major Federal Program; Report on Internal Control Over Compliance; and Report on the Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

Independent Auditor's Report

Franklin County Mayor and
Board of County Commissioners
Franklin County, Tennessee

To the County Mayor and Board of County Commissioners:

Report on Compliance for Each Major Federal Program

We have audited Franklin County's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Franklin County's major federal programs for the year ended June 30, 2018. Franklin County's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs.

Management's Responsibility

Management is responsible for compliance with the federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Franklin County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Franklin County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Franklin County's compliance.

Opinion on Each Major Federal Program

In our opinion, Franklin County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2018.

Report on Internal Control Over Compliance

Management of Franklin County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Franklin County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Franklin County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

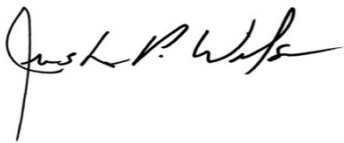

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Franklin County, Tennessee, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise Franklin County's basic financial statements. We issued our report thereon dated October 30, 2018, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated in all material respects in relation to the basic financial statements.

Very truly yours,
