Hamilton County, Tennessee

Office of the County Mayor
Jim M. Coppinger

December 31, 2019

To the County Board of Commissioners
And Citizens of Hamilton County

Hamilton County continues to operate under a philosophy of fiscally conservative government. Our financial team has once again successfully maintained our AAA bond rating with three top rating agencies: Standard and Poor's, Moody's and Fitch. Due to our outstanding bond rating, we have been able to borrow money at lower interest rates and continue to move forward with a number of projects, most notably school capital projects. We believe these projects will greatly benefit our taxpayers.

We successfully completed renovations at Howard Middle School, and the Howard High School football/track stadium has seen plenty of gridiron activity this season after its dedication late this summer. Construction of the Lookout Valley multi-purpose building has also been completed. Construction has begun on the new East Hamilton Middle School and Harrison Elementary School with completion expected by August of 2020.

Hamilton County continues to see yearly population growth. Over the last 12 months our population has grown from 7.5% to 8.3%. This means 27,800 people have moved to Hamilton County since 2010. We are fully engaged with the U.S. Census Bureau for the upcoming United States Census Count which will take place in the spring of 2020. It is vitally important we make sure every resident of Hamilton County is counted to ensure we get every dollar possible from the federal government for school, infrastructure, health and other needs that the federal government financially supports.

We hope to address our jail issues in 2020 by building additions to our Silverdale Detention Facility and have allocated \$20 million to do so.

I firmly believe the government's money is the people's money and we are extremely careful in spending your tax dollars. This belief has allowed us to commit \$248 million to school construction projects during my mayoral tenure. I truly believe education and economic development go hand in hand.

We have continued our daily economic development efforts that have brought in tens of millions of dollars to Hamilton County. At the same time we have continued the services you have come to expect that make Hamilton County one of the best places in the United States to live, work, play and retire.

We take great pride in our economic development efforts over the past seven years. Since January 2011, we have created 17,709 jobs and brought over \$3.6 billion in investments into Hamilton County as 116 companies have expanded and 58 new businesses have located in Hamilton County. We continue to believe people globally look at Hamilton County as one of the best places to create or invest in a business.

Companies such as Zeus Industrial Products, Plainview Outdoor Advertising, Empire Distributors, ATN Holzelt LTD, Team Title Services, Gestamp, Covenant Solutions, Arrive Logistics and Volkswagen have all expanded over the last year. Small businesses continue to be the backbone of our success; over 8,401 establishments or 93% of our businesses employ less than 50 people. Hamilton County businesses now proclaim a payroll of \$3.3 billion for all of our 9,032 businesses.

**TO THE COUNTY BOARD OF COMMISSIONERS
AND CITIZENS OF HAMILTON COUNTY**

- continued from page one

The Business Development Center continues to be one of Hamilton County's great business success stories. Working with the Chamber of Commerce who operates the BDC for us, we have created an environment where entrepreneurs build their businesses from the ground up with the expectation they will successfully move onto Main Street. That expectation has now been met 600 times and we're enormously proud of not only our graduation rate but that more than 90% of these BDC developed companies are in business 5 years later so that they continue to grow and bloom into successful companies. There are currently 48 diverse companies in the BDC, employing 190 people. Furthermore, 16 of the companies in the BDC are minority or women-owned. This number speaks volumes about the diversity of Hamilton County.

Our commitment to advanced education and critical thinking continues with support for our STEM School (Science, Technology, Engineering and Math).

Our commitment to our local volunteer fire departments continues. Construction is ongoing for the new fire hall for Walden's Ridge Emergency Services this fall. Mowbray Volunteer Fire Hall is currently under construction with a completion date for the project set for November 2020. Early next year construction will begin on a new Apison EMS Station with a completion date set for August of 2020. Finally the Ooltewah EMS Station is in the design phase as we await a property transfer.

Our conservative fiscal approach has allowed us to continue to present balanced budgets throughout my tenure as mayor. We strongly believe it is important to have a low property tax for future residential and commercial investment. We will always work to promote growth to create revenue.

Our initiatives to improve the quality of life for all of our citizens continue. The Read 20 program is a public-private partnership designed for early childhood learning to have young children reading at third grade level. This public-private partnership has delivered more than a million books, 1,032,174 to be exact, worth almost \$12.3 million to young readers. Our Hamilton County Discount Prescription Card Program has been used over 464,000 times and saved our citizens \$14 million since it began 13 years ago.

Our Veterans Services Office continues to be well received and utilized by members of the veterans' community. We have had 5,538 office visits, 12,967 other interactions since the October 2016 inception and 6,361 claims have been submitted to the VA.

We celebrated the 200th anniversary of Hamilton County's charter on October 25, 2019, 200 years to the day of our incorporation as a Tennessee county. Our celebration of Hamilton County's history will continue over the following 12 months. As part of those events we buried a time capsule containing items endemic to Hamilton County, its people, businesses and schools at Chester Frost Park with the intention our descendants open it 100 years from now.

The Hamilton County Parks and Recreation Department is now nearing the development of a five year master plan designed to meet the needs of our growing community and visitors. The plan is looking at ways to increase facilities, amenities and services. Chester Frost Park's camping area experienced an all-time high for rentals and reservations, and visitors were able to enjoy a new campground restroom equipped with showers. Next year we look forward to talking about the success of the 2020 public beach's open water sports park. Enterprise South Nature Park has begun educational partnerships with the McCallie School, Harrison Elementary and the STEM School. Design work is underway with construction expected to begin in 2020 for an ESNP perimeter walkway which will increase opportunities for cycling and distance running. The Riverpark continued to attract popular events such as the Ronald McDonald Children's festival, J-Fest and the Chattanooga Hot-Air Balloon Fest. Additionally the Park hosted the final Heroes Run in July, and the Wreath of Honor Memorial honoring the Five Servicemen killed in the line of duty on July 16, 2015, was dedicated in October. Our community parks continue to be popular destinations for children involved in organized sports like baseball or soccer; more than 10,000 children have utilized our 16 facilities.

**TO THE COUNTY BOARD OF COMMISSIONERS
AND CITIZENS OF HAMILTON COUNTY**

- continued from page two

My goal over the past nine years has been to make Hamilton County the county others look to as an example of outstanding management for the benefit of its citizens. My pledge to you remains the same promise I made when I took office in January of 2011, we will continue to enhance public education, create jobs and new businesses while expanding existing Hamilton County businesses. We must always look to the future and resolve to evolve with our changing times. Now more than ever, governing requires vision and leadership. I remain committed to making Hamilton County a better place for you to work, live, play and retire.

Sincerely,

Jim M. Coppinger
County Mayor

HAMILTON COUNTY, TENNESSEE

ALBERT C. KISER

Administrator of Finance

December 31, 2019

TO THE CITIZENS, COUNTY MAYOR AND COUNTY BOARD OF COMMISSIONERS

I am pleased to present to you the Comprehensive Annual Financial Report (CAFR) of Hamilton County, Tennessee, for the fiscal year ended June 30, 2019. This report was prepared in accordance with generally accepted accounting principles (GAAP) by the Finance Division of Hamilton County. Responsibility for both the accuracy of the presented data and the completeness and fairness of presentation, including all disclosures, rests with the County. We believe the data, as presented, is accurate in all material aspects. It is presented in a manner designed to fairly set forth the financial activity of the various funds. All disclosures necessary to enable the reader to gain the maximum understanding of the County's financial affairs have been included.

This report is prepared under the accounting model for governments as prescribed by the Governmental Accounting Standards Board (GASB) Statement No. 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments. Using this approach, the reader can view program costs compared to program revenues for the government as a whole.

The State of Tennessee requires an annual audit of the County's financial records. An independent firm of certified public accountants, Mauldin & Jenkins, LLC, has audited the County's financial statements in accordance with this requirement. The

independent firm is responsible to the County Board of Commissioners and is under contract with the State Comptroller of the Treasury. The independent auditor concluded, based upon the audit, that the County's financial statements for the fiscal year ended June 30, 2019, are fairly presented in conformity with GAAP and thus rendered an unmodified opinion. The report of independent auditors is presented in the financial section of this report.

This report contains the traditional County funds, the Constitutional Officers of the County and the County's discretely presented component units: the Hamilton County Department of Education, the Hamilton County "911" Emergency Communication District, the Hamilton County Water & Wastewater Treatment Authority, and the Hamilton County Railroad Authority. These agencies are included based on criteria established by the Governmental Accounting Standards Board (GASB).

GAAP requires that management provide a narrative introduction, overview and analysis in the form of Management's Discussion and Analysis (MD&A) to accompany the basic financial statements. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The County's MD&A can be found beginning on page iv of the Financial Section.

PROFILE OF HAMILTON COUNTY, TENNESSEE

Hamilton County is located in the southeast region of the State of Tennessee, with the City of Chattanooga as its largest city. It is approximately 120 miles southwest of Knoxville, Tennessee; 360 miles east of Memphis, Tennessee; 120 miles southeast of Nashville, Tennessee, which is the State capital; and 120 miles northwest of Atlanta, Georgia.

The County was incorporated on October 25, 1819, by the Tennessee State Legislature. It operates under a County Commission/County Mayor form of government. The County Mayor, the chief fiscal officer of the County, is elected at-large to a four-year term, as are the Assessor of Property, Circuit Court Clerk, County Clerk, Criminal Court Clerk, Juvenile Court Clerk, Register of Deeds, Sheriff and Trustee. The District Attorney General, District Public Defender and all Hamilton County judges are elected at-large for eight-year terms. The County's nine-member Board of Commissioners is elected by district to four-year terms. The Department of Education, a component unit, is managed by a nine-member board that is elected by district to four-year terms that are staggered so that no more than five are elected in any election year.

The County provides its citizens with a range of services that includes, but is not limited to, police, ambulance, sanitation and solid waste, health and social services, culture and recreation, highways and streets, planning, courts, jails and general administrative services. Other services are provided by organizations which have their own board of directors and include the Hamilton County Department of Education, Hamilton County Water & Wastewater Treatment Authority, Hamilton County "911" Emergency Communication District, and Hamilton County Railroad Authority.

Even though the Hamilton County Department of Education (HCDE) is a separate legal entity from Hamilton County government, it constitutes a major portion of the funding requirements for the County. The HCDE has 6,107 employees and serves a total student population of 43,842. The total HCDE operating budget for fiscal year 2019 was \$479.6 million. Hamilton County provided funding for 50.3%, or \$241.2 million of this operating budget through property taxes, sales taxes, and use of fund balance. State and federal appropriations and grants provided \$223.4 million; charges for services provided \$7.8 million; and investments and miscellaneous items provided \$7.2 million.

HAMILTON COUNTY DEPARTMENT OF EDUCATION REVENUE BUDGET BY SOURCE FOR FISCAL YEAR ENDING JUNE 30, 2019

The Board of Commissioners adopted the fiscal year 2019 annual operating budget for the County on June 27, 2018. The County uses the annual budget as a management control device. The budget is prepared on a basis consistent with GAAP, except that encumbrances are treated as budgeted expenditures when the commitment to purchase has occurred. All unencumbered and unexpended appropriations lapse at year-end. The level at which expenditures may not legally exceed appropriations is the division level.

Constitutional officers, departments and agencies requesting funding by the Board of Commissioners must submit their budget requests during January of each year. The County Mayor reviews and edits these requests, and publicly submits a budget to the Board of Commissioners for approval prior to June 30. After the budget is formally adopted, any changes within a division that do not require additional resources must be approved by the County Mayor; the Commission must approve all other changes. Budget to actual comparisons are presented in this CAFR for each individual fund for which an annual budget has been adopted. Hamilton County follows the laws of Tennessee regarding the control, adoption

and amendment of the budget during each fiscal year. Hamilton County's budget practices not only comply with all state statutes but are more stringent due to our formal budget policy.

LOCAL ECONOMIC OUTLOOK

The economy for Hamilton County remains steady, strong and healthy. According to the Bureau of Labor Statistics, the unemployment rate for Hamilton County as of June 30, 2019 was 3.9%, as compared to the state's rate of 3.4% and the national rate of 3.7%. With the County's continued emphasis on economic development, there are plenty of opportunities for employment growth on the horizon. Continued development of the riverfront, downtown, and promotion of the Enterprise South Industrial Park are all positive marks for the local economy.

FUND BALANCE

Hamilton County's fund balances continue to remain healthy. At year end June 30, 2019, the fund balance for the General Fund grew to \$111.6 million, and total fund balances for the Department of Education ended the year at \$97.1 million. The County's strong reserves allow us to manage any unexpected shortfalls in revenues. The County has consistently maintained a reserve in the General Fund equivalent to at least three months of expenditures and will continue to do so.

LONG-TERM FINANCIAL PLANNING

Hamilton County continues to operate in a conservative manner and strives to maintain its practice of limiting tax increases on its taxpayers. In September 2017, Hamilton County increased its property tax millage rate by 26.76 cents, an increase of 10.7%. This tax increase represented the first increase in the millage rate since 2007.

Long-term financial planning includes both operations and capital needs. The Mayor and Commission work closely together in a timely and thorough budgeting process to map out an operational plan for each upcoming year.

The County's capital needs are addressed annually in its operating budget and long term through its five-year capital plan. Short-term capital needs such as vehicles, computers, office equipment, etc. are funded through the annual operating budget.

The County's long-term capital needs are financed using fifteen-year general obligation bond debt. This

rapid, fifteen-year debt amortization has proven effective in keeping the County's total debt load at a manageable level. This fifteen-year amortization results in principal retirement of approximately fifty percent (50%) within five years and eighty-three percent (83%) within ten years.

RELEVANT FINANCIAL POLICIES

Hamilton County consistently maintains a low debt burden. This has been accomplished through sound, conservative debt management practices. In 2012, the County revised its debt policy in order to establish and codify its objectives and practices. The policy's goal is to assist all concerned parties in understanding the County's debt management approach and to promote transparency for our citizens, investors and all other interested parties.

The County consistently maintains a strong unassigned fund balance in the general fund which exceeds its reserve policy of twenty-five percent (25%) of its operating budget. This minimizes the negative effect of any unanticipated expenditures and/or loss of any major revenue source.

MAJOR INITIATIVES

Hamilton County's commitment to its mission of meeting the needs of people where they live, work and play guides our plans for the future and directs us toward delivering quality services to our citizens.

Ten year analysis of the change in fund balance (expressed in thousands)

	General Fund	Special Revenue Funds	Debt Service Fund
2010	87,920	6,936	298
2011	95,967	6,024	237
2012	104,431	5,363	387
2013	111,169	6,034	358
2014	111,433	4,566	923
2015	91,394	3,536	1,330
2016	92,395	4,119	1,849
2017	94,179	4,451	2,163
2018	100,335	5,232	10,256
2019	111,635	6,237	10,401

As discussed earlier, the Hamilton County Board of Commissioners approved a 26.76 cent property tax increase in September 2017. The majority of the proceeds from the tax increase are being used to fund debt service requirements for major capital improvements at the Hamilton County Department of Education, as well as to fund major renovations and additional capacity for County correctional facilities.

PLANNED GROWTH STRATEGIES

Hamilton County Government has established a team consisting of elected officials, business leaders, civic and community organizations and involved citizens to create and implement a strategic plan to manage the expected population growth of our area resulting from recent economic developments. This regional plan will ensure balanced growth, promote economic development, and protect and enhance the quality of life for all. Specific areas addressed include housing, transportation, land use, environmental, energy, green space and infrastructure.

ECONOMIC DEVELOPMENT

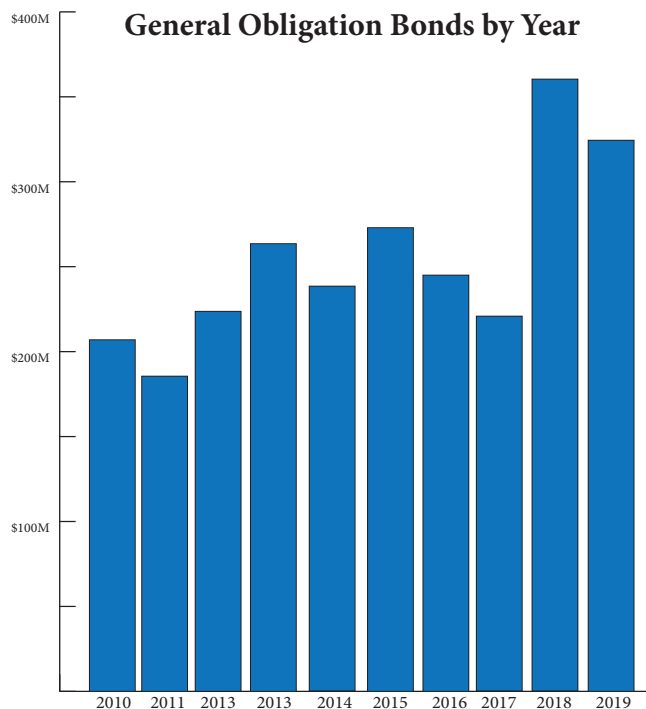

The County’s economic development initiative reflects our goal of a viable and sustainable economic future for our community. We believe this is vital for those who live here and for those who are considering relocating to Hamilton County.

Enterprise South Industrial Park – Enterprise South Industrial Park continues to be developed and used in recruiting new and expanded businesses to Hamilton County. The Park’s two largest employers are Volkswagen Group of America and Amazon.com, Inc. Volkswagen arrived in Hamilton County in 2008 and originally invested \$1 billion to build its manufacturing plant. Volkswagen recently completed a \$1 billion expansion of its plant to enable the company to manufacture a new SUV, the Volkswagen Atlas. In January 2019, officials announced that Chattanooga will be the home of Volkswagen’s first electric vehicle manufacturing facility, an \$800 million investment that will add 1,000 jobs. Volkswagen currently employs 3,800. The number of employees working at ancillary suppliers and associated businesses supporting Volkswagen has increased significantly over the past few years and is expected to continue to grow in conjunction with the planned new electric vehicle manufacturing facility.

Amazon.com opened a major distribution and fulfillment center at Enterprise South in 2010 at a cost of \$91 million. The center currently employs over 2,000 people.

General Obligation Bond Debt Outstanding

Fiscal Year Ended June 30	General Obligation Bonds	Percentage of Actual Taxable Value of Property	Per Capita
2010	206,960,000	0.73%	614
2011	185,550,000	0.65%	551
2012	223,705,000	0.78%	656
2013	263,545,000	0.91%	763
2014	238,300,000	0.81%	683
2015	272,965,000	0.92%	777
2016	245,030,000	0.81%	692
2017	220,635,000	0.70%	771
2018	360,180,000	1.04%	996
2019	324,425,000	0.91%	891

Enterprise South Industrial Park currently is home to 20 companies and more than 8,500 jobs in Hamilton County. Gestamp has expanded its existing plant, built another plant adjacent to Volkswagen, and renovated the former Farley's and Sathers candy factory. In addition, Gestamp plans to expand its Hickory Valley Road plant by adding approximately 125,000 square feet of space. The \$40 million expansion is expected to add 110 new jobs within the next five years.

TAG Manufacturing currently employees 335 in two 200,000 square-foot buildings plus an adjacent office building. TAG constructed a new 200,000 square-foot building across Discovery Drive from its existing facility because of the growth in its business.

Hamilton County's job growth and economy have continued to steadily grow. To accommodate growth in businesses as well as residents, the Tennessee Department of Transportation (TDOT) is building a public highway that directly connects Interstate I-75 with Highway 58 through the Volkswagen plant site. The project is anticipated to be complete in 2020. In addition, TDOT is working on a major rebuild of the I-75/I-24 interchange at the Tennessee-Georgia line. Completion date of the rebuild is June 2021.

Job Growth outside of Enterprise South - While a significant amount of the County's growth was sparked by the Volkswagen expansions and associated supplier companies, other notable projects include:

- HomeServe USA recently purchased a \$5.5 million, 46,000 square foot facility to accommodate its 325-person workforce.
- Naprotec LLC acquired 85,000 square feet in building space at the former DuPont plant. Naprotec is anticipated to add up to 25 jobs.
- Micronics Inc. and Team Title Services are scheduled to move into the former Alstom site. Both businesses are anticipated to add 220 new jobs.
- Trident Transport is expanding its company which will result in the addition of 75 to 100 new jobs between its Chattanooga and Tampa locations.

Business Development Center – The Hamilton County Business Development Center (BDC) is a 125,000 square-foot facility that has been renovated into a highly successful business incubator owned by the County and managed by the Chattanooga Area Chamber of Commerce. The BDC offers start-up businesses office or manufacturing space at highly competitive lease rates for up to 3 years. The BDC currently houses more than 60 start-up companies. INCubator, a program of

the Chattanooga Chamber of Commerce, is located in the BDC. It is the largest business INCubator in Tennessee and the third largest in the nation.

PUBLIC EDUCATION IMPROVEMENT

The Hamilton County Department of Education has an independently elected board tasked with operating the K-12 public school system in the County. Hamilton County is a primary funding source for the school system, with over 45 percent of the County property tax levy directed toward the operation of the school system.

The County also assists the school system through the issuance of debt and general obligation bonds to build, renovate and expand the school facilities. Since the turn of the century, the County has built 21 new schools and expended over \$433 million toward modernizing and upgrading the County school buildings and grounds. In November 2017, the County approved plans for capital projects totaling \$125.3 million for school facilities. This additional funding provides for significant capital improvements for the school system. A new Harrison Elementary School and a new East Hamilton Middle School are currently under construction and slated to open for the 2020-2021 school year. Hixson High School's track and tennis courts are under construction. Howard High School's new stadium and track are nearing completion. Snow Hill Elementary addition and renovation was completed and ready for the first day of school in August 2019. Howard Connect Academy, the newly renovated Howard Middle School, was open for the first day of school as well. Tracks have been completed at Central High School as well as at Soddy Daisy High School. Other capital improvements include: HVAC replacement at the CCA School; a new elevator at Normal Park Elementary School; a new multi-purpose room, field house, and tennis court renovations at Lookout Valley Elementary School and Lookout Valley High School; and various other improvements to facilities throughout the school system.

The Hamilton County Board of Education has contracted with a consultant to perform a complete independent assessment of all physical facilities within the school system and to make recommendations to the Board of Education for a long-range plan to replace, renovate and improve the school system facilities. The results of the physical facilities assessment and the consultant's recommendations are expected to be completed and released in early 2020.

QUALITY OF LIFE ISSUES

Hamilton County citizens and visitors are able to enjoy one of the finest naturally beautiful environments in the Southeast. The County's surrounding mountains, state and national forests, as well as its rivers and streams have afforded this area its reputation as a leading destination for outdoor activities.

- ***The Riverwalk*** – The Tennessee Riverwalk is an 8-12 foot-wide paved, landscaped and lighted scenic urban greenway anchored along the southern bank of the Tennessee River. The additional 3.5 mile segment completed in 2016 extended the original 10 mile route from Chickamauga Dam to the heart of the downtown business and tourism district to Lookout Mountain and the hundreds of miles of trails extending into Alabama and Georgia. The Riverwalk is an acknowledged catalyst for billions of dollars of downtown redevelopment and a connector for neighborhoods and business districts. Planners are already working on the next phase which will continue from the Wheland Foundry Trailhead, which is at the end of the newest section, south down Broad Street to the Incline in St. Elmo.
- ***Chester Frost Park*** – Located on 198 acres on the shores of Lake Chickamauga, Chester Frost Park has long been a favorite destination for those who enjoy camping, fishing, swimming and other outdoor activities. Chester Frost Park hosts numerous fishing tournaments and the annual County Fair. County leaders are exploring a number of opportunities to increase the economic and social potential of the park.
- ***Enterprise South Nature Park*** – The Park is located on 2,800 wooded acres adjacent to the Enterprise South Industrial Park. It offers miles of walking paths, bicycle paths and off-road biking trails. Summit Knobs Equestrian Trails, a 17 mile trail system that opened in June 2018, is the first public facility in the County designated specifically for horseback riding. The County recently received an \$850,000 private donation, with the proceeds from the donation earmarked to expand the road cycling trail network at the nature park.
- ***Step ONE*** – This County-wide initiative addresses the problem of obesity in our community by promoting physical fitness, nutrition, and healthy lifestyles. This effort is guided by the County Mayor and the Hamilton County Regional Health Council.
- ***IRIS Project*** – Increasing the Rate of Infant Survival (IRIS) works to initiate new, creative and innovative programs that have a positive impact on infant mortality rates, which are thought to be one of the best predictors of a community's overall health status.

AWARDS AND ACKNOWLEDGEMENTS

AWARDS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Hamilton County, Tennessee for its Comprehensive Annual Financial Report for the year ended June 30, 2018. Hamilton County has received this award for 38 consecutive years.

In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report, whose contents conform to program standards. Such report must satisfy both generally accepted accounting principles and applicable legal requirements.

The Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to Certificate of Achievement program requirements, and we are currently submitting it to the GFOA to determine its eligibility for another certificate.

GFOA also presented a Distinguished Budget Presentation Award to the County for its Comprehensive Annual Budget Report (CABR) for the fiscal year ended June 2019. This is the 17th consecutive year Hamilton County received this award for the CABR. In order to be awarded a Distinguished Budget Presentation Award, a governmental unit must publish an easily readable and efficiently organized Comprehensive Annual Budget Report, which must conform to program standards and satisfy both generally accepted accounting principles and applicable legal requirements. Like the Certificate of Achievement for Financial Reporting, this award is valid for a period of one year only. We believe our CABR for the fiscal year ending June 2020 continues to conform to program requirements, and we are currently submitting it to GFOA to determine its eligibility for another award.

ACKNOWLEDGMENTS

I would like to thank the entire staff of the Finance Division, the County Auditor's Office and the independent auditors for their cooperation and dedication in the preparation of this report. I would also like to express my gratitude for the support we have received from the County Mayor and the County Board of Commissioners in conducting the financial operations of the County in a sound and progressive manner.

Respectfully submitted,

Albert C. Kiser, CPA, CGFM

INDEPENDENT AUDITOR'S REPORT

**To the County Commission
of Hamilton County, Tennessee
Chattanooga, Tennessee**

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of **Hamilton County, Tennessee** (the "County"), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Hamilton County "911" Emergency Communications District, which represents 3 percent, 4 percent, and 3 percent, respectively, of the assets, net position, and revenues of the aggregate discretely presented component units. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Hamilton County "911" Emergency Communications District, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

Auditor's Responsibility (continued)

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Hamilton County, Tennessee as of June 30, 2019, and the respective changes in financial position, and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis (on pages IV through XX) and schedules of required supplementary information – (on pages B-1 through B-16) be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Hamilton County, Tennessee's basic financial statements. The combining and individual nonmajor fund financial statements for the governmental funds, fiduciary funds, and discretely presented component unit – Hamilton County Board of Education, the budgetary comparison schedules, the financial schedules, and introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*, and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements for the governmental funds, fiduciary funds, and discretely presented component unit – Hamilton County Board of Education, the budgetary comparison schedules, the financial schedules, and schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 30, 2019, on our consideration of Hamilton County, Tennessee's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

Mauldin & Jenkins, LLC

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR THE FISCAL YEAR ENDED JUNE 30, 2019

The discussion and analysis of Hamilton County's financial performance provides an overall review of the County's financial activities for the year ended June 30, 2019. It is designed to:

- (a) Assist the reader in focusing on significant financial issues,
- (b) Provide an overview of the County's financial activities,
- (c) Identify changes in the County's financial position,
- (d) Identify any material deviations from the original financial plan, and
- (e) Identify individual fund issues or concerns.

This discussion and analysis is an integral part of the financial statements as a whole.

FINANCIAL HIGHLIGHTS

Government-wide Financial Statements

- The government-wide assets of Hamilton County at the close of fiscal year 2019 were \$803 million, an increase of \$19.3 million (2.5%) over the prior year.
- The government-wide liabilities of Hamilton County at the close of fiscal year 2019 were \$440 million, a decrease of \$57 million (11.5%) from the prior year.
- Government-wide revenues totaled \$280.7 million, an increase of \$8.7 million (3.2%) over the prior year.
- Government-wide expenses were \$210 million, a decrease of \$17.2 million (7.6%) from the prior year.
- Total bonded debt at June 30, 2019 for the County was \$324.4 million, of which \$237.3 million (73.2%) was assigned to the Hamilton County Department of Education for capital additions and improvements.

Fund Financial Statements

- Revenues for governmental funds increased \$7 million, or 2.6% from last year.
- Expenditures for governmental funds decreased \$28.2 million, or 9.1% from last year. This is due to a decrease in debt service.
- Capital project expenditures were \$20.4 million, with \$14.9 million spent for school construction projects.
- Operating transfers from the General Fund decreased by \$4 million (7.2%) from the prior year.

OVERVIEW OF THE FINANCIAL STATEMENTS

The County's basic financial statements consist of three main components:

- (1) Government-wide financial statements,
- (2) Fund financial statements, and
- (3) Notes to the basic financial statements.

This report also contains other supplementary information in addition to the basic financial statements. Required supplementary information includes various schedules and trend information relative to the County's employee pension plans and other postemployment benefits. The other supplementary information includes detailed budget to actual comparisons of the General Fund and other budgeted County funds; combining statements for nonmajor governmental funds; statements of account activity in fiduciary agency funds; and combining financial statements for the County's largest discretely presented component unit, the Hamilton County Department of Education.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

In the government-wide financial statements, the Statement of Net Position and Statement of Activities provide the reader with a broad overview of the County's financial condition.

The Statement of Net Position combines and consolidates all the County's current financial resources with capital assets and long-term obligations. The end result is net position, which is segregated into three components:

- (1) Net investment in capital assets,
- (2) Restricted net position, and
- (3) Unrestricted net position.

The County's net position at the end of fiscal year 2019 of \$240.9 million increased \$70.6 million (41.5%) from the balance at the prior year end.

The Statement of Activities presents information showing how the government's net position changed during fiscal year 2019. Program revenues, which directly offset costs of specific functions, are allocated to those functions, resulting in the net expenses for governmental activities. General revenues, such as taxes, fines and interest earnings, offset the remaining costs, resulting in the annual increase or decrease in

net position. This statement is intended to summarize the net cost of various governmental services that are supported by general revenues.

Governmental activities include general government, public safety, highways and streets, health, social services, and culture and recreation. Hamilton County has no business-type activities.

The government-wide financial statements include the following legally separate component units: the Hamilton County Department of Education, the Water & Wastewater Treatment Authority, the Hamilton County “911” Emergency Communications District, and the Hamilton County Railroad Authority.

The government-wide financial statements can be found on pages A-1 to A-2 of this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR THE FISCAL YEAR ENDED JUNE 30, 2019

FUND FINANCIAL STATEMENTS

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The funds of the County are divided into three categories: governmental funds, proprietary funds and fiduciary funds.

GOVERNMENTAL FUNDS

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information is useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains several individual governmental funds. Information is presented separately in the Governmental Funds Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balances for the major funds, which include the General, Debt Service and Capital Projects funds. Data from the other governmental funds, Constitutional Officers, Governmental Law Library, Hotel/Motel and Economic Crimes, is combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements on pages C-9 to C-12 of this report.

The County adopts an annual budget for the General and Debt Service funds and certain Special Revenue funds. A budgetary comparison statement has been provided for these funds to demonstrate budgetary compliance. The basic governmental fund financial statements can be found on pages A-3 to A-6 of this report.

PROPRIETARY FUNDS

There are two types of proprietary funds – enterprise funds and internal service funds. An internal service fund is the only type of proprietary fund the County maintains. An internal service fund is an accounting device used to accumulate and allocate costs internally among the County's various functions. The County uses its internal service funds to account for its self-insurance and risk management programs. Because these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. Individual fund data for the Internal Service Fund is provided on pages A-8 to A-10 of this report.

FIDUCIARY FUNDS

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The fiduciary fund financial statements can be found on pages A-11 and A-12 of this report.

NOTES TO BASIC FINANCIAL STATEMENTS

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages A-16 to A-66 of this report.

OTHER INFORMATION

In addition to the basic financial statements and accompanying notes, this report also presents required and other supplementary information. Required Supplementary Information includes the funding progress and employer contributions for the Public Employee Retirement Systems and for the County's Other Post-Employment Benefits programs. Required Supplementary Information can be found on pages B-1 to B-16.

Other Supplementary Information includes detailed budgetary information for the General Fund, Debt Service Fund and certain other budgeted funds; combining statements for the nonmajor governmental funds; combining statement of changes in assets and liabilities for the Constitutional Officers Agency Funds; combining statements for the Hamilton County Department of Education; and various financial and statistical tables. Budgetary Comparison Schedules can be found on pages C-1 to C-8; Combining and individual fund schedules can be found on pages C-9 to D-11; and the various financial and statistical tables can be found on pages E-1 to F-18.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

NET POSITION

Primary Government

	Governmental Activities	
	2019	2018
ASSETS		
Current and Other Assets	\$ 512,620,000	\$ 511,624,000
Capital Assets	290,329,000	272,052,000
TOTAL ASSETS	802,949,000	783,676,000
DEFERRED OUTFLOWS OF RESOURCES		
Deferred outflows from pensions	27,515,000	29,292,000
Deferred loss on refunding	2,780,000	3,415,000
	<u>30,295,000</u>	<u>32,707,000</u>
LIABILITIES		
Long-term Liabilities	412,349,000	467,732,000
Other Liabilities	27,754,000	28,996,000
TOTAL LIABILITIES	440,103,000	496,728,000
DEFERRED INFLOWS OF RESOURCES		
Deferred property tax revenue	144,561,000	145,258,000
Deferred inflows from pensions	7,668,000	4,133,000
	<u>152,229,000</u>	<u>149,391,000</u>
NET POSITION		
Net Investment in Capital Assets	255,058,000	182,639,000
Restricted	6,081,000	5,056,000
Unrestricted	<u>(20,227,000)</u>	<u>(17,431,000)</u>
TOTAL NET POSITION	<u>\$ 240,912,000</u>	<u>\$ 170,264,000</u>

As noted earlier, net position may serve over time as a useful indicator of a government's overall financial health. In the case of the County, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$240.9 million at the close of the fiscal year ended June 30, 2019.

Net position is comprised of three elements:

- (1) Net investment in capital assets (e.g., land, buildings, infrastructure and equipment);
- (2) Restricted net position held for restrictions as prescribed by law; and
- (3) Unrestricted net position.

The long-term liabilities of \$412.3 million include \$237.3 million of debt for assets contributed to the Hamilton County Department of Education, a component unit, which results in the negative unrestricted net position at both June 30, 2018 and 2019.

CHANGES IN NET POSITION
Primary Government

	Governmental Activities	
	2019	2018
REVENUES		
Program Revenues		
Charges for Services	\$ 50,424,000	\$ 52,368,000
Operating Grants and Contributions	32,061,000	27,654,000
Capital Grants and Contributions	120,000	3,393,000
Total Program Revenues	<u>82,605,000</u>	<u>83,415,000</u>
General Revenues		
Property Taxes	167,942,000	164,229,000
Other Taxes	22,860,000	21,512,000
Other	7,256,000	2,793,000
Total General Revenues	<u>198,058,000</u>	<u>188,534,000</u>
TOTAL REVENUES	<u>280,663,000</u>	<u>271,949,000</u>
EXPENSES		
General Government	55,768,000	62,215,000
Public Safety	94,321,000	93,175,000
Highways and Streets	10,352,000	15,064,000
Health	21,778,000	22,331,000
Social Services	6,123,000	6,624,000
Culture and Recreation	9,927,000	9,841,000
Education	90,000	9,603,000
Interest on Long-Term Debt	11,657,000	8,370,000
TOTAL EXPENSES	<u>210,016,000</u>	<u>227,223,000</u>
CHANGE IN NET POSITION	70,647,000	44,726,000
Net Position, beginning	<u>170,265,000</u>	<u>125,538,000</u>
Net Position, ending	<u>\$ 240,912,000</u>	<u>\$ 170,264,000</u>

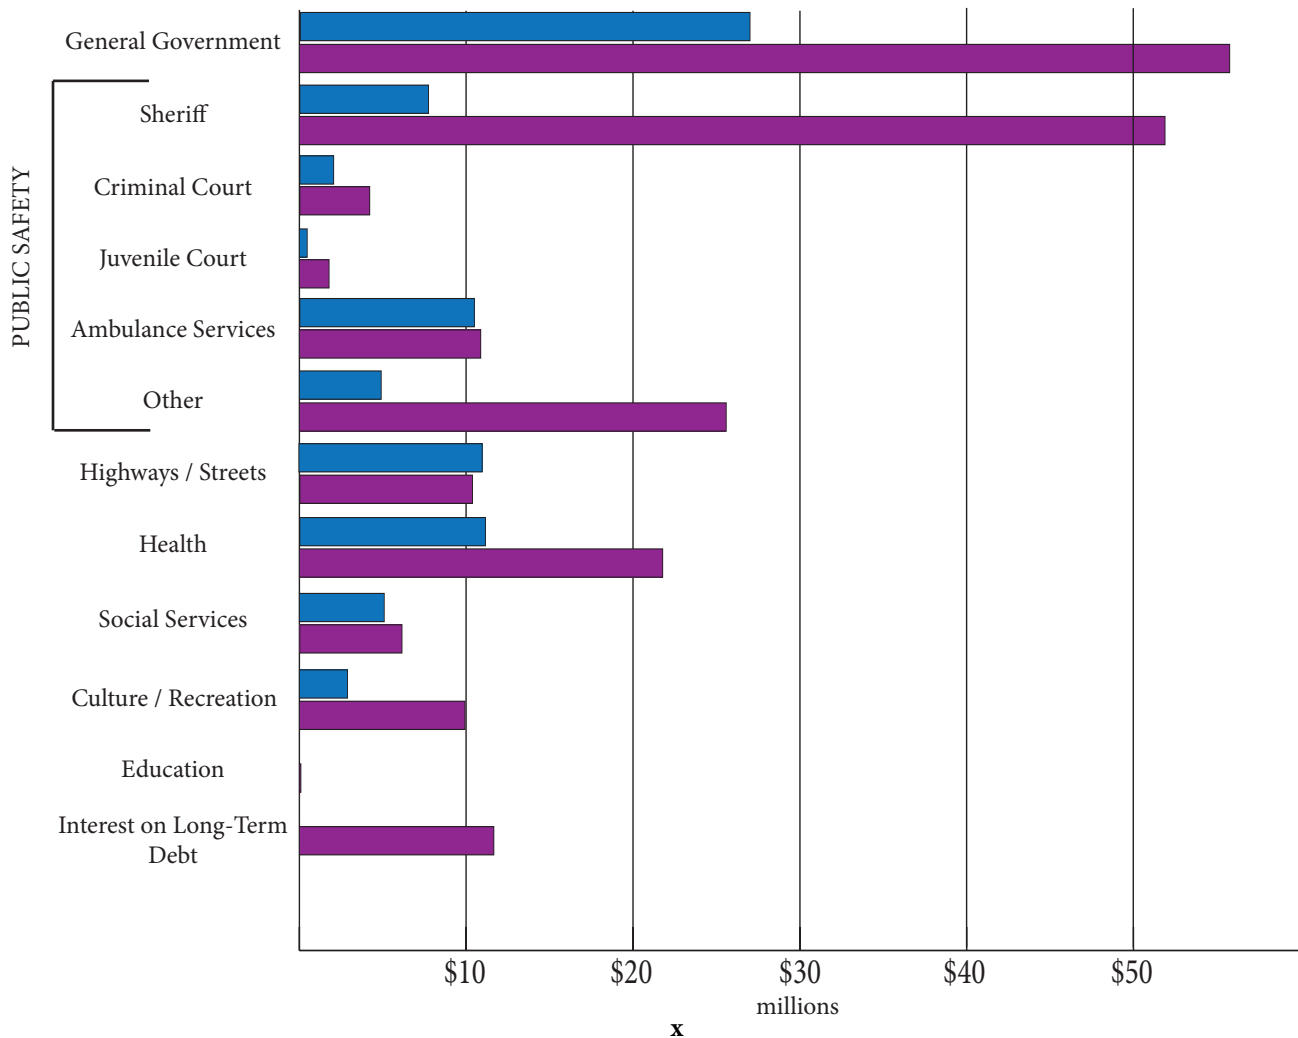

The County's revenues increased by \$8.7 million during the current fiscal year. The majority of the increased revenue came from operating grants and investment earnings. Total expenses for FY 2019 decreased by \$17.2 million in large part due to the decrease in expenditures for education capital projects as a significant number of school construction projects were completed in the prior year.

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR THE FISCAL YEAR ENDED JUNE 30, 2019

FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS

The County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

GOVERNMENTAL FUNDS

The focus of the County's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of fiscal year 2019, the County's governmental funds reported combined ending fund balances of \$285.1 million, a decrease of \$3.4 million (1.2%). This decrease in total governmental fund balances is due to a decrease in the Capital Projects Fund of \$15.8 million. This decrease was offset by an increase in the General Fund of \$11.3 million, resulting in a net decrease of \$3.4 million.

The fund balance of the governmental funds consists of a restricted portion of \$139.2 million, an assigned portion of \$44.1 million (consisting primarily of assigned for Capital Projects), and an unassigned portion of \$100.3 million. The remainder of fund balance is not available for new spending and is split into committed and nonspendable. Committed is \$0.2 million to liquidate contracts and purchase orders. Nonspendable is \$1.2 million for inventories and prepaid items.

The General, Debt Service and Capital Projects funds are reported as major funds.

The General Fund is the chief operating fund of the County. The total fund balance at June 30, 2019, was \$111.6 million, consisting of a nonspendable portion

of \$1.2 million; assigned fund balance of \$10.1 million; and an unassigned fund balance of \$100.3 million. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures and transfers out. Unassigned fund balance represents 41.6% of the total General Fund expenditures and transfers out, while total fund balance represents 46.3% of that same amount.

Unassigned fund balance of the County's General Fund increased by \$5.1 million during the current fiscal year, and total fund balance increased \$11.3 million during this time period.

General Fund revenues totaled \$239.8 million and increased over the prior year by \$6.7 million (2.9%). General Fund expenditures increased \$5.0 million (2.7%) over the prior year, while General Fund transfers out increased \$4.0 million (7.2%).

The Debt Service fund has a total fund balance of \$10.4 million, an increase of \$0.1 million.

The Capital Projects Fund is used to account for revenues and expenditures for large capital projects. The majority of the funding for these capital projects is derived from issuances of general obligation bonds.

The fund balance of the Capital Projects Fund decreased by \$15.8 million from the balance at June 30, 2018, and closed the current year with a balance of \$156.8 million. This decrease was due to funding several major capital additions and improvements for the Department of Education.

MANAGEMENT’S DISCUSSION AND ANALYSIS

FOR THE FISCAL YEAR ENDED JUNE 30, 2018

FINANCIAL ANALYSIS OF THE COUNTY’S FUNDS - *continued*

PROPRIETARY FUNDS

The County’s proprietary fund is used to account for the County’s self-insurance programs. The County is self-insured for health, unemployment compensation, on-the-job injury claims, property, automobile and liability claims and losses due to liabilities arising under the laws of the state and federal governments. The cost for these programs is funded through premiums paid by the departments and agencies of Hamilton County Government. Unrestricted net position for the proprietary fund increased \$4.4 million in fiscal year 2019 and totaled \$38.8 million at the end of the fiscal year.

GENERAL FUND BUDGETARY HIGHLIGHTS

The Hamilton County Board of Commissioners approved and adopted its 2019 annual operating budget in June 2018. The original General Fund operating budget was balanced without a use of fund balance.

The Board of Commissioners approved a total of \$5.3 million in additional amendments to General Fund operating expenditures during fiscal year 2019 and total amendments of \$2.8 million to the General Fund revenue budget. The amendments to the General Fund revenue and expenditure budgets were primarily for:

- Increases to budgets for grant-related items not expended during the prior fiscal year, carried over into the current fiscal year; and
- New grants received from various state and federal agencies.

Actual revenues for the General Fund were less than budgeted revenues by \$3.8 million (1.6%). This variance is largely due to a shortfall of tax collections of \$5.0 million.

Total expenditures were less than budgeted expenditures by \$15.8 million (7.6%). A large part of this favorable variance resulted from conservative spending by the General Government, Public Safety, Capital Outlay and Health. A detailed Budgetary Comparison Schedule for the General Fund is presented on pages C-1 through C-5 of this report.

MANAGEMENT’S DISCUSSION AND ANALYSIS

FOR THE FISCAL YEAR ENDED JUNE 30, 2019

CAPITAL ASSETS AND DEBT ADMINISTRATION

CAPITAL ASSETS

The County’s investment in capital assets as of June 30, 2019, amounts to \$290.3 million (net of accumulated depreciation of \$299.1 million). This investment in capital assets includes land, buildings, improvements, machinery and equipment, infrastructure, intangibles and construction in progress. For the year, the County’s investment in capital assets increased by \$18.2 million (6.7%). Additional information on the County’s capital assets can be found in the Notes to the Basic Financial Statements – Note H.

Major capital asset events during the current year included the following:

- Harrison Elementary School - \$2.9 million
- East Hamilton Middle / High School - \$7.7 million
- Howard Athletics Building - \$3.9 million

MANAGEMENT’S DISCUSSION AND ANALYSIS

FOR THE FISCAL YEAR ENDED JUNE 30, 2018

LONG-TERM DEBT

At the end of fiscal year 2019, the County had general obligation bonds outstanding of \$324.4 million. Of the bonded debt, \$237.3 million (73.2%) was issued for Hamilton County Department of Education capital improvements.

Additional information on the County’s debt can be found in the Notes to Basic Financial Statements – Note K.

OVERALL FINANCIAL HEALTH

Hamilton County is in a strong position financially and our future is bright due to the sound management practices that have enabled the County to maintain solid fund balances and reserves. One measure of an entity’s financial strength is the level of its fund balances. The County has consistently maintained a General Fund balance equivalent to at least three months of expenditures, which places us in an excellent position to adequately address most fiscal emergencies. Our Fund Balance Policy recommends that the fund balance be no less than 25% of the planned operating expenses, and we will continue to comply with this recommendation.

The County’s excellent bond ratings (AAA by Standard and Poor’s and Fitch Ratings and Aaa by Moody’s Investors Service) are further evidence of our financial strength. These ratings indicate that the County’s bonds are considered to be very high investment quality, which translates to lower interest rates and corresponding lower interest payments. Having solid conservative financial policies and strong financial reserves are principal reasons for these ratings.

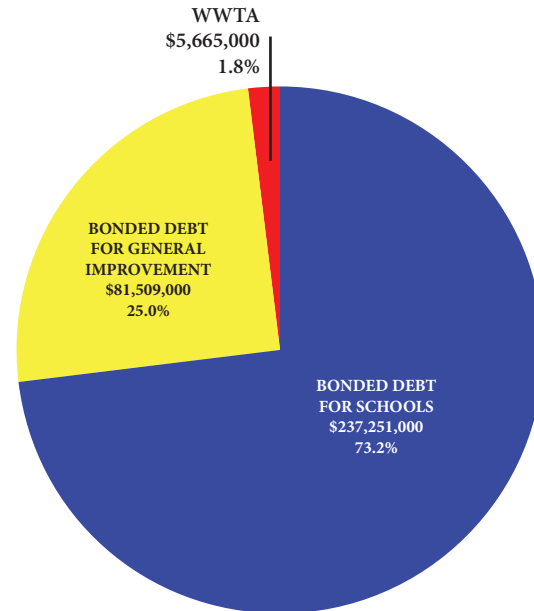

ECONOMIC FACTORS AND NEXT YEAR’S BUDGET AND PROPERTY TAX RATES

The following factors were considered in preparing the County’s budget for fiscal year 2020:

- Property tax revenues for FY 2020 are budgeted to increase 2.2% over the prior year. The growth projection is based on the current property assessments provided by the Assessor of Property.
- Intergovernmental revenues account for 31% of the County’s total revenue. The intergovernmental revenues consist primarily of funding received from the State of Tennessee and from the Federal government. 89% of the intergovernmental revenues are received by the

General Obligation Bonds Outstanding

General Improvement	\$	81,509,000	25.0%
Schools		237,251,000	73.2%
WWTA		5,665,000	1.8%
Total General Obligation Bond Debt	\$	324,425,000	

Department of Education with the remainder going to the General Fund. Intergovernmental revenues are projected to grow 6.1% in fiscal year 2020.

- Transfers-in from other funds includes excess fees paid to the General Fund from various constitutional offices and appropriations from the General Fund to the Debt Service Fund to cover scheduled principal and interest payments due. Total revenues from transfers decreased from the FY 2019 budget by \$3.4 million (6.6%), which was the direct result of a decrease in required principal and interest payments by the Debt Service Fund.
- The General Government (all departments other than the Hamilton County Department of Education - HCDE) granted employees an across-the-board pay raise of 2.5% (with a minimum raise of \$1,250 for employees earning less than \$50,000), and HCDE employees received a 1.5% step increase and a one-time bonus of \$1,500 per full-time employee. Total expenses for salaries increased over the prior year by \$29.2 million (8.8%).

- 
- Total costs budgeted for employee benefits increased from the FY 2019 budget by \$1.9 million (1.3%).
 - Expenditures for Debt Service principal and interest payments decreased \$3.3 million (6.4%) from the prior year. The County is scheduled to repay \$34.1 million of debt principal in fiscal year 2020, which is \$1.7 million less than the principal due in fiscal year 2019.
 - The Hamilton County Department of Education (HCDE), a discretely presented component unit of Hamilton County, adopted a fiscal year 2020 budget of \$475.2 million (60% of the total budget for Hamilton County). This cost does not include the debt service obligation attributed to the HCDE that is appropriated in the General Fund.
 - HCDE's combined budget growth is 7.49% over fiscal year 2019. A major portion of the HCDE revenue is obtained from the State of Tennessee Basic Education Program (BEP). The State uses a standardized BEP formula to calculate funding for K-12 public schools in Tennessee.
 - Increases in the HCDE expenditure budget were aligned with the school district's five strategic goals: Accelerating Student Achievement, Future Ready Students, Great Teachers and Leaders, Engaged Community and Efficient & Effective Operations. Increases in the cost of school-based personnel included a 1.5% salary step where applicable, and a one-time bonus of \$1,500 per full-time employee. Step increases are calculated annually based on years of service in accordance with the contract with the educational association. Instructional positions are being added this year to increase the number of regular classroom teachers, visual arts teachers, special education teachers and assistants. Support positions are being added this year for instructional coaching, literacy intervention, school counseling and college/career access. With over 80% of school district funds being spent on personnel, the District closely aligns its staffing levels with the State's Basic Education Program and class size mandates.

REQUESTS FOR INFORMATION

This financial report is designed to present users with a general overview of the County's finances and to demonstrate the County's accountability. If you have questions concerning any of the information provided in this report or need additional information, contact the Finance Administrator, McDaniel Building, 455 North Highland Park Avenue, Chattanooga, TN 37404.

Additional financial information can be found on our web site www.hamiltontn.gov

Two discretely presented component units, "911" Emergency Communications and the Water & Wastewater Treatment Authority, have separately issued financial reports that can be obtained from: Hamilton County "911" Emergency Communications District, 3404 Amnicola Highway, Chattanooga, TN 37406; Water & Wastewater Treatment Authority, P.O. Box 8856, Chattanooga, TN 37414.

**RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF NET POSITION**

HAMILTON COUNTY, TENNESSEE

June 30, 2019

Differences in amounts reported for governmental activities in the statement of net position on page A-1:

Fund balances - total governmental funds \$ 285,101,022

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds. 290,329,032

Certain revenues will be collected after year-end but are not available soon enough to pay for the current period's expenditures and therefore are deferred in the funds. 8,512,234

Internal service funds are used by management to charge the costs of self-insurance programs to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position. 38,834,467

Long-term assets receivable from a component unit are not due until the related long-term liability is due and payable. 5,665,000

The County entered into a joint venture with the City of Chattanooga and the Carter Street Corporation for the development and management of the Convention and Visitor's Trade Center. This asset is not a currently available financial resource and is not reported in the funds. 3,689,428

Long-term liabilities applicable to the County's governmental activities are not due and payable in the current period and therefore are not reported as fund liabilities. Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due. All liabilities, both current and long-term, are reported in the statement of net position. This item consists of the following:

General obligation bonds	\$ (324,425,000)	
Original issue premiums	(43,090,340)	
Deferred loss on refunding	2,779,894	
Net pension asset	2,512,597	
Net pension liability	(8,896,430)	
Deferred outflows from pension contributions	15,462,034	
Deferred outflows from differences in pension investment earnings	(1,905,498)	
Deferred outflows from pensions experience	1,156,968	
Deferred outflows from pensions changes in assumptions	5,857,389	
Deferred inflows from pensions experience	(4,668,126)	
Net OPEB liability	(20,505,628)	
Deferred outflows from OPEB contributions	4,946,473	
Deferred inflows from differences in OPEB investment earnings	(1,001,499)	
Landfill post closure costs	(130,000)	
Compensated absences	(15,301,701)	
Accrued interest payable	<u>(4,010,122)</u>	
		<u>(391,218,989)</u>

Net position of governmental activities \$ 240,912,194

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES**

**HAMILTON COUNTY, TENNESSEE
Year Ended June 30, 2019**

Differences in amounts reported for governmental activities in the statement of activities on pages A-2:

Net change in fund balances - total governmental funds	\$	(3,371,161)
--	----	-------------

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlay, reported as expenditures in governmental funds, are shown as capital assets in the statement of net position.		32,507,273
Depreciation expense on governmental capital assets is included in the governmental activities in the statement of activities.		(14,079,251)
The repayment of the principal of long-term debt consumes the current financial resources of governmental funds.		35,755,000
Compensated absences are measured by the amounts earned during the year in the statement of activities. However, expenditures for these items are measured by the amount of financial resources used in the governmental funds. Compensated absences decreased by this amount during the year.		(4,304)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.		
Payments received from component units for advances		(385,000)
Landfill post closure costs		10,000
Amortization of deferred charges on refunding		(634,577)
Amortization of bond issuance premium		4,700,632
Change in accrued interest payable		508,107
The net revenues of internal service funds are reported with governmental activities.		4,400,505
The net effect of various transactions involving capital assets is to decrease net position.		(61,148)
The net effect of capital asset transactions involving the Hamilton County Department of Education is to decrease net position.		(89,917)
The net effect of the change in the net OPEB obligation is included in the governmental activities in the statement of activities.		2,166,313
The net effect of the change in the net pension liability is included in the governmental activities in the statement of activities.		7,943,060
Certain governmental revenues will not be collected for several months after the fiscal year and are reported as deferred inflows in the governmental funds.		1,403,129
The net effect of the change in the Carter Street joint venture is included in the governmental activities in the statement of activities.		(121,372)

Change in net position of governmental activities	\$	<u>70,647,289</u>

NOTES TO BASIC FINANCIAL STATEMENTS

HAMILTON COUNTY, TENNESSEE
JUNE 30, 2019

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Hamilton County, Tennessee (the “County”) was incorporated October 25, 1819, by the Tennessee State Legislature and operates under a legislative body – County Mayor form of government. The present form of government was established in 1978 by constitutional amendment.

The financial statements of the County have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP”) as applied to governmental units. The Governmental Accounting Standards Board (“GASB”) is the accepted standard-setting body for governmental accounting and financial reporting. The County has implemented GASB Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements* which incorporated into the GASB’s authoritative literature certain accounting and financial reporting guidance issued on or before November 30, 1989 which does not conflict with or contradict GASB pronouncements.

(1) REPORTING ENTITY

In evaluating the County as a reporting entity, management has addressed all potential component units. Component units are legally separate organizations for which the County is financially accountable. The County is financially accountable for an organization if the County appoints a voting majority of the organization's governing board and (1) the County is able to significantly influence the programs or services performed or provided by the organizations; or (2) the County is legally entitled to or can otherwise access the organization's resources; or (3) the County is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the County is obligated for the debt of the organization. Component units also may include organizations that are fiscally dependent on the County in that the County approves the budget, levies their taxes or issues their debt.

The financial statements are formatted to allow the user to clearly distinguish between the primary government and its component units. The component units of the primary government (the County) are all discretely presented.

Discretely Presented Component Units

Hamilton County Department of Education – The Hamilton County Department of Education (HCDE) provides public education for grades kindergarten through twelve. The nine-member board is comprised of elected members who appoint the superintendent. The Hamilton County Commission levies taxes for the operations of the school system and issues debt for all significant capital projects, thus making the Hamilton County Department of Education fiscally dependent on the primary government. The financial activities also include the operations of a centralized cafeteria system, school activity funds, capital projects, and an internal service fund. Additional information may be obtained from: Hamilton County Department of Education, 3074 Hickory Valley Road, Bldg. 200-1, Chattanooga, TN 37421.

Emergency Communication District Board (911) – The “911” Emergency Communication Board was approved by resolution of the Hamilton County Board of Commissioners after the passage of Chapter 867 of the 1984 Tennessee Public Acts which authorized Emergency Communications Districts. The nine-member board is appointed by the County Mayor, is approved by the Hamilton County Board of Commissioners, and is legally separate from Hamilton County. The Board of Commissioners must approve any bonds or indebtedness of the district. Complete financial statements may be obtained from: Hamilton County “911” Emergency Communication District, 3404 Amnicola Highway, Chattanooga, TN 37406.

Hamilton County Water & Wastewater Treatment Authority – The Water & Wastewater Treatment Authority (WWTA) was organized under the Water & Wastewater Treatment Authority Act of the State of Tennessee. The Authority began operations on July 1, 1994, for the purpose of providing wastewater treatment service to residents of unincorporated areas of Hamilton County, Tennessee and is legally separate from Hamilton County. Five members of the twelve-member board of the WWTA are appointed by the Hamilton County Board of Commissioners from recommendations of the County Mayor. These five members have controlling voting power over the operations of the entity. The County Board of Commissioners does not approve the Authority's budget. Complete financial statements may be obtained from: Water & Wastewater Treatment Authority, P.O. Box 8856, Chattanooga, TN 37414.

Hamilton County Railroad Authority – The Railroad Authority (the Authority) was organized under the Railroad Authority Act of the State of Tennessee. The Authority was established on February 20, 2002 for the purpose of improving rail service in Hamilton County. The five-member Board consists of the County Mayor, City of Chattanooga Mayor, one member elected by the Board of County Commissioners, one member elected by the Chattanooga City Council, and the President and CEO of Chattanooga Area Chamber of Commerce. The Authority's Board has final decision-making authority for the entity. The Board of Commissioners must approve any bonds or indebtedness of the Authority. Additional information may be obtained from: Hamilton County Railroad Authority, 6125 Preservation Drive, Chattanooga, TN 37416.

(2) **JOINT VENTURES**

A joint venture is a legal entity or other organization that results from a contractual agreement and that is owned, operated or governed by two or more participants as a separate and specific activity subject to joint control in which the participants retain (a) an ongoing financial interest or (b) an ongoing financial responsibility. The County participates in the following joint venture:

Carter Street Corporation – The Carter Street Corporation manages the Trade Center and parking garage that were financed by Industrial Development Bonds. Further information, along with condensed financial information, can be found in Note O – Joint Venture.

Related Organizations – The following related organizations are excluded from the financial reporting entity because the County's accountability for these organizations does not extend beyond making the appointments. Audited financial statements are available from the respective organizations.

North West Utility District – This utility district is different from the other utility districts of Hamilton County because of the size of the area that it covers. Tennessee Code Annotated, Section 7-82-307(r)(1) & (2) provides for the appointment of seven members of which three members are recommended by the utility commission and the remaining four are appointed by the County Mayor. After the board appointments, neither a financial benefit nor a burden to the citizens of Hamilton County arises.

Industrial Development Board of the County of Hamilton – The Industrial Development Board of the County of Hamilton (the Corporation) is a corporation formed for the purpose of promoting and developing commercial, industrial, and manufacturing enterprise and encouraging employment within the boundaries of Hamilton County. The County Board of Commissioners appoints the eleven-member board. The Corporation is authorized and empowered to issue industrial development revenue bonds that do not constitute an indebtedness of Hamilton County, the State of Tennessee, or any political subdivision thereof. The County assumes no responsibility for the day-to-day operating expenses of the Corporation. Fees charged to applicants for funding finance such expenses.

Chattanooga-Hamilton County Hospital Authority – The County Mayor appoints, subject to the approval of the County Board of Commissioners, four members of the eleven-member Hospital Authority Board. The County is committed to fund a minimum of \$1,500,000 annually for indigent patient care to the Authority. The Authority has the ability to issue its own debt, which is not an obligation of the County, and primarily patient revenues finance its operations.

(3) BASIC FINANCIAL STATEMENTS

The basic financial statements include both government-wide (based on the County as a whole) and fund financial statements, focusing on either the County as a whole or major individual funds (within the fund financial statements). Both the government-wide and fund financial statements categorize activities as either governmental activities or business-type activities. At June 30, 2019, the County has no business-type activities in the primary government. In the government-wide Statement of Net Position, the governmental activities (a) are presented on a consolidated basis in a single column and (b) are reflected on a full accrual, economic resource basis, which incorporates long-term assets and receivables as well as long-term debt and obligations and deferred resources of inflows and outflows.

The government-wide Statement of Activities reflects both the gross and net cost per functional category (public safety, highways and streets, etc.), which are otherwise being supported by general government revenues (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. The program revenues must be directly associated with the function. Program revenues include revenues from fines and forfeitures, licenses and permits fees, service assessments, and charges for services. The operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants. The net cost (by function or business-type activity) is normally covered by general revenue (property, sales or gas taxes, intergovernmental revenues, interest income, etc.).

This government-wide focus is designed to view the County as a complete entity and the change in aggregate financial position resulting from the activities of the fiscal period.

Major individual governmental funds statements in the fund financial statements are presented on a current financial resource and modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. This presentation is deemed most appropriate to (a) demonstrate legal and covenant compliance, (b) demonstrate the source and use of liquid resources, and (c) demonstrate how the County's actual experience conforms to the budget or fiscal plan. Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the governmental activities column in the government-wide financial statements, a reconciliation is presented on the page following each statement, which briefly explains the adjustments necessary to transform the fund-based financial statements into the governmental activities column of the government-wide presentation.

Internal service funds of a government (which traditionally provide services primarily to other funds of the government) are presented in the summary form as part of the proprietary fund financial statement. Activities accounted for in the Internal Service Funds include: (1) accounting for the payment of workers' compensation and general liability claims; (2) payment of employee medical, life insurance and other payroll related expenses, and unemployment claims; (3) the employee pharmacy; and (4) the employee medical clinic. Operating revenues and expenses are the result of providing services to the principal user of the internal service. Any revenues or expenses that are not the result of providing those services are classified as nonoperating. Since the principal users of the internal services are the County's governmental activities, financial statements of internal service funds are consolidated into the governmental activities column when presented at the government-wide level and interfund transactions are eliminated. To the extent possible, the costs of these services are reflected in the appropriate functional activity (public safety, highways and streets, etc.).

The County's fiduciary funds are presented in the fund financial statements by type (trust and agency). Since by definition these assets are being held for the benefit of a third party (other local governments, private parties, pension participants, etc.) and cannot be used to finance activities or obligations of the government, these funds are not incorporated into the government-wide financial statements.

The focus of the government-wide financial statements is on the County as a whole. The focus of the fund financial statements is on the major individual government funds as well as the fiduciary funds (by category) and the component units. Each presentation provides valuable information that can be analyzed and compared (between years and between governments) to enhance the usefulness of the information.

(4) BASIS OF PRESENTATION

The financial transactions of the County are recorded in individual funds. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund balance/net position, revenues and expenditures/expenses. The County reports the following major funds and other fund types:

a) Major Funds

General Fund – The General Fund is used to account for all revenues and expenditures applicable to the general operations of county government that are not properly accounted for in another fund. All general operating revenues that are not restricted or designated as to their use by outside sources are recorded in the General Fund. Revenues are derived primarily from taxes and intergovernmental revenues.

Debt Service Fund – The Debt Service Fund is used to account for the accumulation of resources for the payment of interest, principal, and related costs of long-term liabilities of the Primary Government’s governmental activities.

Capital Projects Fund – The Capital Projects Fund is used to account for resources designated to construct or acquire capital assets and major improvements. Revenues are derived primarily from the issuance of long-term liabilities, intergovernmental revenues, grants, and earnings on investments.

b) Other Fund Types

Special Revenue Funds – Special Revenue Funds account for revenue sources that are legally restricted or committed to expenditure for specific purposes, such as grant programs, certain fines and forfeitures, and certain law enforcement services.

Internal Service Funds – The Internal Service Fund accounts for the County’s self-insurance programs. The County is self-insured for employee medical claims, unemployment compensation, on-the-job injury claims, property and liability claims, and losses due to liabilities arising under the laws of the state and federal governments. The costs for these programs are funded through premiums paid by the departments and agencies of the County.

Pension Trust Funds – The Pension Trust Funds account for assets held by the County as trustee. These funds are accounted for in the same manner as business enterprises providing similar services. Certain County employees hired prior to July 1, 1977, all County commissioners, and certain County teachers who were employed prior to July 1, 1945, are covered by the Pension Trust Funds.

OPEB Trust Fund – OPEB Trust Fund is used to report the County’s “Other Post-Employment Benefits”. The fund accounts for resources held in trust for a defined benefit post-employment health and medical care plan for County retirees and their dependents. This fund is accounted for in the same manner as business enterprises providing similar services.

Agency Funds – Agency Funds are used to account for fiduciary assets held by the County in a custodial capacity as an agent on behalf of individuals and other government entities. The County's agency fund is used to account for various deposits, bail bonds and performance bonds.

(5) BASIS OF ACCOUNTING

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made, regardless of the measurement focus applied.

The Government-wide Financial Statements and the Proprietary and Fiduciary Fund Financial Statements are presented on the accrual basis of accounting. The Governmental Funds in the Fund Financial Statements are presented on the modified accrual basis.

Accrual – Revenues are recognized when earned and expenses are recognized when incurred.

Modified Accrual – All governmental funds are accounted for using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. “Measurable” means the amount of the transaction can be determined. “Available” means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place.

Major revenue sources susceptible to accrual include: grants, interest, sales and use taxes, hotel/motel taxes, property taxes, and intergovernmental revenues. In general, other revenues are recognized when cash is received.

The County defined the length of time used for “available” for purposes of revenue recognition in the governmental fund financial statements to be six months for intergovernmental revenues and sixty days for property taxes and other revenues.

Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt is recognized when due.

(6) BUDGET POLICY AND BUDGETARY DATA

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

On or around June 1, the County Mayor submits to the Hamilton County Board of Commissioners a proposed operating budget for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and the means of funding them.

Public hearings are conducted which allow for taxpayer comments.

Prior to July 1, the Board of Commissioners legally enacts a balanced budget through passage of a resolution.

The County Mayor is authorized to transfer budgeted amounts within divisions within any fund; however, any revisions that alter the total expenditures of any fund or transfer funds between divisions must be approved by the Board of Commissioners.

A legally enacted budget is employed as a management control device during the year for the following governmental funds: General Fund, Debt Service Fund, Hotel Motel Fund and Sheriff Special Revenue Fund. Formal budgetary integration is not employed for the remaining Constitutional Officers due to the ability of management to closely monitor and control the transactions in the funds. The remaining special revenue funds are unbudgeted because effective control is maintained through the appropriation of revenues by the General Fund and through management’s observation of the limited transactions of these funds.

The budgets are prepared on a basis consistent with generally accepted accounting principles (GAAP) except that encumbrances are treated as budgeted expenditures in the year of incurrence of the commitment to purchase. Budgetary comparisons presented in the report are on this budgetary basis and do not include financial information of individual funds which do not have budgets. Appropriations, except remaining project appropriations, encumbrances, and unexpended grant appropriations, lapse at the end of the fiscal year.

Encumbrances against budgeted appropriations are recorded during the year upon execution of purchase orders, contracts, or other appropriate documents. Amounts shown as encumbrances at June 30, 2019, reflect expenditures for goods and services that had not been received or completed at that date. These items are recorded as assignments of fund balances and provide authority for the carryover of appropriations to the subsequent year in order to complete these transactions. Encumbrances are utilized in the General Fund and the Capital Projects Fund.

The various departments within the County are organized by function into separate divisions. The level at which expenditures may not legally exceed appropriations is the division level. All budget amounts included in these financial statements and the accompanying supplementary information reflect the original

budget and the amended budget (which have been adjusted for legally authorized revisions to the annual budgets during the year).

The General Fund of the County is organized into ten separate divisions by function (Constitutional Offices, Supported Agencies, Unassigned, Finance, Public Works, General Services, Human Resources, Health, Sheriff and Juvenile Court Clerk) and it is at that level that expenditures may not legally exceed appropriations. Funds that have a legally adopted budget may not exceed appropriations.

	<u>Original Budget</u>	<u>Final Budget</u>	<u>Actual (Non-GAAP basis)</u>	<u>Variance with Final Budget Positive / (Negative)</u>
General Fund				
Constitutional Offices	\$ 28,847,480	\$ 29,383,435	\$ 27,822,446	\$ 1,560,989
Supported Agencies	4,499,647	4,571,455	4,570,966	489

Total General Fund	<u>252,810,705</u>	<u>258,099,387</u>	<u>242,478,663</u>	<u>15,620,724</u>
Debt Service	<u>51,994,024</u>	<u>51,994,024</u>	<u>51,985,992</u>	<u>8,032</u>
Hotel Motel	<u>8,388,000</u>	<u>8,388,000</u>	<u>8,515,182</u>	<u>(127,182)</u>
Sheriff Special Revenue	<u>481,486</u>	<u>481,486</u>	<u>218,311</u>	<u>263,175</u>
Primary Government	<u>\$ 313,674,215</u>	<u>\$ 318,962,897</u>	<u>\$ 303,198,148</u>	<u>\$ 15,764,749</u>

Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. At year end the amount of encumbrances expected to be honored upon performance by the vendor in the next year was \$3,190,107. The General Fund was the only major fund to have encumbrances at year end.

A separately issued budgetary report is available and can be obtained from Hamilton County Finance Division, 455 North Highland Park Avenue, Chattanooga, Tennessee 37404.

(7) ASSETS, LIABILITIES, DEFERRED OUTFLOWS/INFLOWS OF RESOURCES AND NET POSITION/FUND BALANCE

a) Cash and Cash Equivalents

The County considers cash and cash equivalents to include cash on hand, cash held in the State's local government investment pool (LGIP), amounts due from banks, and interest-bearing deposits at various financial institutions.

b) Investments

Certificates of deposit with a maturity date greater than three months of the date acquired by the County are considered investments. These certificates of deposits are considered non-participating interest earning investment contracts and, accordingly, are valued at cost.

c) Receivables

Receivables are recorded in the Governmental, Proprietary, Fiduciary, and Component Unit funds. Where appropriate, receivables are shown net of an allowance for uncollectible accounts.

d) Inventories and Prepaid Items

Inventories are valued at cost, which approximates market value using the first-in, first-out (FIFO) method. Inventories consist of expendable supplies held for consumption. The costs are recorded as expenditures at the time individual inventory items are used (consumption method).

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items. The cost of prepaid items is recorded as an expense when consumed rather than when purchased. The payments are being recorded as expenditures on the fund level for the governmental funds.

e) Capital Assets

Capital assets purchased or acquired are carried at historical cost or estimated historical cost. Contributed assets are recorded at acquisition value as of the date donated. The County maintains infrastructure asset records consistent with other capital assets. The County’s threshold for additions to capital assets is \$5,000 in the primary government and \$5,000 for the Department of Education. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on capital assets is calculated on the straight-line method over the following estimated useful lives:

	<u>Useful Life</u>
Buildings	20 – 50 years
Improvements Other Than Buildings	20 – 50 years
Machinery and Equipment	5 – 20 years
Public Domain Infrastructure	10 – 50 years
Intangibles	5 years

Beginning in the implementation year (July 1, 2001), new infrastructure expenditures have been capitalized and depreciated. Following the implementation of GASB No. 34, the County continued to expand and refine its capital assets. Effective July 1, 2003, the County recorded the infrastructure assets at estimated or actual historical cost, net of accumulated depreciation. Infrastructure assets include roads, bridges, curbs and gutters, streets and sidewalks, drainage systems and lighting systems.

f) Fund Balance

The County adopted GASB Statement No. 54, *Fund Balance Reporting and Governmental Type Definitions*, in fiscal year 2011. In the governmental fund financial statements, the fund balance is reported in classifications that comprise a hierarchy based primarily on the extent to which the County is bound to honor constraints on the specific purposes for which amounts in the funds can be spent. The classifications are as follows:

Nonspendable fund balance includes amounts that cannot be spent because they are (a) not in spendable form, or (b) legally or contractually required to be maintained intact (e.g., endowments). The fund balance considered “nonspendable” includes items not expected to be converted to cash (e.g., inventories and prepaid items), as well as long-term receivables. The County does not have any nonspendable fund balance that is legally or contractually required to be maintained intact.

Restricted fund balance includes amounts that are restricted for the following purposes noted in this paragraph. These amounts result from constraints placed on the use of resources (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation. State statutes mandate that certain funds collected are restricted for their specific purposes. Purposes that are controlled by state statute are fees collected for automation, certain funds received for public safety, and certain funds received for the Department of Education centralized cafeteria that are intended for a special segment of the school population and not intended to benefit the student body as a whole. Other funds that are restricted are the fees collected from rate payers to finance the private service lateral program (PSLP) of the Water and Wastewater Treatment Authority.

Committed fund balance includes amounts that can be used only for specific purposes pursuant to constraints imposed by legally binding contracts approved by resolution. These items include commitments that exceed the \$25,000 threshold set forth by the Hamilton County Purchasing Rules and Regulations. Items committed may only be modified or rescinded by resolution passed by the County Commission.

Assigned fund balance consists of amounts constrained by the County's intent to be used for specific purposes, but are neither restricted nor committed. For reporting purposes, assignments may fall into two categories: assigned for specific purposes or assigned for encumbrances that fall below the \$25,000 threshold as set forth by the Hamilton County Purchasing Rules and Regulations. Items assigned as encumbrances may be assigned, modified or rescinded by the County Mayor or his designee, as set forth in the Hamilton County Purchasing Rules and Regulations.

Unassigned fund balance is the residual balance in the general fund (i.e., fund balance that is not either nonspendable, not restricted, committed, or assigned.)

When expenditures are incurred for purposes for which both restricted and unrestricted fund balance is available, restricted amounts are expended first, and then unrestricted funds are used. Generally, when expenditures are incurred utilizing unrestricted funds, unassigned amounts are expended first, then assigned amounts, then committed amounts.

g) Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Net Position reports a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to future period(s) and therefore, will not be recognized as an outflow of resources (expense/expenditure) until then. The County has two items that qualify for reporting in this category: deferred outflows related to refunding and deferred outflows related to pensions and OPEB. They are reported in the government-wide Statement of Net Position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. The amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. Deferred outflows related to pensions and OPEB are discussed below.

In addition to liabilities, the financial statements report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time. The County has four types of deferred inflows: deferred property taxes, unavailable revenue, deferred inflows related to pensions and deferred inflows related to OPEB. The County's governmental funds Balance Sheet and government-wide Statement of Net Position will report deferred property tax revenues as a deferred inflow of resources as the amount represents resources associated with an imposed, non-exchange transaction received or reported as a receivable before the period for which the property taxes were levied. The County reports unavailable property taxes and various receivables for revenue which do not meet the availability criteria in governmental funds as deferred inflows of resources. Unavailable revenue is reported only in the governmental funds Balance Sheet. Deferred inflows related to pensions and OPEB are discussed below.

h) Pension Plans

Substantially all County employees are eligible to participate in retirement benefit plans established by either the County or the State of Tennessee.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of Hamilton County's participation in the Public Employee Retirement Plan of the Tennessee Consolidated Retirement System (TCRS), and additions to/deductions from Hamilton County's fiduciary net position have been determined on the same basis as they are reported by the TCRS for the Public Employee Retirement Plan. For this purpose, benefits (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms of the Public Employee Retirement Plan of TCRS. Investments are reported at fair value.

The County has deferred inflows and outflows related to the recording of changes in its net pension liability. Certain changes in the net pension liability are recognized as pension expense over time instead of all being recognized in the year of occurrence. Experience gains or losses result from periodic studies by the County's actuary which adjust the net pension liability for actual experience for certain trend information that was previously assumed, for example the assumed dates of retirement of plan members. These experience gains or losses are recorded as deferred outflows of resources or deferred inflows of resources and are amortized into pension expense over the expected remaining service lives of plan members. Changes in actuarial assumptions which adjust the net pension liability are also recorded as

deferred outflows of resources or deferred inflows of resources and are amortized into pension expense over the expected remaining service lives of plan members. The difference between projected investment return on pension investments and actual return on those investments is also deferred and amortized against pension expense over a five year period.

(8) REVENUES, EXPENDITURES AND EXPENSES

Substantially all governmental fund revenues are subject to accrual. Expenditures are recognized when the related fund liability is incurred, except for the following instances permitted by generally accepted accounting principles:

- General obligation long-term debt principal and interest are reported only when due.
- Inventory costs are reported in the period when inventory items are consumed rather than in the period purchased.

a) Property Taxes

Property taxes levied by the County are assessed by the Assessor of Property and collected by the Trustee, both of whom are elected officials of the County. Property tax revenues are recognized when they become measurable and available. “Available” means due or past due and receivable within the current period and collected no longer than 60 days after the close of the current period. Uncollected amounts not considered available are recorded as deferred inflows of resources. Hamilton County has unlimited ability to levy ad valorem taxes.

The property tax calendar applicable to the current fiscal year is as follows:

Lien date	January 1, 2018
Levy date	October 1, 2018
Tax bills mailed	October 1, 2018
Delinquency date	March 1, 2019
Tax sale – 2015 delinquent property taxes	June 6, 2019

b) Grant Revenue

The County, a recipient of grant revenues, recognizes revenues (net of estimated uncollectible amounts, if any) when all applicable eligibility requirements, including time requirements, are met. Resources transmitted to the County before the eligibility requirements are met are reported as deferred inflows of resources.

Some grants and contributions consist of capital assets or resources that are restricted for capital purposes – to purchase, construct, or renovate capital assets associated with a specific program. These are reported separately from grants and contributions that may be used either for operating expenses or for capital expenditures of the program at the discretion of the County.

c) Investment Income

Investment income from pooled cash and investments is allocated monthly based on the percentage of a fund’s average daily equity in pooled cash and investments to the total average daily pooled equity in pooled cash and investments.

d) Interfund Transactions

During the course of normal operations, the County has numerous transactions between funds to provide services, construct assets, service debt, etc. These transactions are generally reflected as transfers except for transactions reimbursing a fund for expenditures made by it for the benefit of another fund. Such transactions are recorded as expenditures in the disbursing fund and as a reduction of expenditures in the receiving fund. Transactions that would be treated as revenues or expenditures if they involve organizations external to the County are treated as revenues in the receiving fund and expenditures in the disbursing fund. Amounts reported in the fund financial statements as transfers in/out from other funds are eliminated in the governmental activities column of the government-wide Statement of Activities.

Amounts owed to one fund or component unit by another are reported as due to/due from other funds or component units. Amounts reported in the fund financial statements as due to/due from other funds are eliminated in the governmental activities column of the government-wide Statement of Net Position.

e) Payments Between the County and Component Units

Resource flows (except those that affect the statement of net position/balance sheet only, such as loans and repayments) between a primary government and its discretely presented component units are reported as external transactions – that is, as revenues and expenses. Payments from component units consist of debt service payments from “911” Emergency Communication for equipment purchased by the County and from Water and Wastewater Treatment Authority for bonds issued in the County’s name.

f) Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

g) Compensated Absences

County employees earn compensation for absences by a prescribed formula based on their length of service. Compensation for absences is accumulated every pay period and has a cap of 1,680 hours for employees hired before January 1, 2013. Employees hired after that date may only accumulate up to 800 hours. During the year, the compensation earned may be used for either vacation or absence due to illness. At year end, the liability for compensation for absences earned but not paid to employees is accrued in the government-wide financial statements by function. Upon termination or retirement, employees are paid for the balance accrued in their compensated absences bank.

(9) NET POSITION

The government-wide financial statements utilize a net position presentation and are displayed in three components.

Net Investment in Capital Assets – consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of debt that are attributable to the acquisition, construction, or improvement of those assets.

Restricted Net Position – consists of net position with third party (statutory, bond covenant or granting agency) limitations on their use. The County’s policy is generally to use restricted net position first, as appropriate opportunities arise.

Unrestricted Net Position – all other net position that does not meet the definition of restricted or net investment in capital assets.

NOTE B – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Compliance with Finance Related Legal and Contractual Provisions

The County incurred no material violations of finance related legal and contractual provisions.

Excess of Expenditures Over Appropriations in Individual Funds

For the year ended June 30, 2019, the County had no material excess of expenditures over appropriations in individual funds.

Net Position/Fund Balance Deficit

At June 30, 2019, the County has a deficit of \$20,227,136 in unrestricted net position in the government-wide statement of net position for governmental activities. Historically, significant portions of the County’s general obligation bonds are issued to acquire, construct, and develop facilities for the Department of Education. These facilities are not recorded as capital assets of the County’s governmental activities but are recorded as capital assets

of the Department of Education, which is a discretely presented component unit. During the year ending June 30, 2019, the County conveyed \$89,917 in capital assets to the Department of Education. At June 30, 2019, the County's long-term liabilities include general obligation bonds of \$237,250,748 issued for the Department of Education capital projects.

NOTE C – CASH, CASH EQUIVALENTS AND INVESTMENTS

Cash and Cash Equivalents

Custodial credit risk relating to deposits is the risk that in the event of a bank failure, the government's deposits may not be returned to it. As of June 30, 2019, all deposits were insured or collateralized, as required by government policy.

The County's cash and cash equivalents consist of cash on hand, demand deposits, and interest-bearing deposits at various financial institutions.

Investments

Investment	Maturity Date	Interest Rate	Credit Rating	Level 2	Fair Value
Federal Farm Credit Bank	02/20/2020	2.150%	Aaa	\$ 5,000,000	\$ 5,000,000

Total Certificates of Deposit			<u>\$ 32,220,000</u>

As of June 30, 2019, total investments for the primary government (excluding Pension Trust Funds and OPEB Trust Fund) were \$154,893,053 and investments for the Department of Education, a discretely presented component unit, were \$62,271,243. In addition to the investments listed in the previous table, the County holds \$9,242,934 in agency funds, on the behalf of court litigants and beneficiaries.

Interest rate risk – Interest rate risk is the risk that the fair value of an investment will be adversely affected by changes in interest rates. As a means of limiting the County’s exposure to fair value losses arising from rising interest rates, the County purchases investments with maturities of two years or less as required by state law. The County’s investment practices further reduce exposure to interest rate risk by maintaining a weighted average maturity in its investment portfolio of one year or less through the use of the “ladder” method of investing and by holding all investments to maturity. The County’s investment portfolio did not experience any significant fluctuations in fair value during the year.

Custodial credit risk – The County’s policies limit deposits and investments to those instruments allowed by applicable state laws. State statutes require that all deposits with financial institutions be collateralized by securities whose market value is equal to 105% of the value of the uninsured deposits. The deposits must be covered by federal depository insurance or the Tennessee Bank Collateral Pool, by collateral held by the County’s agent in the County’s name, or by the Federal Reserve Banks acting as third party agents. The statutes also authorize the types of investments in which the County can participate. The portfolio manager may invest in any instruments which are in accordance with applicable laws, including but not limited to the following: certificates of deposit and other deposit accounts at Tennessee chartered banks and savings and loan associations; repurchase agreements of obligations of the United States or its agencies; the Tennessee local government investment pool; certain authorized bonds of the state of Tennessee, any other state or political subdivision thereof, and any Tennessee county or municipality; and nonconvertible debt securities of the United States or US government sponsored enterprises.

Credit risk – Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The County’s adopted investment policy is designed to maximize investment earnings while protecting the security of principal and providing adequate liquidity. State law requires that the County not have investments longer than two years and all investments to be secured by either the State Collateral Pool Board or the participating bank.

Fair Value Measurements – The County categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The County’s certificates of deposit are nonparticipating interest-earning investment contracts and, accordingly, are recorded at cost.

Pension Trust Funds and Other Post-Employment Benefits Trust Fund – The County’s Pension Trust Funds and Other Post-Employment Benefits (OPEB) Trust Fund are managed with long-term objectives that include maximizing total investment earnings. State statutes and County policies allow these funds a broader range of investments than other County investments. The County’s Pension Trust Funds and OPEB Trust Fund have no investments in any one issuer that represent 5 percent or more of plan net position. The credit risk of investments of these funds is summarized as follows:

Pension Trust Funds:

Investment	Interest Rate	Credit Rating	Credit			Fair Value
			Level 1	Level 2	Level 3

Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

NOTE D – RECEIVABLES

Receivables at June 30, 2019, consist of the following:

<u>Funds</u>	<u>Property Taxes</u>	<u>Patients</u>	<u>Accounts</u>	<u>Inter-Governmental</u>	<u>Allowance for Uncollectibles</u>	<u>Net</u>
Primary Government:						
General	\$ 165,346,370	\$ 8,135,627	\$ 2,324,356	\$ 7,190,463	\$ (10,602,602)	\$ 172,394,214
Debt Service	-	-	1,916	-	-	1,916
Capital Projects	-	-	665,888	-	-	665,888
Nonmajor	-	-	1,568,624	-	-	1,568,624
Internal Service	-	-	468,000	-	-	468,000
	<u>\$ 165,346,370</u>	<u>\$ 8,135,627</u>	<u>\$ 5,028,784</u>	<u>\$ 7,190,463</u>	<u>\$ (10,602,602)</u>	<u>\$ 175,098,642</u>

<u>Funds</u>	<u>Property Taxes</u>	<u>Accounts</u>	<u>Inter-Governmental</u>	<u>Allowance for Uncollectibles</u>	<u>Net</u>
Component Units:					
Hamilton County					
Department of Education	\$ 158,135,865	\$ 3,387,139	\$ 27,063,148	\$ (6,171,916)	\$ 182,414,236
"911" Emergency Communication	-	263,382	-	-	263,382
WWTA	-	5,659,517	-	(58,142)	5,601,375
	<u>\$ 158,135,865</u>	<u>\$ 9,310,038</u>	<u>\$ 27,063,148</u>	<u>\$ (6,230,058)</u>	<u>\$ 188,278,993</u>

Property tax receivables include uncollected taxes from the past seven years' levies plus the anticipated levy for the current calendar year. Taxes uncollected after seven years are written off, and the property is ultimately sold through a back tax property sale. The allowance for uncollectible tax is computed based upon the weighted average percentage of prior year collections on delinquent taxes to the total delinquent taxes receivable at June 30, 2019.

Patient accounts receivable represent uncollected revenues for services rendered. Ambulance patient accounts that are uncollected after 120 days are considered doubtful and ultimately written off as uncollectible. All other accounts are considered doubtful after a reasonable effort has been made to collect.

NOTE E – SOLID WASTE DISPOSAL POST CLOSURE CARE COSTS

The County utilizes the General Fund to account for post closure care costs of the Hamilton County Birchwood Landfill Area 1 and the TVA Model Landfill. The County completed closure of both Area 1 and the TVA Model Landfill in 2001. In accordance with state and federal regulations, the County is required to perform certain maintenance and monitoring functions for thirty years after closure. The estimated liability for post closure care costs of \$130,000 at June 30, 2019, is based on the use of 100% of capacity of both landfill areas. The estimated total current cost of the post closure care of \$130,000 is based on the amount that would be paid if all equipment, facilities, and services required to close, monitor, and maintain the landfills were acquired at June 30, 2019. However, the actual cost of closure and post closure care may be higher due to inflation, changes in technology, or changes in landfill laws and regulations. It is anticipated that future inflation costs will be financed in part from earnings on investments. The remaining portion of anticipated future inflation costs and additional costs that might arise from changes in post closure requirements will be covered by appropriations in the General Fund.

NOTE F – COMMITMENTS AND CONTINGENCIES

The County is a party to various legal proceedings. At the date of these financial statements, the County cannot estimate its liability, if any, from losses that may result from certain proceedings. In the opinion of management and the County attorneys, the potential adverse impact of these proceedings would not be material to the combined financial statements of the County.

The County has received federal and state grants for specific purposes that are subject to review and audit by grantor agencies. Such audits could result in reimbursements to the grantor agency for expenditures disallowed under the terms of the grant. County management is not aware of any potential losses from such disallowance and believes that reimbursements, if any, would not be material.

The County has entered into various construction commitments. Such contracts include contracts for improvements to schools, industrial parks, and other facilities related to general government capital projects. Several of these contracts were in progress but not completed as of June 30, 2019. The total contractual commitments outstanding as of June 30, 2019, aggregated approximately \$72,569,755. These commitments are not reported in the government-wide statements. The County has sufficient funds available to cover these commitments.

Hamilton County Water and Wastewater Treatment Authority (the Authority), a discretely presented component unit, is expected to sign a consent decree with the Environmental Protection Agency (EPA) which will obligate the Authority to make improvements to the wastewater system to ensure compliance with the Clean Water Act. The Authority's estimated outlays for these projects were estimated to be approximately \$243,000,000 as of June 30, 2019.

NOTE G – CONDUIT DEBT OBLIGATION

From time to time, Hamilton County has issued Industrial Revenue Bonds to provide financial assistance to private-sector entities for the acquisition and construction of industrial commercial facilities deemed to be in the public interest. The bonds are secured by the property financed and are payable solely from payments received on the underlying mortgage loans. Upon repayment of the bonds, ownership of the acquired facilities transfers to the private-sector entity or homeowner served by the bond issuance. Neither Hamilton County, the State, nor any political subdivision thereof is obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

As of June 30, 2019, there are two Industrial Revenue Bonds outstanding. The aggregate principal amount payable for the Industrial Revenue Bond series issued at June 30, 2019, is \$16,446,083.

The aggregate principal amount for the remaining series issued prior to July 1, 1995, could not be determined; however, their original issue amounts totaled \$234,756,196.

NOTE H – CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2019, is as follows:

Primary Government

	<u>Beginning Balance</u>	<u>Current Year Additions</u>	<u>Current Year Retirements</u>	<u>Transfers</u>	<u>Ending Balance</u>
Governmental Activities:					
Non-Depreciable Assets:

"911" Emergency Communications	1,367,970
Total	<u>\$ 19,373,901</u>

Hamilton County donated \$89,917 assets transferred from construction in progress to the Department of Education, a component unit of Hamilton County.

NOTE I – EMPLOYEE RETIREMENT SYSTEMS

Hamilton County provides retirement benefits through seven pension plans. The majority of employees participate in one of four retirement plans provided by the Tennessee Consolidated Retirement System (TCRS). One of the TCRS plans is the Political Subdivision Pension Plan (PSP), now referred to as the Hamilton County Legacy Plan, an agent, multiple-employer, defined benefit plan which is available for all County employees, except teachers, employed before September 30, 2015. This plan closed to new membership September 30, 2015, but will continue providing benefits to existing members and retirees. Beginning October 1, 2015, all newly hired County employees, except teachers, can participate in the Hamilton County Hybrid Plan. The Hamilton County Hybrid Plan is an agent, multiple-employer, combination of a defined benefit plan and a defined contribution plan. The other two TCRS plans are the Teacher Legacy Pension Plan and the Teacher Retirement Plan which are available to teachers of the Hamilton County School System. Teachers with membership in TCRS before July 1, 2014 are provided with pensions through

the Teacher Legacy Pension Plan, a cost sharing multiple-employer pension plan. The Teacher Legacy Pension Plan closed to new membership on June 30, 2014, but will continue providing benefits to existing members and retirees. Beginning July 1, 2014, the Teacher Retirement Plan became effective for teachers employed by Local Education Agencies (LEAs) after June 30, 2014. The Teacher Retirement Plan is a separate cost-sharing, multiple-employer defined benefit plan.

The remaining employees who are eligible for retirement benefits participate in one of three single-employer, defined benefit pension plans (Employees' Retirement Plan, Commissioners' Retirement Plan, and Teachers' Retirement Plan). The County acts as Trustee for these plans.

The following table is a summary of each of these plans' net pension liability or asset and the related deferred outflows of resources and deferred inflows of resources:

	Primary Government					
	Hamilton	Hamilton County	Employees'	Commissioners'	Teachers'	Total
	County Legacy Plan	Hybrid	Pension	Pension	Pension	
Net pension asset	\$ -	\$ 736,867	\$ 1,775,730	\$ -	\$ -	\$ 2,512,597
Net pension liability	8,756,898	-	-	139,125	407	8,896,430

Pension expense	(4,137,774)	832,740	(3,305,034)

Tennessee Consolidated Retirement Systems

(1) HAMILTON COUNTY LEGACY PLAN

Plan Description

Employees of Hamilton County, including certain employees of the Hamilton County Department of Education, are members of the Hamilton County Legacy Plan, an agent, multiple-employer, defined benefit pension plan administered by the TCRS. The Hamilton County Legacy Plan closed to new membership on

September 30, 2015, but will continue providing benefits to existing members and retirees. The TCRS Board of Trustees is responsible for the proper operation and administration of the TCRS. The Tennessee Treasury Department, an agency in the legislative branch of state government, administers the plans of the TCRS. TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's highest five consecutive year average compensation and the member's years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with thirty years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. The service related and non-service related disability benefits are determined in the same manner as a service retirement benefit but are reduced 10 percent and include projected service credits. Members joining the system after July 1, 1979, become vested after five years of service and members joining prior to July 1, 1979, were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapters 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as Hamilton County participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. The chief legislative body may adopt the benefit terms permitted by statute.

Member and beneficiary annuitants are entitled to automatic cost of living adjustments (COLAs) after retirement. A COLA is granted each July for annuitants retired prior to the 2nd of July of the previous year. The COLA is based on the change in the consumer price index (CPI) during the prior calendar year, capped at 3 percent, and applied to the current benefit. No COLA is granted if the change in the CPI is less than one-half percent. A one percent COLA is granted if the CPI change is between one-half percent and one percent. A member who leaves employment may withdraw their employee contributions, plus any accumulated interest.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained at <https://treasury.tn.gov/Retirement/Boards-and-Governance/Reporting-and-Investment-Policies>.

Pensions. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the County's participation in the Public Employee Retirement Plan of the TCRS, and additions to/deductions from the County's fiduciary net position have been determined on the same basis as they were reported by the TCRS for the Public Employee Retirement Plan. For this purpose, benefits (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms of the Public Employee Retirement Plan of the TCRS. Investments are reported at fair value.

Funding Policy

Hamilton County adopted a noncontributory retirement plan for its employees on July 1, 1981.

Hamilton County is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2019, was 14.96% of annual covered payroll. Contributions for employees are established in the statutes governing the TCRS and may only be changed by the Tennessee General Assembly. The County makes employer contributions at the rate set by the Board of Trustees as determined by an actuarial valuation. For the year ended June 30, 2019, employer contributions for the County were \$14,412,744. By law, employer contributions are required to be paid. The TCRS may intercept the County's state shared taxes if required employer contributions are not remitted. The employer's actuarially determined contribution (ADC) and member contributions are expected to finance the costs of benefits earned by members during the year, the cost of administration, as well as an amortized portion of any unfunded liability.

The required contribution was determined as part of the June 30, 2018 actuarial valuation using the entry age normal actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.25 percent per year compounded annually; (b) projected 2.5 percent annual rate of inflation; (c) projected salary increases of 4.0 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries); (d) projected 3.5 percent annual increase in the Social Security wage base; and (e) projected post-

employment increases of 2.25 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. Hamilton County's amortization method is level dollar on a closed basis. The remaining amortization period varies by year.

Investment Rate of Return

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees in conjunction with the June 30, 2016 actuarial experience study. A blend of future capital market projections and historical market returns was used in a building-block method in which a best-estimate of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) is developed for each major asset class. These best-estimates are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentages and by adding expected inflation of 2.5 percent. The best-estimates of geometric real rates of return and the TCRS investment policy target asset allocation for major asset class are summarized in the following table:

<u>Asset Class</u>	Long-Term Expected Real Rate of <u>Return</u>	Target <u>Allocations</u>
U.S. equity	5.69%	31%
Developed market international equity	5.29%	14%
Emerging market international equity	6.36%	4%
Private equity and strategic lending	5.79%	20%
U.S. fixed income	2.01%	20%
Real estate	4.32%	10%
Short-term securities	0.00%	<u>1%</u>
		<u>100%</u>

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees as 7.25 percent based on a blending of the factors described above.

Net Pension Liability (Asset)

The County's net pension liability (asset) was measured as of June 30, 2018, and the total pension liability (asset) used to calculate net pension liability (asset) was determined by an actuarial valuation as of that date.

Actuarial assumptions. The total pension liability as of June 30, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Summary of Key Actuarial Assumptions

Reporting Date	June 30, 2019
Measurement Date	June 30, 2018
Actuarial Valuation Date	June 30, 2018
Actuarial cost method	Entry Age Normal
Amortization method	Level dollar, closed (not to exceed 20 years)
Asset valuation method	10-year smoothed within a 20 percent corridor to market value
Inflation	2.5 percent
Salary increases	Graded salary ranges from 8.72 to 3.44 percent based on age, including inflation, averaging 4.00 percent
Investment rate of return	7.25 percent, net of pension plan investment expenses, including inflation
Retirement age	Pattern of retirement determined by experience study
Mortality	Customized table based on actual experience including an adjustment for some anticipated improvement
Cost of living adjustments	2.25 percent, if provided

Mortality rates were based on actual experience including an adjustment for some anticipated improvement.

The actuarial assumptions used in the June 30, 2018 actuarial valuation were based on the results of an actuarial experience study performed for the period July 1, 2012 through June 30, 2016. The demographic assumptions were adjusted to more closely reflect actual and expected future experience.

Employees Covered by Benefit Terms at June 30, 2018

Inactive employees or beneficiaries currently receiving benefits	2,507
Inactive employees entitled to but not yet receiving benefits	2,493
Active employees	<u>2,177</u>
Total	<u>7,177</u>

Note: The plan is closed to new entrants.

Discount rate. The discount rate used to measure the total pension liability was 7.25 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current rate and that contributions from the County will be made at the actuarially determined contribution rate pursuant to an actuarial valuation in accordance with the funding policy of the TCRS Board of Trustees and as required to be paid by state statute. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make projected future benefit payments of current active and inactive members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Schedule of Changes in Net Pension Liability (Asset)

	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (asset) (a) - (b)
Balance at June 30, 2017	\$ 510,769,021	\$ 488,420,393	\$ 22,348,628
Service Cost	8,172,477	-	8,172,477
Interest	36,779,742	-	36,779,742
Change between expected and actual experience	(4,072,716)	-	(4,072,716)
Contributions - employer	-	14,512,520	(14,512,520)
Contributions - employee	-	796	(796)
Net investment income	-	40,169,578	(40,169,578)
Benefit payments, including refunds of employee contributions	(23,269,432)	(23,269,432)	-
Administrative expense	-	(211,661)	211,661
Net changes	<u>17,610,071</u>	<u>31,201,801</u>	<u>(13,591,730)</u>
Balance at June 30, 2018	<u>\$ 528,379,092</u>	<u>\$ 519,622,194</u>	<u>\$ 8,756,898</u>

Changes of benefit terms. In the June 30, 2017 actuarial valuation, benefit terms were changed to authorize the establishment of a mandatory retirement at age 60 for all public safety officers. This benefit option allows unreduced retirement benefits (service retirement) upon attainment of age 55 with 25 years of public safety officer service. It allows a supplemental bridge benefit that will begin at age 55 and continue through age 62.

The required schedule of changes in the County’s net pension liability and related ratios immediately following the notes to the financial statements presents multiyear trend information about whether the value of the Plan assets is increasing or decreasing over time relative to the total pension liability.

Sensitivity of Net Pension Liability (Asset) to Changes in the Discount Rate

The following represents the net pension liability (asset) calculated using the stated discount rate, as well as what the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	1% Decrease <u>(6.25%)</u>	Current Rate <u>(7.25%)</u>	1% Increase <u>(8.25%)</u>
Net Pension Liability (Asset)	\$ 73,821,617	\$ 8,756,898	\$(45,756,296)

Pension Expense (Income) and Deferred Outflows/Inflows of Resources

For the year ended June 30, 2019, the County recognized pension expense is \$7,391,585. At June 30, 2019, deferred outflows of resources and deferred inflows of resources related to pensions are from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 404,045	\$ (4,640,719)
Net difference between projected and actual earnings of pension plan investments	-	(1,971,053)
Changes in assumptions	5,839,262	-
LEA's contributions subsequent to the measurement date of June 30, 2108	14,412,744	-
Total	<u>\$ 20,656,051</u>	<u>\$ (6,611,772)</u>

The amount shown above for “Contributions subsequent to the measurement date of June 30, 2018,” will be recognized as a reduction (increase) to net pension liability (asset) in the following measurement period.

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ending June 30,	
2020	\$ 4,345,851
2021	1,723,895
2022	(5,421,370)
2023	(1,016,841)
2024	-
Thereafter	-
Total	<u>\$ (368,465)</u>

In the table shown above, positive amounts will increase pension expense while negative amounts will decrease pension expense.

Payable to the Pension Plan

At June 30, 2019, the County reported a payable of \$1,054,333 for the outstanding amount of contributions to the pension plan required at the year ended June 30, 2019.

(2) HAMILTON COUNTY HYBRID PLAN

Summary of Significant Accounting Policies

Pensions. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Hamilton County Hybrid Plan’s participation in the Public Employee Retirement Plan of the Tennessee Consolidated Retirement System (TCRS), and additions to/deductions from the plan’s fiduciary net position

have been determined on the same basis as they are reported by the TCRS for the Public Employee Retirement Plan. For this purpose, benefits (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms of the Public Employee Retirement Plan of TCRS. Investments are reported at fair value.

General Information About the Pension Plan

Plan description. Employees with membership in the Tennessee Consolidated Retirement System (TCRS) before September 30, 2015, of Hamilton County are provided with pensions through the Hamilton County Legacy Pension Plan administered by the TCRS. The Hamilton County Legacy Pension Plan is closed to new membership. Employees with membership in the TCRS after October 1, 2015 are provided a defined benefit pension plan through the Public Employee Retirement Plan, an agent, multiple-employer pension plan administered by the TCRS. The TCRS was created by state statute under Tennessee Code Annotated Title 8, Chapters 34-37. The TCRS Board of Trustees is responsible for the proper operation and administration of the TCRS. The Tennessee Treasury Department, an agency in the legislative branch of state government, administers the plans of the TCRS. The TCRS issues a publically available financial report that can be obtained at <https://treasury.tn.gov/Retirement/Boards-and-Governance/Reporting-and-Investment-Policies>.

Benefits provided. Tennessee Code Annotated Title 8, Chapters 34-37 establishes the benefit terms and can be amended only by the Tennessee General Assembly. The chief legislative body may adopt the benefit terms permitted by statute. Members of the Hamilton County Hybrid Plan are eligible to retire with an unreduced benefit at age 65 with 5 years of service credit or pursuant to the rule of 90 in which the member’s age and service credit total 90. Benefits are determined by a formula using the member’s highest five consecutive year average compensation and the member’s years of service credit. Reduced benefits for early retirement are available at age 60 and vested or pursuant to the rule of 80 in which the member’s age and service credit total 80. Members vest with five years of service credit. Service related disability benefits are provided regardless of length of service. Five years of service is required for non-service related disability eligibility. The service related and non-service related disability benefits are determined in the same manner as a service retirement benefit but are reduced 10 percent and include projected service credits. A variety of death benefits are available under various eligibility criteria. Member and beneficiary annuitants are entitled to automatic cost of living adjustments (COLAs) after retirement. A COLA is granted each July for annuitants retired prior to the 2nd of July of the previous year. The COLA is based on the change in the consumer price index (CPI) during the prior calendar year, capped at 3 percent, and applied to the current benefit. No COLA is granted if the change in the CPI is less than one-half percent. A one percent COLA is granted if the CPI change is between one-half percent and one percent. A member who leaves employment may withdraw their employee contributions, plus any accumulated interest. Under the Hamilton County Hybrid Plan, benefit terms and conditions, including COLA, can be adjusted on a prospective basis. Moreover, there are defined cost controls and unfunded liability controls that provide for the adjustment of benefit terms and conditions on an automatic basis.

Employees covered by benefit terms. At the measurement date of June 30, 2018, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	-
Inactive employees entitled to but not yet receiving benefits	201
Active employees	<u>658</u>
Total	<u>859</u>

Contributions. Contributions for employees are established in the statutes governing the TCRS and may only be changed by the Tennessee General Assembly or by automatic costs controls set out in law. Employees contribute 5 percent of salary. The County makes employer contributions at the rate set by the Board of Trustees as determined by an actuarial valuation. Per the statutory provisions governing the TCRS, the employer contribution rate cannot be less than 4 percent, except for in years when the maximum funded level, as established by the TCRS Board of Trustees, is reached. By law, employer contributions for the Hamilton County Hybrid Plan are required to be paid. The TCRS may intercept the state shared taxes of the sponsoring governmental entity of the County if the required employer contributions are not remitted. Employer contributions for the year ended June 30, 2019 to the Public Employee Retirement Plan were \$997,341, which is 4.00 percent of covered payroll. The employer rate, when combined with member

contributions, is expected to finance the costs of benefits earned by members during the year, the cost of administration, as well as an amortized portion of any unfunded liability.

Pension Liabilities (Assets), Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

Pension liabilities (assets). Hamilton County Hybrid Plan’s net pension liability (asset) was measured as of June 30, 2018, and the total pension liability used to calculate net pension liability (asset) was determined by an actuarial valuation as of that date.

Actuarial assumptions. The total pension liability as of the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.5 percent
Salary increases	Graded salary ranges from 8.72 to 3.44 percent based on age, including inflation, averaging 4.00 percent
Investment rate of return	7.25 percent, net of pension plan investment expenses, including inflation
Cost of living adjustments	2.25 percent, if provided

Mortality rates were based on actual experience including an adjustment for some anticipated improvement.

The actuarial assumptions used in the June 30, 2018, actuarial valuation were based on the results of an actuarial experience study performed for the period July 1, 2012 through June 30, 2016. The demographic assumptions were adjusted to more closely reflect actual and expected future experience.

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees in conjunction with the June 30, 2016 actuarial experience study. A blend of future capital market projections and historical market returns was used in a building-block method in which a best-estimate of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) is developed for each major asset class. These best-estimates are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation of 2.5 percent. The best-estimates of geometric real rates of return and the TCRS investment policy target asset allocation for each major asset class are summarized in the following table:

<u>Asset Class</u>	Long-Term Expected Real Rate of <u>Return</u>	Target <u>Allocations</u>
U.S. equity	5.69%	31%
Developed market international equity	5.29%	14%
Emerging market international equity	6.36%	4%
Private equity and strategic lending	5.79%	20%
U.S. fixed income	2.01%	20%
Real estate	4.32%	10%
Short-term securities	0.00%	<u>1%</u>
		<u>100%</u>

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees as 7.25 percent based on a blending of the factors described above.

Discount rate. The discount rate used to measure the total pension liability was 7.25 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current rate and that contributions from Hamilton County Hybrid Plan will be made at the actuarially determined contribution rate pursuant to an actuarial valuation in accordance with the funding policy of the TCRS Board of Trustees and as required to be paid by state statute. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make projected future benefit payments of current active and inactive members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Schedule of Changes in Net Pension Liability (Asset)

	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (asset) (a) - (b)
Balance at June 30, 2017	\$ 712,920	\$ 1,021,048	\$ (308,128)
Service Cost	733,149	-	733,149
Interest	104,085	-	104,085
Change between expected and actual experience	471,763	-	471,763
Contributions - employer	-	733,975	(733,975)
Contributions - employee	-	911,918	(911,918)
Net investment income	-	149,792	(149,792)
Benefit payments, including refunds of employee contributions	(20,832)	(20,832)	-
Administrative expense	-	(57,949)	57,949
Net changes	<u>1,288,165</u>	<u>1,716,904</u>	<u>(428,739)</u>
Balance at June 30, 2018	<u>\$ 2,001,085</u>	<u>\$ 2,737,952</u>	<u>\$ (736,867)</u>

Changes of benefit terms. In the June 30, 2017 actuarial valuation, benefit terms were changed to authorize the establishment of a mandatory retirement at age 60 for all public safety officers. This benefit option allows unreduced retirement benefits (service retirement) upon attainment of age 55 with 25 years of public safety officer service. It allows a supplemental bridge benefit that will begin at age 55 and continue through age 62.

The required schedule of changes in the County's net pension liability and related ratios immediately following the notes to the financial statements presents multiyear trend information about whether the value of the Plan assets is increasing or decreasing over time relative to the total pension liability.

Sensitivity of Net Pension Liability (Asset) to Changes in the Discount Rate

The following represents the net pension liability (asset) calculated using the stated discount rate of 7.25 percent, as well as what the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

	1% Decrease (6.25%)	Current Rate (7.25%)	1% Increase (8.25%)
Net Pension Liability (Asset)	\$ (219,343)	\$ (736,867)	\$ (1,125,392)

Pension Expense (Negative Pension Expense) and Deferred Outflows/Inflows of Resources

Pension expense. For the year ended June 30, 2019, Hamilton County Hybrid Plan recognized pension expense (negative pension expense) of (\$92,589).

Deferred outflows of resources and deferred inflows of resources. For the year ended June 30, 2019, Hamilton County Hybrid Plan reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 752,923	\$ (27,407)
Net difference between projected and actual earnings of pension plan investments	-	(26,589)
Changes in assumptions	18,127	-
Contributions subsequent to the measurement date of June 30, 2108	997,341	-
Total	<u>\$ 1,768,391</u>	<u>\$ (53,996)</u>

The amount shown above for “Contributions subsequent to the measurement date of June 30, 2018,” will be recognized as a reduction (increase) to net pension liability (asset) in the following measurement period.

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ending June 30,

2020	\$ 73,701
2021	73,701
2022	73,112
2023	77,312
2024	81,104
Thereafter	338,124
Total	<u>\$ 717,054</u>

In the table shown above, positive amounts will increase pension expense while negative amounts will decrease pension expense.

Payable to the Pension Plan

At June 30, 2019, Hamilton County Hybrid Plan reported a payable of \$83,396 for the outstanding amount of contributions to the pension plan required at the year ended June 30, 2019.

(3) TEACHER LEGACY PENSION PLAN

Summary of Significant Accounting Policies

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teacher Legacy Pension Plan in the Tennessee Consolidated Retirement System (TCRS) and additions to/deductions from the plan’s fiduciary net position have been determined on the same basis as they are reported by the TCRS. For this purpose, benefits (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms of the Teacher Legacy Pension Plan. Investments are reported at fair value.

General Information about the Pension Plan

Plan description. Teachers with membership in the Tennessee Consolidated Retirement System (TCRS) before July 1, 2014 of Hamilton County Schools are provided with pensions through the Teacher Legacy Pension Plan, a cost-sharing, multiple-employer pension plan administered by the TCRS. The Teacher Legacy Pension Plan closed to new membership on June 30, 2014, but will continue providing benefits to existing members and retirees. Beginning July 1, 2014, the Teacher Retirement Plan became effective for teachers employed by Local Education Agencies (LEAs) after June 30, 2014. The Teacher Retirement Plan is a separate cost-sharing, multiple-employer defined benefit plan. The TCRS was created by state statute under Tennessee Code Annotated Title 8, Chapters 34-37. The TCRS Board of Trustees is responsible for the proper operation and administration of all employer pension plans in the TCRS. The Tennessee Treasury Department, an agency in the legislative branch of state government, administers the plans of the TCRS. The TCRS issues a publically available financial report that can be obtained at <https://treasury.tn.gov/Retirement/Boards-and-Governance/Reporting-and-Investment-Policies>.

Benefits provided. Tennessee Code Annotated Title 8, Chapters 34-37, establishes the benefit terms and can be amended only by the Tennessee General Assembly. Members of the Teacher Legacy Pension Plan are eligible to retire with an unreduced benefit at age 60 with 5 years of service credit or after 30 years of service credit regardless of age. Benefits are determined by a formula using the member's highest five consecutive year average compensation and the member's years of service credit. A reduced early retirement benefit is available at age 55 and vested. Members are vested with five years of service credit. Service related disability benefits are provided regardless of length of service. Five years of service is required for non-service related disability eligibility. The service related and non-service related disability benefits are determined in the same manner as a service retirement benefit but are reduced 10 percent and include projected service credits. A variety of death benefits are available under various eligibility criteria. Member and beneficiary annuitants are entitled to automatic cost of living adjustments (COLAs) after retirement. A COLA is granted each July for annuitants retired prior to the 2nd of July of the previous year. The COLA is based on the change in the consumer price index (CPI) during the prior calendar year, capped at 3 percent, and applied to the current benefit. No COLA is granted if the change in the CPI is less than one-half percent. A one percent COLA is granted if the CPI change is between one-half percent and one percent. A member who leaves employment may withdraw their employee contributions, plus any accumulated interest. Under the Teacher Legacy Pension Plan, benefit terms and conditions, including COLAs, can be adjusted on a prospective basis. Moreover, there are defined cost controls and unfunded liability controls that provide for the adjustment of benefit terms and conditions on an automatic basis.

Contributions. Contributions for teachers are established in the statutes governing the TCRS and may only be changed by the Tennessee General Assembly. Teachers contribute 5 percent of salary. The Local Education Agencies (LEAs) make employer contributions at the rate set by the Board of Trustees as determined by an actuarial valuation. By law, employer contributions for the Teacher Legacy Pension Plan are required to be paid. The TCRS may intercept the state shared taxes of the sponsoring governmental entity of the LEA if the required employer contributions are not remitted. Employer contributions by Hamilton County Schools for the year ended June 30, 2019, to the Teacher Legacy Pension Plan were \$14,866,938, which is 10.46 percent of covered payroll. The employer rate, when combined with member contributions, is expected to finance the costs of benefits earned by members during the year, the cost of administration, as well as an amortized portion of any unfunded liability.

Pension Liabilities (Assets), Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

Pension liabilities (assets). At June 30, 2019, the Hamilton County Schools reported an asset of \$14,953,429 for its proportionate share of net pension asset. The net pension asset was measured as of June 30, 2018, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of that date. Hamilton County Schools' proportion of the net pension asset was based on Hamilton County Schools' share of contributions to the pension plan relative to the contributions of all participating LEAs. At the measurement date of June 30, 2018, Hamilton County Schools' proportion was 4.249443 percent. The proportion measured as of June 30, 2017, was 4.311500 percent.

Pension expense. For the year ended June 30, 2019, Hamilton County Schools recognized a negative pension expense of (\$4,137,774).

Deferred outflows of resources and deferred inflows of resources. For the year ended June 30, 2019, Hamilton County Schools reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 3,022,598	\$ (20,173,359)
Net difference between projected and actual earnings of pension plan investments	-	(3,254,490)
Changes in proportion of Net Pension Liability (Asset)	1,993,793	(1,431,647)
Changes in assumptions	8,831,567	-
LEA's contributions subsequent to the measurement date of June 30, 2108	14,866,938	-
Total	<u>\$ 28,714,896</u>	<u>\$ (24,859,496)</u>

Hamilton County Schools employer contributions of \$14,866,938, reported as pension related deferred outflows of resources, subsequent to the measurement date, will be recognized as an increase in net pension liability (asset) in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ending June 30,

2020	\$ 3,225,282
2021	(4,632,692)
2022	(8,179,341)
2023	(1,424,787)
2024	-
Thereafter	-
Total	<u>\$ (11,011,538)</u>

In the table above, positive amounts will increase pension expense, while negative amounts will decrease pension expense.

Actuarial assumptions. The total pension liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.5 percent
Salary Increases	Graded salary ranges from 8.72 to 3.44 percent based on age, including inflation, averaging 4.00 percent
Investment Rate of Return	7.25 percent, net of pension plan investment expenses, including inflation
Cost of Living Adjustment	2.25 percent

Mortality rates were based on actual experience including an adjustment for some anticipated improvement.

The actuarial assumptions used in the June 30, 2018 actuarial valuation were based on the results of an actuarial experience study performed for the period July 1, 2012 through June 30, 2016. The demographic assumptions were adjusted to more closely reflect actual and expected future experience.

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees in conjunction with the June 30, 2016, actuarial experience study. A blend of future capital market projections and historical market returns was used in a building-block method in which a best-estimate of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) is developed for each major asset class. These best-estimates are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage

and by adding expected inflation of 2.5 percent. The best-estimates of geometric real rates of return and the TCRS investment policy target asset allocation for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Long-Term Expected Real Rate of Return</u>	<u>Target Allocation</u>
U.S. equity	5.69%	31%
Developed market international equity	5.29%	14%
Emerging market international equity	6.36%	4%
Private equity and strategic lending	5.79%	20%
U.S. fixed income	2.01%	20%
Real estate	4.32%	10%
Short-term securities	0.00%	<u>1%</u>
		<u>100%</u>

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees as 7.25 percent based on a blending of the factors described above.

Discount rate. The discount rate used to measure the total pension liability was 7.25 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current rate and that contributions from the all LEAs will be made at the actuarially determined contribution rate pursuant to an actuarial valuation in accordance with the funding policy of the TCRS Board of Trustees and as required to be paid by state statute. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make projected future benefit payments of current active and inactive members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the proportionate share of net pension liability (asset) to changes in the discount rate. The following presents Hamilton County Schools' proportionate share of the net pension liability (asset) calculated using the discount rate of 7.25 percent, as well as what Hamilton County Schools' proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

	<u>1% Decrease (6.25%)</u>	<u>Current Discount Rate (7.25%)</u>	<u>1% Increase (8.25%)</u>
Hamilton County Schools' proportionate share of the net pension liability (asset)	\$ 115,270,449	\$ (14,953,429)	\$ (122,695,546)

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in a separately issued TCRS financial report.

Payable to the Pension Plan

At June 30, 2019, Hamilton County Schools reported a payable of \$1,196,337 for the outstanding amount of contributions to the pension plan required at the year ended June 30, 2019.

(4) TEACHER RETIREMENT PLAN

Summary of Significant Accounting Policies

Pensions. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teacher Retirement Plan in the Tennessee Consolidated Retirement System (TCRS) and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the TCRS. For this purpose, benefits (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms of the Teacher Retirement Plan. Investments are reported at fair value.

General Information About the Pension Plan

Plan description. Teachers with membership in the Tennessee Consolidated Retirement System (TCRS) before July 1, 2014 of Hamilton County Schools are provided with pensions through the Teacher Legacy Pension Plan, a cost sharing, multiple-employer pension plan administered by the TCRS. The Teacher Legacy Pension Plan closed to new membership on June 30, 2014 but will continue providing benefits to existing members and retirees. Beginning July 1, 2014, the Teacher Retirement Plan became effective for teachers employed by LEAs after June 30, 2014. The Teacher Retirement Plan is a separate cost-sharing, multiple-employer defined benefit plan. The TCRS was created by state statute under Tennessee Code Annotated Title 8, Chapters 34-37. The TCRS Board of Trustees is responsible for the proper operation and administration of all employer pension plans in the TCRS. The Tennessee Treasury Department, an agency in the legislative branch of state government, administers the plans of the TCRS. The TCRS issues a publically available financial report that can be obtained at <https://treasury.tn.gov/Retirement/Boards-and-Governance/Reporting-and-Investment-Policies>.

Benefits provided. Tennessee Code Annotated Title 8, Chapters 34-37 establishes the benefit terms and can be amended only by the Tennessee General Assembly. Members of the Teacher Retirement Plan are eligible to retire with an unreduced benefit at age 65 with 5 years of service credit or pursuant to the rule of 90 in which the member's age and service credit total 90. Benefits are determined by a formula using the member's highest five consecutive year average compensation and the member's years of service credit. A reduced early retirement benefit is available at age 60 and vested or pursuant to the rule of 80. Members are vested with five years of service credit. Service related disability benefits are provided regardless of length of service. Five years of service is required for non-service related disability eligibility. The service related and non-service related disability benefits are determined in the same manner as a service retirement benefit but are reduced 10 percent and include projected service credits. A variety of death benefits are available under various eligibility criteria. Member and beneficiary annuitants are entitled to automatic cost of living adjustments (COLAs) after retirement. A COLA is granted each July for annuitants retired prior to the 2nd of July of the previous year. The COLA is based on the change in the consumer price index (CPI) during the prior calendar year, capped at 3 percent, and applied to the current benefit. No COLA is granted if the change in the CPI is less than one-half percent. A one percent COLA is granted if the CPI change is between one-half percent and one percent. A member who leaves employment may withdraw their employee contributions, plus any accumulated interest. Under the Teacher Retirement Plan, benefit terms and conditions, including COLAs, can be adjusted on a prospective basis. Moreover, there are defined cost controls and unfunded liability controls that provide for the adjustment of benefit terms and conditions on an automatic basis.

Contributions. Contributions for teachers are established in the statutes governing the TCRS and may only be changed by the Tennessee General Assembly or by automatic cost controls set out in law. Teachers contribute 5 percent of salary. The Local Education Agencies (LEAs) make employer contributions at the rate set by the Board of Trustees as determined by an actuarial valuation. Per the statutory provisions governing the TCRS, the employer contribution rate cannot be less than 4 percent, except years when the maximum funded level, as established by the TCRS Board of Trustees, is reached. By law, employer contributions for the Teacher Retirement Plan are required to be paid. TCRS may intercept the state shared taxes of the sponsoring governmental entity of the LEA if the required employer contributions are not remitted. Employer contributions by Hamilton County Schools for the year ended June 30, 2019 to the Teacher Retirement Plan were \$2,308,375, which is 4.00 percent of covered payroll. The employer rate, when combined with member contributions, is expected to finance the costs of benefits earned by members during the year, the cost of administration, as well as an amortized portion of any unfunded liability.

Pension Liabilities (Assets), Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

Pension liabilities (assets). At June 30, 2019, Hamilton County Schools reported an asset of \$2,322,930 for its proportionate share of the net pension asset. The net pension asset was measured as of June 30, 2018, and the total pension asset used to calculate the net pension asset was determined by an actuarial value as of that date. Hamilton County Schools' proportion of the net pension asset was based on Hamilton County Schools' share of contributions to the pension plan relative to the contributions of all participating LEAs. At the measurement date of June 30, 2018, Hamilton County Schools' proportion was 5.121912 percent. At the measurement date of June 30, 2017, Hamilton County Schools' proportion was 5.230015 percent.

Pension Expense. For the year ended June 30, 2019, Hamilton County Schools recognized pension expense of \$832,740.

Deferred outflows of resources and deferred inflows of resources. For the year ended June 30, 2019, Hamilton County Schools reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 131,564	\$ (92,523)
Net difference between projected and actual earnings of pension plan investments	-	(131,216)
Changes in proportion of Net Pension Liability (Asset)	109,917	(27,627)
Changes in assumptions	109,589	-
LEA's contributions subsequent to the measurement date of June 30, 2108	2,308,375	-
Total	<u>\$ 2,659,445</u>	<u>\$ (251,366)</u>

Hamilton County Schools' employer contributions of \$2,308,375, reported as pension related deferred outflows of resources subsequent to the measurement date, will be recognized as an increase of net pension liability (asset) in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ending June 30,

2020	\$ (10,798)
2021	(14,962)
2022	(33,665)
2023	622
2024	18,103
Thereafter	140,404
Total	<u>\$ 99,704</u>

In the table above, positive amounts will increase pension expense, while negative amounts will decrease pension expense.

Actuarial assumptions. The total pension liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.5 percent
Salary Increases	Graded salary ranges from 8.72 to 3.44 percent based on age, including inflation, averaging 4.00 percent
Investment Rate of Return	7.25 percent, net of pension plan investment expenses, including inflation
Cost of Living Adjustment	2.25 percent

Mortality rates were based on actual experience including an adjustment for some anticipated improvement.

The actuarial assumptions used in the June 30, 2018 actuarial valuation were based on the results of an actuarial experience study performed for the period July 1, 2012 through June 30, 2016. The demographic assumptions were adjusted to more closely reflect actual and expected future experience.

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees in conjunction with the June 30, 2016 actuarial experience study. A blend of future capital market projections and historical market returns was used in a building-block method in which a best-estimate of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) is developed for each major asset class. These best-estimates are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation of 2.5 percent. The best-estimates of geometric real rates of return and the TCRS investment policy target asset allocation for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Long-Term Expected Real Rate of Return</u>	<u>Target Allocation</u>
U.S. equity	5.69%	31%
Developed market international equity	5.29%	14%
Emerging market international equity	6.36%	4%
Private equity and strategic lending	5.79%	20%
U.S. fixed income	2.01%	20%
Real estate	4.32%	10%
Short-term securities	0.00%	1%
		<u>100%</u>

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees as 7.25 percent based on a blending of the factors described above.

Discount rate. The discount rate used to measure the total pension liability was 7.25 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current rate and that contributions from the all LEAs will be made at the actuarially determined contribution rate pursuant to an actuarial valuation in accordance with the funding policy of the TCRS Board of Trustees and as required to be paid by state statute. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make projected future benefit payments of current active and inactive members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the proportionate share of net pension liability (asset) to changes in the discount rate. The following presents Hamilton County Schools' proportionate share of the net pension liability (asset) calculated using the discount rate of 7.25 percent, as well as what Hamilton County Schools' proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

	1% Decrease (<u>6.25%</u>)	Current Discount Rate (<u>7.25%</u>)	1% Increase (<u>8.25%</u>)
Hamilton County Schools' proportionate share of the net pension liability (asset)	\$ 359,127	\$ (2,322,930)	\$ (4,298,973)

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in a separately issued TCRS financial report.

Payable to the Pension Plan

At June 30, 2019, Hamilton County Schools reported a payable of \$191,241 for the outstanding amount of contributions to the pension plan required at the year ended June 30, 2019.

Hamilton County Administered Plans

Significant Accounting Policies

Basis of Accounting

The financial statements of the Employees', Commissioners', and Teachers' Retirement Funds are prepared using the accrual basis of accounting. Plan member and employer contributions are recognized when due, and the County has made a formal commitment to provide the contribution. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan.

Method Used to Value Investments

Investments are reported at fair value. Securities traded on a national exchange are valued at the last reported sales price. Investments that do not have an established market are reported at estimated fair value. There are no investments in any one organization that represent 5 percent or more of plan net position.

Actuarial Assumptions and Estimates

The actuarial calculations are based on the benefits provided under the terms of the plans in effect at the time of each valuation and on the pattern of sharing of costs between the employer and plan members to that point.

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are always subject to continual revisions as results are compared to past expectations and new estimates are made about the future. The actuarial methods used and calculations determined reflect a long term perspective as the techniques used are designed to reduce short term volatility in actuarial accrued liabilities and the actuarial value of the related assets.

Plan Description and Provisions

(1) EMPLOYEES' PENSION PLAN

The County maintains a closed, single-employer defined benefit pension plan for employees who elected to continue in this plan when it closed to new enrollment in 1977.

The plan is designed for either the County or each participant to contribute 6.4 percent of the first \$800 of monthly salary toward the cost of the plan. A participant whose service terminates prior to eligibility for normal retirement (and who is not disabled) is entitled only to a return of the employee contribution made by him or on his behalf.

The normal retirement benefit is 50 percent of the employee's final average earnings, where final average earnings are based on the four-year period of service, which yields the highest arithmetic average of basic salary not in excess of \$800 per month. For employees hired prior to April 15, 1969, normal retirement date is the earlier of (1) completion of twenty-four years of credited service or (2) completion of twenty years of credited service and attainment of age 55. For employees hired thereafter, normal retirement date is the attainment of age 65 and completion of twenty-four years of credited service. In the event of total and permanent disability, participants who are not yet eligible for normal retirement benefits can receive a percentage of their final average earnings, based on their years of credited service at the time of disability. Benefit provisions are established and amended by the Private Acts of Tennessee.

(2) COMMISSIONERS' PENSION PLAN

The County maintains a single-employer defined benefit plan for County Commissioners in which each Commissioner can elect to participate. Those who elect to participate are not required to contribute to the plan. All service as a County Commissioner is credited for benefit purposes. In addition, credit may be granted for military service during a period of armed conflict, as determined by the pension commission. Credit for prior service can be purchased. There are no limits on the time at which a Commissioner (or former Commissioner with at least five years of service) can elect to purchase such credit.

A participant's earnings shall mean their compensation earned as a County Commissioner, but excluding additional pay, if any, earned as chairman or chairman pro tempore. Average earnings are the average of a participant's compensation for the five years which produce the highest average. The normal retirement date of a participant is the first day of the month following the later of the participant's 55th birthday or the fifth anniversary of the date the participant began to serve as a County Commissioner. The normal retirement benefit, which is payable monthly for life, is equal to the product of (a) 2.50% of the participant's average earnings, and (b) the participant's years of credited service. Accrued benefits are vested after five years of service. If a participant postpones their retirement beyond their normal retirement date, they will be entitled to a monthly benefit commencing on the first day of any month following their actual retirement. The deferred retirement benefit is calculated in the same way as the normal retirement benefit, based on the participant's credited service and average earnings as of their date of retirement. If a participant ceases to be a County Commissioner after they have completed five or more years of service, but prior to their normal retirement date, they are entitled to a deferred vested benefit. The deferred benefit, to commence at their normal retirement date, is computed in the same manner as above for normal retirement, based on the participant's credited service and average earnings at their date of termination. If employment is otherwise terminated before retirement, no benefits are provided under the plan. Subject to the applicable plan provisions, a participant may select an optional method of benefit payment, in lieu of the prescribed life income, which is actuarially equivalent thereto. The purpose of the optional method is to provide a continued life income to a surviving spouse after the death of a participant. Benefit provisions are established and amended by the Private Acts of Tennessee.

(3) TEACHERS' PENSION PLAN

The County maintains a closed, single-employer defined benefit plan for a group of teachers who are receiving as annuities amounts arising from the refund of their contributions to an earlier plan. Although these annuity payments could be discontinued at any time, they have been extended throughout the lifetime of the remaining plan participants. The amount of the monthly pension benefit received by each participant has been previously determined.

Employees Covered by Benefit Terms

	<u>Employees' Pension Plan</u>	<u>Commissioners' Pension Plan</u>	<u>Teachers' Pension Plan</u>
Retirees and beneficiaries receiving benefits	11	11	2
Vested terminated employees	-	3	-
Active employees:			
Fully vested	-	6	-
Non-vested	-	4	-
Actuarial valuation date	June 30, 2019	June 30, 2019	June 30, 2019
Measurement date	June 30, 2018	June 30, 2018	June 30, 2018

Investment Policy

The Pension Board (the "Board") establishes (and may amend) the pension plan's policy regarding asset allocation. Plan assets are managed with a long-term objective of achieving a fully funded status for the benefit provided through the plan. The Board's asset allocation policy as of June 30, 2019, is shown below:

<u>Asset Class</u>	<u>Employees' Plan Target Allocation</u>	<u>Commissioners' Plan Target Allocation</u>
Equity	-	40.00%
Domestic Equity	31.00%	-
International Equity	9.00%	-
Fixed Income	50.00%	50.00%
Real Estate (REITs)	2.50%	-
Commodities	2.50%	-
Other	5.00%	10.00%
	<u>100.00%</u>	<u>100.00%</u>

Investment Rate of Return

The long-term expected rate of return on pension plan investments was determined using the Black-Litterman Methodology. The Black-Litterman uses market implied (CAPM) returns as neutral starting points for estimating the set of expected returns, and then allows the practitioner to tilt the portfolio in the direction of his or her views. The practitioner can control how strongly a particular view influences portfolio weights, in accordance with the degree of confidence with which he or she holds the view. The Black-Litterman Model largely mitigates the problems of input-sensitivity and estimation error maximization that result in unintuitive, highly concentrated portfolios. Best estimates of forward-looking rates of return for each major asset class included in the pension plan's target asset allocation are summarized in the following table:

<u>Asset Class</u>	<u>Long-term Expected Real Rate of Return</u>	<u>Asset Class</u>	<u>Long-term Expected Real Rate of Return</u>
Cash Equivalents	1.75%	Non U.S. Bond	1.35%
U.S. Stock	7.55%	U.S. Real Estate	6.75%
Developed Market Ex U.S.	7.70%	Global Real Estate	6.75%
Emerging Markets	9.20%	Commodities	4.75%
Global Stock	7.80%	Real Assets	6.95%
Core Bond	3.70%	Private Equity	12.10%
Long Term Bond	4.05%		
U.S. TIPS	3.10%		
High Yield	5.40%		

For the year ended June 30, 2019, no employer contributions were made for the Employees' Pension Plan, Commissioners' Pension Plan, or Teachers' Pension Plan. The annual money-weighted rate of return on investments, net of investment expense, for the Employees' and Commissioners' plans were 6.06 percent and 4.95 percent, respectively. The Teachers' Plan did not have an annual money-weighted rate of return on investments. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Funding Policy and Other Information

Hamilton County contributes to each plan at an actuarially determined rate. Administrative costs are financed through contributions and investment earnings. The annual required contributions, actual contributions, and other pertinent information for each plan for the year ending June 30, 2018, are shown in the following table:

	<u>County Administered Retirement Plans</u>

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the fiscal year ended June 30, 2019, the Teachers' Retirement recognized pension expense (income) will be \$405, the Commissioners' Retirement recognized pension expense will be \$49,379, and the Employees' Retirement recognized pension expense (income) will be \$(77,538). This determination is based on a measurement date of June 30, 2018.

As of June 30, 2019, the County reported deferred outflows of resources and deferred inflows of resources in relation to pensions from the following sources:

	<u>Employees' Retirement</u>		<u>Commissioners' Retirement</u>		<u>Teachers' Retirement</u>	
	Collective Deferred Outflows of Resources	Collective Deferred Inflows of Resources	Collective Deferred Outflows of Resources	Collective Deferred Inflows of Resources	Collective Deferred Outflows of Resources	Collective Deferred Inflows of Resources
Investment losses (gains) Post-measurement contributions	\$ 81,696	\$ -	\$ 10,090	\$ -	\$ 358	\$ -
	-	-	50,779	-	1,170	-
	<u>\$ 81,696</u>	<u>\$ -</u>	<u>\$ 60,869</u>	<u>\$ -</u>	<u>\$ 1,528</u>	<u>\$ -</u>

Amounts reported as deferred outflows (inflows) of resources related to pensions will be recognized in pension expense as follows:

	<u>Employees' Retirement</u>	<u>Commissioners' Retirement</u>	<u>Teachers' Retirement</u>
Years Ending June 30:			
2020	\$ 43,356	\$ 10,574	\$ 145
2021	25,550	3,749	120
2022	6,260	(3,714)	58
2023	6,530	(519)	35
2024	-	-	-
Thereafter	-	-	-
Total	<u>\$ 81,696</u>	<u>\$ 10,090</u>	<u>\$ 358</u>

The Hamilton County administered plans do not issue stand-alone financial reports and are not included in the report of a public employee retirement system or a report of another entity. The plans' financial statements are as follows:

	<u>Employees'</u> <u>Pension</u>	<u>Commissioners'</u> <u>Pension</u>	<u>Teachers'</u> <u>Pension</u>	<u>Total Pension</u> <u>Trust Funds</u>

NOTE J – OTHER POSTEMPLOYMENT BENEFITS (OPEB)

(1) PRIMARY GOVERNMENT

Plan Description

In addition to providing pension benefits, the County provides OPEB benefits (health care) for certain retired employees through a single-employer defined benefit healthcare plan. Employees who have retired under one of the County’s retirement plans and who are ineligible for Medicare can elect to continue their health care coverage under this plan until they become eligible for Medicare. Benefits are established and amended by the County Commission, which is elected by residents of the County. A stand-alone financial report is not issued.

Plan Membership

At June 30, 2019, the date of the latest actuarial valuation, membership consisted of the following:

Active members (with medical coverage)	1,742
Retirees and beneficiaries (with medical coverage)	<u>168</u>
Total	<u><u>1,910</u></u>

Funding Policy

In fiscal year 2011, the County established an Other Postemployment Benefits Trust (OPEB Trust) which is used to pre-fund benefits. The County’s General Fund contributes to the OPEB Trust to pre-fund benefits. The prefunded portion of the OPEB cost is included in the OPEB Trust. The pay-as-you-go component is funded and accounted for in the County’s Governmental Activities. Eligible retirees pay a premium using a formula based on date of retirement, years of service, and the County’s computed cost for active employees. Funding is established and amended by the County Commission, and no planned increases were approved for fiscal year 2019.

Contributions

The County’s annual OPEB cost (expense) is calculated based on the actuarially determined contribution of the employer (ADC), an amount actuarially determined in accordance with the parameters of GASB Statements 74 and 75. The ADC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 20 years.

Net OPEB Liability of Hamilton County

The County’s net OPEB liability was measured as of June 30, 2018, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2017, with the actuary using standard techniques to roll forward the liability to the measurement date. The components of the net OPEB liability at June 30, 2019, were as follows:

Total OPEB Liability	\$ 45,745,858
Plan Fiduciary Net Position	<u>(25,240,230)</u>
Net OPEB Liability	<u><u>\$ 20,505,628</u></u>

Plan Fiduciary Net Position as a Percentage of Total OPEB Liability 55.17%

Actuarial Assumptions. The total OPEB liability as of June 30, 2019, was determined by an actuarial valuation as of June 30, 2017, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Discount Rate	6.5 percent
Salary Increases	3.0 percent
Expected Long-Term Rate of Return on OPEB Investments	6.5 percent
Healthcare Cost Trend Rate	
Admin:	5.0 percent
Ultimate Medical Trend Rate:	7.5% graded uniformly to 6.75% over 3 years and following the Getzen model thereafter to an ultimate rate of 3.94% in 2075

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the major target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the target asset allocation as of June 30, are presented above.

Discount rate. The discount rate used to measure the total OPEB liability was 6.5 percent. The projection of cash flows used to determine the discount rate assumed that the County will contribute the actuarially determined contribution rate pursuant to an actuarial valuation in accordance with the funding policy of the County Commission. Based on those assumptions, the OPEB Trust Fund’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Investments

The following was the County Commission’s adopted asset allocation policy as of June 30, 2019:

<u>Asset Class</u>	<u>Long-Term Expected Real Rate of Return</u>	<u>Target Allocation</u>
U.S. equity	6.46%	33%
Developed market international equity	6.26%	17%
Emerging market international equity	6.40%	5%
Private equity and strategic lending	4.61%	8%
U.S. fixed income	0.98%	29%
Real estate	4.73%	7%
Short-term securities	0.00%	1%
		<u>100%</u>

Rate of Return. For the year ended June 30, 2019, the annual money-weighted rate of return on investments, net of investment expense, was 7.20% percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Schedule of Changes in Net OPEB Liability

	Total OPEB Liability (a)	Plan Fiduciary Net Position (b)	Net OPEB Liability (asset) (a) - (b)
Balance at June 30, 2018	\$ 43,601,918	\$ 21,833,032	\$ 21,768,886
Service Cost	1,900,008	-	1,900,008
Interest	2,792,000	-	2,792,000
Change between expected and actual experience	-	-	-
Change in assumptions	-	-	-
Contributions - employer	-	4,148,068	(4,148,068)
Contributions - employee	-	-	-
Net investment income	-	1,937,951	(1,937,951)
Benefit payments, including refunds of employee contributions	(2,548,068)	(2,548,068)	-
Administrative expense	-	(130,753)	130,753
Other changes	-	-	-
Net changes	<u>2,143,940</u>	<u>3,407,198</u>	<u>(1,263,258)</u>
Balance at June 30, 2019	<u>\$ 45,745,858</u>	<u>\$ 25,240,230</u>	<u>\$ 20,505,628</u>

The required schedule of changes in the County's net OPEB liability and related ratios immediately following the notes to the financial statements presents multiyear trend information about whether the value of the Plan assets are increasing or decreasing over time relative to the total OPEB liability.

Sensitivity of the net OPEB liability to changes in the discount rate. The following presents the net OPEB liability, as well as what the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.5 percent) or 1-percentage-point higher (7.5 percent) than the current discount rate:

	1% Decrease (5.50%)	Current Discount Rate (6.50%)	1% Increase (7.50%)
Net OPEB Liability	\$ 23,856,856	\$ 20,505,628	\$ 17,462,693

Sensitivity of the net OPEB liability to changes in the healthcare cost trend rate. The following presents the net OPEB liability, as well as what the net OPEB liability would be if it were calculated using healthcare cost trend rate that is 1-percentage-point lower (7.0 percent decreased to 4% over 10 years) or 1-percentage-point higher (9.0 percent decreasing to 6% over 10 years) than the current discount rate:

	1% Decrease (7.0% - 4.0%)	Current Discount Rate (8.0% - 5.0%)	1% Increase (9.0% - 6.0%)
Net OPEB Liability	\$ 16,143,898	\$ 20,505,628	\$ 25,601,195

Actuarial Assumptions and Estimates

The actuarial calculations are based on the benefits provided under the terms of the plans in effect at the time of each valuation and on the pattern of sharing of costs between the employer and plan members to that point.

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are always subject to continual revisions as results are compared to past expectations and new estimates are made about the future. The actuarial methods used and calculations determined reflect a long term perspective as the techniques used are

designed to reduce short term volatility in actuarial accrued liabilities and the actuarial value of the related assets.

OPEB Expense (Income) and Deferred Outflows/Inflows of Resources

	<u>OPEB Expense/(Income)</u>
Service Cost	\$ 1,900,008
Interest	2,792,000
Projected investment income	(1,467,290)
Recognition of investment (gain)/loss	(302,455)
Administrative expense	130,753
Other	<u>(272,856)</u>
OPEB Expense	<u>\$ 2,780,160</u>

For the year ended June 30, 2019, the recognized OPEB expense is \$2,780,160. At June 30, 2019, deferred outflows of resources and deferred inflows of resources related to pensions are from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Net difference between projected and actual earnings of OPEB plan investments	\$ -	\$ (1,001,499)
Contributions subsequent to the measurement date of June 30, 2108	4,946,473	-
Total	<u>\$ 4,946,473</u>	<u>\$ (1,001,499)</u>

The amount shown above for “Contributions subsequent to the measurement date of June 30, 2018,” will be recognized as a reduction to net OPEB liability in the following measurement period.

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ending June 30,	
2020	\$ (302,455)
2021	(302,455)
2022	(302,456)
2023	(94,133)
2024	-
Thereafter	-
Total	<u>\$ (1,001,499)</u>

In the table shown above, positive amounts will increase OPEB expense while negative amounts will decrease OPEB expense.

(2) DEPARTMENT OF EDUCATION (HCDE)

In addition to providing pension benefits, the Hamilton County Department of Education (HCDE), a discretely presented component unit, provides OPEB benefits (health care and dental) for certain retired employees through a single-employer defined benefit healthcare plan. Employees who have retired under one of the HCDE’s retirement plans and who are ineligible for Medicare can elect to continue their health care and dental coverage until they become eligible for Medicare. Benefits are established and amended by the Hamilton County School Board. A stand-alone financial report is not issued.

Plan Membership

At June 30, 2019, membership consisted of the following:

Active members (with medical coverage)	3,950
Retirees (with medical coverage)	421
Leave of absence (with medical coverage)	<u>42</u>
Total	<u>4,313</u>

Funding Policy

Eligible retirees pay a premium using a formula based on date of retirement, years of service, and the HCDE's computed cost for active employees. During fiscal year 2019, the HCDE contributed \$5,948,413 for these health care benefits for 558 retirees. The HCDE will make contributions in amounts sufficient to cover the pay-as-you-go component plus administrative costs. The HCDE has no plans at this time to fund the remaining portion of the annual required contributions. Funding is established and amended by the Hamilton County School Board, and no planned increases were approved for fiscal year 2019.

Total OPEB Liability of Department of Education

The Department of Education's total OPEB liability was measured as of June 30, 2019 and was determined by an actuarial valuation as of July 1, 2019.

Actuarial Assumptions. The total OPEB liability as of June 30, 2019, was determined by an actuarial valuation as of July 1, 2019, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Discount Rate	2.79 percent
Salary Increases	3.0 percent
Healthcare Cost Trend Rate	
Admin:	5.0 percent
Ultimate Medical Trend Rate:	7.5% graded uniformly to 6.75% over 3 years and following the Getzen model thereafter to an ultimate rate of 3.94% in 2075

Discount rate. The discount rate used to measure the total OPEB liability was 2.79 percent. This is a change from the prior year's discount rate which was 3.11 percent as of June 30, 2018. The projection of cash flows used to determine the discount rate assumed that the Department of Education will contribute the actuarially determined contribution rate pursuant to an actuarial valuation in accordance with the funding policy of the Department of Education. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Schedule of Changes in Total OPEB Liability

	<u>Total OPEB Liability</u>
Balance at June 30, 2018	\$ 121,273,631
Service Cost	6,782,460
Interest	3,406,804
Experience losses	15,991,840
Change in assumptions	(23,120,958)
Benefit payments, including refunds of employee contributions	<u>(5,948,413)</u>
Net changes	<u>(2,888,267)</u>
Balance at June 30, 2019	<u>\$ 118,385,364</u>

Sensitivity of the total OPEB liability to changes in the discount rate. The following presents the total OPEB liability, as well as what the total OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (1.79 percent) or 1-percentage-point higher (3.79 percent) than the current discount rate:

	1% Decrease (1.79%)	Current Discount Rate (2.79%)	1% Increase (3.79%)
Total OPEB Liability	\$128,360,161	\$118,385,364	\$109,193,973

Sensitivity of the total OPEB liability to changes in the healthcare cost trend rate. The following presents the total OPEB liability, as well as what the total OPEB liability would be if it were calculated using healthcare cost trend rate that is 1-percentage-point lower (6.5 percent decreased to 5.75% over 3 years) or 1-percentage-point higher (8.5 percent decreasing to 7.75% over 3 years) than the current discount rate:

	1% Decrease (6.5% - 5.75%)	Current Discount Rate (7.5% - 6.75%)	1% Increase (8.5% - 7.75%)
Total OPEB Liability	\$105,249,354	\$118,385,364	\$134,103,690

Actuarial Assumptions and Estimates

The actuarial calculations are based on the benefits provided under the terms of the plans in effect at the time of each valuation and on the pattern of sharing of costs between the employer and plan members to that point.

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are always subject to continual revisions as results are compared to past expectations and new estimates are made about the future. The actuarial methods used and calculations determined reflect a long term perspective as the techniques used are designed to reduce short term volatility in actuarial accrued liabilities and the actuarial value of the related assets.

OPEB Expense and Deferred Outflows/Inflows of Resources

	<u>OPEB Expense</u>
Service Cost	\$ 6,782,460
Interest	3,406,804
Experience losses	1,453,804
Change in assumptions	<u>(2,101,905)</u>
OPEB Expenses	<u><u>\$ 9,541,163</u></u>

For the year ended June 30, 2019, the recognized OPEB expense is \$9,541,163. At June 30, 2019, deferred outflows of resources and deferred inflows of resources related to OPEB are from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Experience losses	\$ 14,538,036	\$ -
Changes in assumptions	<u>-</u>	<u>21,019,053</u>
Total	<u><u>\$ 14,538,036</u></u>	<u><u>\$ 21,019,053</u></u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ending June 30,

2020	\$ (648,101)
2021	(648,101)
2022	(648,101)
2023	(648,101)
2024	(648,101)
Thereafter	<u>(3,240,512)</u>
Total	<u><u>\$ (6,481,017)</u></u>

NOTE K – LONG-TERM LIABILITIES

Long-term liabilities, which consist of serially maturing general obligation bonds, compensated absences, and certain notes to be repaid by the County, are summarized in the following sections:

General Obligation Bonds – Hamilton County periodically issues general obligation bonds for the acquisition and construction of major capital facilities. These bonds are direct obligations and are backed by the full faith and credit of the County. These bonds are generally issued as 15- to 30- year serial bonds with the 15-year term being prevalent for the last few years. Proceeds from the issuance of general obligation bonds are used to finance construction of new school facilities, major repair or replacement of school facilities, and certain public work projects and the incidental and necessary expenses related thereto. General obligation bonds are summarized by issue as follows:

Purpose	Interest Rates	Principal Amount	Amount Due Within One Year
General Improvement, Series 1998-B	5.10%	\$ 2,430,000	\$ 355,000
General Improvement, Series 2010-B	4.25%	1,610,000	1,610,000
General Improvement, Series 2010-C	4.15 - 5.00%	2,020,000	330,000
General Improvement, Series 2011-A	3.25 - 5.00%	3,980,518	843,143
School, Series 2011-A	3.25 - 5.00%	14,974,482	3,171,857
General Improvement, Series 2011-B	3.00 - 4.00%	5,665,000	410,000
General Improvement, Series 2013-A	2.00 - 4.00%	6,035,602	670,623
School, Series 2013-A	2.00 - 4.00%	30,324,398	3,369,377
General Improvement, Series 2013-B	3.00 - 4.00%	3,681,294	929,800
School, Series 2013-B	3.00 - 4.00%	21,083,706	5,325,200
General Improvement, Series 2015-A	5.00%	8,390,800	762,800
School, Series 2015-A	5.00%	35,609,200	3,237,200
General Improvement, Series 2015-B	4.00 - 5.00%	6,729,046	454,811
School, Series 2015-B	4.00 - 5.00%	21,455,954	1,450,189
General Improvement, Series 2018-A	5.00%	42,336,992	3,026,008
School, Series 2018-A	5.00%	113,803,008	8,133,992
General Improvement, Series 2018-B	2.00 - 5.00%	4,295,000	-
Total payable from the Debt Service Fund		<u>\$ 324,425,000</u>	<u>\$ 34,080,000</u>

Annual Debt Service Requirements to Maturity for General Obligation Bonds and Notes Payable and Other Debt are as follows:

Year	Principal	Interest
General Obligation Bonds:		
2020	\$ 34,080,000	\$ 14,558,892
2021	33,700,000	12,976,084
2022	33,790,000	11,434,172
2023	33,960,000	9,948,137
2024	28,085,000	8,532,052
2025 - 2029	111,300,000	26,147,312
2030 - 2033	49,510,000	5,820,438
	<u>\$ 324,425,000</u>	<u>\$ 89,417,087</u>

Changes in Long-term Liabilities – During the year ended June 30, 2019, the following changes occurred in long-term liabilities:

	Balance July 1	Additions	Reductions	Balance June 30	Due Within One Year
Primary Government:					
Governmental Activities:					
General Obligation Bonds	\$ 360,180,000	\$ -	\$ 35,755,000	\$ 324,425,000	\$ 34,080,000
Net Pension Liability	22,555,114	-	13,658,684	8,896,430	-
Net OPEB Liability	21,768,886	-	1,263,258	20,505,628	-
Landfill post closure costs	140,000	-	10,000	130,000	-
Compensated absences	15,297,397	4,821,868	4,817,564	15,301,701	4,887,152
	<u>419,941,397</u>	<u>4,821,868</u>	<u>55,504,506</u>	<u>369,258,759</u>	<u>\$ 38,967,152</u>
Net deferred premium	47,790,972	-	4,700,632	43,090,340	
	<u>\$ 467,732,369</u>	<u>\$ 4,821,868</u>	<u>\$ 60,205,138</u>	<u>\$ 412,349,099</u>	
Component Units:					
Notes payable and other debt	\$ 21,307,947	\$ 64,786,767	\$ 62,471,930	\$ 23,622,784	\$ 7,582,177
Net OPEB Liability	121,273,631	-	2,888,267	118,385,364	-
Compensated absences	10,196,337	2,612,769	1,797,560	11,011,546	2,660,549
	<u>\$ 152,777,915</u>	<u>\$ 67,399,536</u>	<u>\$ 67,157,757</u>	<u>\$ 153,019,694</u>	<u>\$ 10,242,726</u>

Debt service requirements for general obligation bonds, notes payable and other debt are met by the General Fund and intergovernmental revenues received directly by the Debt Service Fund. Pension liabilities, OPEB liabilities and landfill post closure costs are being liquidated by the General Fund and compensated absences are liquidated by the General Fund and Special Revenue Funds.

Total additions in Long-term Liabilities of Governmental Activities above are different than total proceeds from bonds and notes in the accompanying financial statements. The differences are due to original issue discounts and premiums on bonds, the accrual of construction draws on certain projects in the Capital Projects Fund, OPEB obligations and compensated absences earned during the year.

Total reductions in Long-term Liabilities for Governmental Activities above exceed principal retirement expenditures in the Debt Service Fund by the amount of landfill post-closure care costs paid from the General Fund, OPEB funding accrued in the General Fund and transferred to the trust fund, and compensated absences used during the year.

NOTE L – DEFEASED DEBT

The County has defeased various bond issues by creating separate irrevocable trust funds. New debt has been issued and the proceeds have been used to purchase U.S. government securities that were placed in a trust fund. The investments and fixed earnings from the investments are sufficient to fully service the defeased debt until the debt is called or matures. For financial reporting purposes, the debt has been considered defeased and therefore removed as a liability from the County’s government-wide financial statements. As of June 30, 2019, the County’s balance of the defeased debt outstanding was \$69,325,000.

NOTE M – INTERFUND RECEIVABLES AND PAYABLES

During the course of normal operations, the County has numerous transactions between funds. Generally, outstanding balances between funds reported as "due to/from other funds" include outstanding charges by one fund to another for services or goods, subsidy commitments outstanding at year-end, and other miscellaneous receivables/payables between funds. Interfund receivables/payables are transactions reimbursing a fund for expenditures made for the benefit of another fund. Such transactions are recorded as expenditures and an interfund payable in the receiving fund. Such transactions are recorded as an interfund receivable in the disbursing fund. On the governmental funds balance sheet, receivables and payables resulting from short-term interfund loans are classified as "interfund loan receivables/payables." These amounts are eliminated on the statement of net position.

<u>Receivable Primary Government</u>	<u>Payable Primary Government</u>	<u>Amount</u>
General Fund	Nonmajor Government Fund	\$ 754,128
General Fund	Internal Service	4,022
Internal Service	General Fund	1,322
Capital Projects	General Fund	875
Nonmajor Governmental Fund	Nonmajor Government Fund	9,771
Nonmajor Governmental Fund	General Fund	2,350
		<u>\$ 772,468</u>
<u>Receivable Primary Government</u>	<u>Payable Component Units</u>	<u>Amount</u>
General Fund	"911" Emergency Communication	\$ 1,183,085
General Fund	Water/Wastewater Treatment	236,941
		<u>\$ 1,420,026</u>

NOTE N – INTERFUND TRANSFERS

Transfers within the County are substantially for the purposes of subsidizing operating functions, funding capital projects and asset acquisitions, or maintaining debt service on a routine basis. Resources are accumulated in a fund or component unit to support and simplify the administration of various projects or programs. Interfund transfers are transactions between funds transferring funds out of one fund to support the operations of another fund.

<u>Primary Government</u>	<u>Primary Government</u>	<u>Amount</u>
General Fund	Nonmajor Government Fund	\$ 12,306,919
Debt Service	General Fund	50,248,367
Capital Projects	General Fund	200,000
Nonmajor Governmental Funds	General Fund	600,000
Internal Service Fund	General Fund	223,567
		<u>\$ 63,578,853</u>

NOTE O – JOINT VENTURE

The Carter Street Corporation is a nonprofit corporation that was organized by the City of Chattanooga, Tennessee, and Hamilton County, Tennessee. The Corporation serves as the coordinating body for the development, operation, and management of the Chattanooga/Hamilton County Convention and Trade Center and parking garage and is lessor of the adjoining hotel. Of the five-member board, two members are appointed by the County Mayor and two members are appointed by the Mayor of Chattanooga. The appointment of the fifth member, who serves as chairman, is agreed on by the County Mayor and the Mayor of Chattanooga.

The City and the County funded the original construction of the Chattanooga/Hamilton County Convention and Trade Center and parking garage through Lease Rental Revenue Bonds, which have been repaid. In accordance with the lease agreement, the County has a one-third equity interest in the Corporation.

Complete financial statements may be obtained from: Carter Street Corporation, Chattanooga Hamilton County Convention & Trade Center, 1 Carter Plaza, Chattanooga, TN 37401.

Condensed financial information for the Carter Street Corporation as of June 30, 2019, is as follows:

STATEMENT OF REVENUES, EXPENSES AND CHANGES IN NET POSITION

Total operating revenues	\$ 3,965,284
Total operating expenses	<u>4,829,399</u>
Net operating loss	(864,115)
Non-operating revenues	<u>300,000</u>
Capital contributions	<u>200,000</u>
Change in net position	(364,115)
Net position at July 1, 2018	<u>11,432,400</u>
Net position at June 30, 2019	<u>\$ 11,068,285</u>

NOTE P – RISK MANAGEMENT

Hamilton County has various exposures to loss as a result of its operations and service delivery, including liability, errors and omissions, on-the-job injuries, unemployment compensation and property damage (for various risk of loss associated with its property). The County maintains an Internal Service Fund to finance these various exposures to loss. The County utilizes a third-party claims administrator to establish and monitor case reserves and adjust claims associated with its self-insurance program. In addition, the County has an independent actuary review its funding on an annual basis.

The County is self-funded for liability, on-the-job injuries, errors and omissions, unemployment compensation and the first \$25,000 per incident on property and equipment claims. The County has an umbrella liability policy with

limits of \$1,000,000 per occurrence/\$2,000,000 aggregate and a \$700,000 retention covering liability claims outside of the County's tort limits, and non-tort claims such as employment-related liability, healthcare and social services liability, benefits, law enforcement liability and automobile liability. The County has a liability policy to cover election polling booth locations with a \$1,000,000 per occurrence and aggregate limit. There were no significant reductions in insurance coverage from the prior year, nor did the amount of settlements exceed insurance coverage for each of the past three fiscal years.

Hamilton County Department of Education, a discretely presented component unit, maintains a separate Internal Service Fund for providing risk management services, which include handling property claims, auto and general liability claims, and injuries to employees. All risk is retained for auto and general liability claims, injuries to employees, the first \$1,000 per incident on boiler/machinery claims, the first \$10,000 per incident on property claims, and the first \$500 per incident on auto claims.

Liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Claim liabilities are calculated and periodically re-evaluated, taking into consideration the effect of inflation, recent claim settlement trends (including frequency and amount of payouts), and other economic and social factors. Changes in the balances of claims liabilities during the year are as follows:

	Total Primary Government	Total Component Units
Unpaid claims, June 30, 2017	\$ 2,918,260	\$ 7,168,335
Incurred claims	28,657,214	55,974,726
Claims payments	<u>(28,608,419)</u>	<u>(55,024,376)</u>
Unpaid claims, June 30, 2018	2,967,055	8,118,685
Incurred claims	31,602,729	56,894,009
Claims payments	(31,500,612)	(57,155,445)
Unpaid claims, June 30, 2019	<u>\$ 3,069,172</u>	<u>\$ 7,857,249</u>

On July 1, 2010, the Department of Education began self-insuring the HMO portion of employee medical claims in addition to the PPO claims which were already self-insured.

At June 30, 2019, the Hamilton County Internal Service Fund has net position of \$38,834,467, and the Department of Education Internal Service Fund has net position of \$49,537,843. These net position balances are designated for future catastrophic losses.

NOTE Q – TAX ABATEMENTS

Hamilton County is authorized by Tennessee State law (Tennessee Code Annotated, Title 7, Chapter 53) to offer property tax abatements. The County currently offers three types of tax abatement programs: (1) Housing Development; (2) Commercial and Industrial Development; and (3) Tax Increment Financing. As allowed by State law, the County processes the tax abatement programs for Housing Development abatements through either the Chattanooga Health, Educational and Housing Facility Board (HEB) or the Chattanooga Housing Authority, and processes the tax abatement programs for Commercial and Industrial Development abatements through either the Industrial Development Board (IDB) of the City of Chattanooga or the Industrial Development Board (IDB) of Hamilton County. The HEB, Chattanooga Housing Authority, and the IDB's are authorized to own property associated with the tax abatement programs, lease the applicable property to companies approved for tax abatement, and accept payments in lieu of ad valorem taxes (PILOT) from the lessees.

Each of the PILOT agreements provide for tax abatements of the County property tax levy apportioned to the County General Fund, with certain of the agreements also authorizing abatement of the tax levy apportioned to the General Purpose School Fund.

Housing Development

The County has entered into certain PILOT agreements designed to encourage the development of single family rental housing in the downtown Chattanooga area. The PILOT agreements are further designed to encourage such housing for persons of low and/or moderate income level, the elderly, and/or disabled persons. Existing housing that is to be rehabilitated and new housing construction are eligible for tax abatement.

The County has delegated authority to the Chattanooga Health, Educational and Housing Facility Board (HEB) and the Chattanooga Housing Authority to negotiate and accept PILOTs from developers of housing for approved projects. There are provisions for recapturing abated taxes in some of these PILOT agreements if certain terms of the agreement are not met. These PILOT agreements must be approved by resolutions of both the Chattanooga City Council and the Hamilton County Board of Commissioners.

Economic Development

The County utilizes two tax abatement programs to promote economic development and growth.

(1) Commercial and Industrial Development

This program offers tax abatements for a specified period in exchange for benefits received by the County resulting from an increase in real and personal property investments and/or the creation of jobs. Applications for tax abatements are made to the Chattanooga Chamber of Commerce, with approval by either the IDB of the City of Chattanooga or the IDB of Hamilton County, followed by approval from the Hamilton County Board of Commissioners. To be eligible for tax abatement, qualifying companies must either relocate into the County or expand business within the County. Qualified businesses are eligible for abatement of all or a portion of property taxes dependent on the dollar amount of the investment and the number and average wage of jobs created. There are provisions for recapturing abated taxes if certain terms of the agreement are not met. Other commitments made by the County may include roadway improvements, rail services, and sewer improvements.

(2) Tax Increment Financing (TIF)

Hamilton County, in conjunction with the City of Chattanooga, has adopted the Tax Increment Financing Program (TIF) established by the Industrial Development Board (IDB) of the City of Chattanooga. TIF is an economic development tool that allocates all or a portion of the new, additional taxes generated by a development over a limited period of time to pay for public infrastructure such as utilities and road and traffic improvements related to the development. Tax increment is the difference in tax revenues generated by the property in the development area after a project has been completed compared with the tax revenues generated by the property before the development plan was adopted. The difference in tax revenues is applied towards the cost of improvements to the public infrastructure serving the development area. The TIF program was adopted as a tool to help the City of Chattanooga and the County to cover the costs of public infrastructure and improvements in the applicable development area.

The TIF Program is primarily for economic development projects that provide improvements in blighted and under-utilized areas in the County and in other properties designated by the Hamilton County Commission.

The County has entered into the following number of tax abatement agreements as of June 30, 2019:

	Number of Abatements as of the End of the Fiscal Yer	Number of Future Abatements Approved	Total Tax Abatements during the Fiscal Year
Housing Development	14	3	\$ 462,021
Economic Development:			
Commercial and Industrial Development	17	1	10,214,706
Infrastructure (Tax Increment Financing)	2	-	127,421
Total	<u>33</u>	<u>4</u>	<u>\$ 10,804,148</u>

REQUIRED SUPPLEMENTARY INFORMATION

The Required Supplementary Information (RSI) is supporting information that the Governmental Accounting Standards Board has concluded is essential for placing basic financial statements and notes to basic financial statements in an appropriate operational, economic, or historical context. The following RSI provides disclosures of pension plans and other postemployment benefits (OPEB) in accordance with authoritative standards.

NOTES TO SCHEDULE OF REQUIRED SUPPLEMENTARY INFORMATION

HAMILTON COUNTY, TENNESSEE June 30, 2019

PUBLIC EMPLOYEE RETIREMENT SYSTEMS

Actuarial information of the Tennessee Consolidated Retirement System Plans

Employer contributions for the year ended June 30, 2019 are based on the results of the June 30, 2017 actuarial valuation. Accordingly, governmental employers utilize the following notes to the schedule relating to the Actuarially Determined Contributions when presenting 2019.

Actuarial cost method	Entry Age Normal
Amortization method	Level dollar, closed (not to exceed 20 years)
Remaining amortization period	Varies by year
Asset valuation method	10-year smoothed within a 20 percent corridor to market value
Inflation	2.50 percent
Salary increases	Graded salary ranges from 8.72 to 3.44 percent based on age, including inflation, averaging 4.00 percent
Investment rate of return	7.25 percent, net of investment expense, including inflation
Retirement age	Pattern of retirement determined by experience study
Mortality	Customized table based on actual experience including an adjustment for some anticipated improvement
Cost of living adjustments	2.25 percent, if provided

Actuarial Information of the County Administered Plans

The annual determined contribution for each of these plans was determined using the entry age normal funding method. The actuarial value of assets was determined at market value. The assumption with respect to investment return was 7.5% for the Employees' Retirement Plan, 5.0% for the Teachers' Retirement Plan and 6.0% for the Commissioners' Retirement Plan. No explicit assumptions were made with regard to inflation. Salary increases were not considered for the Employees' and Teachers' Retirement Plans because the benefits are either capped or not based upon salary. The assumption with respect to salary increases was 4.0% for the Commissioners' Retirement Plan.

OTHER POST EMPLOYMENT BENEFITS

Actuarial Information of the County Employees Post Employment Medical Insurance Benefits

Methods and assumptions used to determine contribution rates:

Actuarial cost method	Entry Age Normal
Amortization method	Level dollar, closed (not to exceed 20 years)
Discount rate	6.5 percent
Salary increases	3.0 percent
Expected long-term rate of return	6.5 percent
Retirement age	Pattern of retirement determined by experience study
Healthcare cost trend rates	7.5% graded uniformly to 6.75% over 3 years and following the Getzen model thereafter to an ultimate rate of 3.94% in 2075

Actuarial Information of the Department of Education Post Employment Medical and Dental Insurance Benefits

Methods and assumptions used to determine contribution rates:

Actuarial cost method	Entry Age Normal
Amortization method	Level dollar, closed (not to exceed 20 years)
Discount rate	2.79 percent
Salary increases	3.0 percent
Expected long-term rate of return	N/A
Retirement age	Pattern of retirement determined by experience study
Healthcare cost trend rates	7.5% graded uniformly to 6.5% over 3 years and following the Getzen model thereafter to an ultimate rate of 3.94% in 2075

GENERAL FUND

The General Fund accounts for all sources and uses of financial resources applicable to the general operations of county government, which are not properly accounted for in another fund. All general operating revenues which are not restricted or designated as to use are recorded in the General Fund. Revenues are derived primarily from taxes and intergovernmental revenues.

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

These are operating funds which are restricted as to use by the federal or state governments and special purpose funds established by the County Board of Commissioners.

Constitutional Officers Funds account for revenues and expenditures associated with the administrative function of the Constitutional Officers.

Governmental Law Library Fund accounts for revenues and expenditures associated with maintaining a law library for attorneys practicing in state and county courts.

Hotel/Motel Fund accounts for revenues and expenditures associated with the County's Hotel/Motel room tax.

Economic Crimes Fund accounts for revenues and expenditures of the bad check restitution program established by the Tennessee Legislature.

FIDUCIARY FUNDS

TRUST FUNDS

These funds are used to account for assets held by the County in trust accounts in a fiduciary capacity.

The County uses two sets of trust funds. One trust holds funds specifically to cover future OPEB obligations, and the other set of trust funds is used to account for obligations under certain defined benefit pension plans maintained by the County.

AGENCY FUNDS

These funds are used to account for assets held by the County in a custodial capacity as an agent on behalf of individuals and other government entities.

Constitutional Officers Funds account for various deposits, bail bonds and performance bonds held by the Constitutional Officers.

DISCRETELY PRESENTED COMPONENT UNIT HAMILTON COUNTY DEPARTMENT OF EDUCATION

Discretely presented component units are entities that are legally separate from the County, but the County is considered to be financially accountable for these entities. The Hamilton County Department of Education provides public education for grades kindergarten through twelve.

GOVERNMENTAL FUND TYPES

General Purpose School Fund accounts for the operations of the school system, including instructional programs, administration, transportation, and other educational expenditures for the individual schools.

Centralized Cafeteria Fund accounts for the food service operations at the schools.

Education Capital Projects Fund accounts for resources designated for major improvements to capital assets in the school system.

PROPRIETARY FUND TYPES

Hamilton County Department of Education Internal Service Fund accounts for the Hamilton County Department of Education self-insurance programs. The Department of Education is self-insured for on-the-job injury claims, non-tort liability claims, unemployment compensation, health insurance, and the dental reimbursement program.

AGENCY FUND TYPES

School Activity Fund accounts for extracurricular activities of the student bodies of the schools. The school principals and activity sponsors direct these activities.

**RECONCILIATION OF THE BALANCE SHEET OF HAMILTON COUNTY DEPARTMENT
OF EDUCATION GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION**

HAMILTON COUNTY, TENNESSEE

June 30, 2019

Differences in amounts reported for the Department of Education in the statement of net position

Fund balances - total Department of Education governmental funds	\$ 97,079,112
--	---------------

Amounts reported for the Department of Education in the statement of net position are different because:

Capital assets used in the Department of Education's governmental activities are not financial resources and, therefore, are not reported in the funds.	369,203,760
---	-------------

Other long-term assets are not available for current period expenditures and therefore are deferred in the governmental funds.	
Property taxes	5,779,063
Charges for services	123,129

Internal service funds are used by management to charge the costs of self-insurance programs to individual funds. The assets and liabilities of the internal service funds are included in the Department of Education in the statement of net position.	49,537,843
--	------------

Long-term liabilities applicable to the Department of Education's governmental activities are not due and payable in the current period and therefore are not reported as fund liabilities. All liabilities, both current and long-term, are reported in the statement of net position. This item consists of the following:	
Net pension asset	17,276,359
Deferred outflows from pension contributions	17,175,313
Deferred outflows from differences in pension investment earnings	(3,385,706)
Deferred outflows from pension experience	3,154,162
Deferred outflows from pension changes in assumptions	8,941,156
Deferred inflows from pension experience	(20,265,882)
Deferred inflows from OPEB changes in assumptions	(21,019,053)
Deferred changes in proportion of net pension liability	644,436
Deferred outflows from OPEB experience	14,538,036
Net OPEB liability	(118,385,364)
Compensated absences	<u>(10,435,475)</u>

Net position of the Department of Education	\$ <u>409,960,889</u>

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND
CHANGES IN FUND BALANCES OF HAMILTON COUNTY DEPARTMENT OF
EDUCATION GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES**

HAMILTON COUNTY, TENNESSEE
Year Ended June 30, 2019

Differences in amounts reported for governmental activities in the statement of activities

Net change in fund balances - total Department of Education governmental funds	\$	(61,382)
--	----	----------

Amounts reported for the Department of Education in the statement of activities are different because:

Depreciation expense on governmental capital assets is included in the governmental activities in the statement of activities.	(13,755,971)
--	--------------

The net effect of capital asset transactions involving the primary government is to increase net position.	84,918
--	--------

Capital outlay, reported as expenditures in governmental funds, is shown as capital assets in the statement of net position.	3,580,393
--	-----------

The loss on sale/abandonment of capital assets is not recognized in the Department of Education's governmental funds.	(22,914)
---	----------

Other post employment benefits will not be funded therefore the expense is not recognized in the funds.	(10,109,299)
---	--------------

The net revenues of internal service funds are reported with governmental activities.	3,452,143
---	-----------

The net effect of the change in the net pension liability is included in the statement of activities.	20,476,614
---	------------

Compensated absences are measured by the amounts earned during the year in the statement of activities. However, expenditures for these items are measured by the amount of financial resources used in the governmental funds. Compensated absences decreased by this amount during the year.	(239,138)
--	-----------

Certain governmental revenues will not be collected for several months after the fiscal year and are deferred in the governmental funds.	
Property taxes	(19,340,948)
Charges for services	<u>123,129</u>

Change in net position of governmental activities	\$	<u>(15,812,455)</u>

HAMILTON COUNTY, TENNESSEE
June 30, 2019

Statistical Section

This part of the County annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the County's overall financial health.

Contents

Page

Financial Trends

F-1

These schedules contain trend information to help the reader understand how the County's financial performance and well-being have changed over time.

Revenue Capacity

F-6

These schedules contain information to help the reader assess the factors affecting the County's ability to generate its property and sales taxes.

Debt Capacity

F-10

These schedules present information to help the reader assess the affordability of the County's current levels of outstanding debt and the County's ability to issue additional debt in the future.

Demographic and Economic Information

F-13

These schedules offer demographic and economic indicators to help the reader understand the environment within which the County's financial activities take place and to help make comparisons over time and with other governments.

Operating Information

F-15

These schedules contain information about the County's operations and resources to help the reader understand how the County's financial information relates to the services the County provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Source: Hamilton County Assessor of Property

Notes: Property in Hamilton County is reassessed once every four years. The County assesses property at 25% of actual value for residential property, 40% of actual value for commercial property and 30% of actual value for other multi-use property and personalty property. The public utilities assessments are made by the State of Tennessee for all counties and cities in the state. The Electric Power Board (EPB) is not included in these totals. The assessed and estimated values for the EPB for fiscal year 2020 are \$464,021,517 and \$843,675,485 respectively. Assessments for tax exempt properties are excluded from total taxable assessed value.

Total direct and overlapping debt			\$ 675,313,662

Sources: Debt outstanding data provided by each municipality.

(1) - The percentage of overlapping debt applicable is estimated using taxable assessed property value. Applicable percentages were estimated by determining the portion of the County's taxable assessed value that is within the respective government's boundaries and dividing it by each unit's total assessed value.

Note: Overlapping governments are those that coincide with the geographic boundaries of Hamilton County. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses in Hamilton County. This process recognizes that, when considering the County's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident and therefore responsible for repaying debt of each overlapping government.

Sources: Personal income and per capita income information was provided by the Chamber of Commerce - Bureau of Economic Analysis (BEA). For 2018, personal income and per capita income were interpolated based on percentage increases reported by metropolitan areas in the BEA. Personal income and per capita income were updated to actuals as reported by BEA for 2013-2017. Population estimates were found at the U.S. Census Bureau. Unemployment information was provided by State Department of Employment Security.

Notes: Full time equivalents (FTE)

Full time - 1 full time equivalent - these are permanent employees who earn pension and leave time

Skimp - .63 full time equivalent - these are permanent employees who do not work more than 1,300 hours a year, earn leave time but do not participate in pension

Part time - .5 full time equivalent - these are permanent employees who do not work more than 1,040 hours a year and do not participate in pension nor earn leave time

Temporary - .5 full time equivalent - these employees do not have permanent status, do not work more than 1,040 hours a year and do not participate in pension nor earn leave time

¹ The 2012 increase in the number of employees in Public Safety was due to the consolidation of the City and County 911 service.

² Social Services department was dissolved in June 2011.

Private school enrollment	10,726	10,411	10,335	10,241	10,474	10,372	10,456	10,377	10,439	10,606

Sources: CABR from prior years, CAFR from prior years and various department personnel

¹ Note on County Clerk - The increase in 2019 is attributed to fleet transactions (tractor trailer tags).

² Note on Election Commission - FY2019 reflects total votes cast county-wide. Prior years reflect votes cast only in the last election.

³ Note on Building Inspections - As shown in the trend, the 2010 housing crisis began to negatively affect the groundwater protection program.

For years following the crisis, fewer houses were built, bought or sold, thus a decrease in the number of applications for new/existing septic systems.

HAMILTON COUNTY, TENNESSEE

**NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AND STATE AWARDS
June 30, 2019**

NOTE A. BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal and state awards includes the federal and state grant activity of the County and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 *U.S. Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in, the preparation of the general-purpose financial statements.

NOTE B. INDIRECT COST RATE

The County has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

**INDEPENDENT AUDITOR’S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

**County Commission
of Hamilton County, Tennessee
Chattanooga, Tennessee**

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Hamilton County Tennessee (the “County”) as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the County’s basic financial statements, and have issued our report thereon dated December 30, 2019. Our report includes a reference to other auditors who audited the financial statements of the Hamilton County “911” Emergency Communications District as described in our report on the County’s financial statements. This report does not include the results of the other auditors’ testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County’s internal control. Accordingly, we do not express an opinion on the effectiveness of the County’s internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the County's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR’S REPORT ON COMPLIANCE FOR EACH MAJOR
FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER
COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

**County Commissioner
of Hamilton County, Tennessee
Chattanooga, Tennessee**

Report on Compliance for Each Major Federal Program

We have audited Hamilton County Tennessee’s (the “County’s”) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the County’s major federal programs for the year ended June 30, 2019. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management’s Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor’s Responsibility

Our responsibility is to express an opinion on compliance for each of the County’s major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County’s compliance.

Opinion on Each Major Federal Program

In our opinion, Hamilton County, Tennessee complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

Report on Internal Control Over Compliance

Management of Hamilton County Tennessee is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
