#### INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and Board of Aldermen City of Portland, Tennessee

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Portland, Tennessee, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the City of Portland, Tennessee's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, the statement of budgetary comparison for the general fund, and the aggregate remaining fund information of the City of Portland, Tennessee as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Portland, Tennessee's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules, schedule of expenditures of federal awards and state financial assistance, and the other information section are presented for the purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules, including the schedule of expenditures of federal awards and state financial assistance are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain

additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules, including the schedule of expenditures of federal awards and state financial assistance is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section, and other information section have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 07, 2020 on our consideration of the City of Portland, Tennessee's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City of Portland, Tennessee's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Portland, Tennessee's internal control over financial reporting and compliance.

#### CITY OF PORTLAND, TENNESSEE

### MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

As management of the City of Portland, Tennessee (the City) we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2020. The analysis focuses on significant financial position, budget changes and variances from the budget, and specific issues related to funds and the economic factors affecting the City.

Management's Discussion and Analysis (MD&A) focuses on current year activities and resulting changes.

#### FINANCIAL HIGHLIGHTS

- \* The assets of the City of Portland exceeded its liabilities at the close of June 30, 2020 by \$72,919,546. Of this amount, \$14,677,890 (unrestricted net position) may be used to meet the government's ongoing obligations to citizens and creditors.
- \* The government's total net position increased by \$4,689,284.
  - As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$8,620,902, an increase of \$2,446,853 in comparison to the prior year. Approximately 42.3% of this total amount, \$3,643,412 is available for spending at the government's discretion (unassigned general fund balance).
- \* The City's long-term liabilities increased by \$1,373,731. Additional debt issues of \$4,656,000 reduced by payments of \$1,569,763 and a reduction in OPEB liability of \$1,853,352 amount to the majority of the change.

#### OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City of Portland's basic financial statements. The City's basic financial statements comprise three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-wide financial statements: The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The Statement of Net Position presents information on all of the City's assets, liabilities, deferred outflows and inflows, with the difference between these reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The Statement of Activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and

expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected tax and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their cost through user fees and charges (business-type activities). The governmental activities of the City of Portland include general government, planning, codes, police, fire, highways and streets, recreation, animal control, city engineering, community development, sanitation, storm water, golf course and the airport authority. The business-type activities of the City include Water and Sewer and Natural Gas operations.

**Fund financial statements:** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Portland, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

Governmental Funds: Governmental Funds are funds used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the governmental-wide financial statements, government fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains eight (8) individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, which is considered a major fund. Data for the other governmental funds are combined into a single, aggregated presentation, as nonmajor governmental funds. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The City of Portland adopts an annual appropriated budget for its general fund as well as drug fund, airport authority fund, impact fee fund, industrial loan fund, storm water fund, golf course fund and solid waste fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget. See Table 3 for the general fund budget comparison. The other budgetary comparisons are in the combining and individual nonmajor fund statements and schedules section of the report.

#### FINANCIAL ANALYSIS OF THE FINANCIAL STATEMENTS

**Proprietary Funds:** The City of Portland maintains two proprietary funds. Proprietary funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses proprietary funds to account for its Water and Sewer and Natural Gas operations.

Proprietary fund financial statements provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information of the water and sewer and natural gas activities, which are considered to be major funds of the City.

**Notes to the Financial Statements:** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the notes to the financial statement.

#### **Government-wide Financial Analysis**

As noted earlier, net position may serve as a useful indicator of a government's financial position. For the City of Portland, assets and deferred outflows exceeded liabilities and deferred inflows by \$68,230,263 at the close of 2019 and \$72,919,546 at the close of the most recent fiscal year.

By far the largest portion of the City's net position (70.6%) reflects its investment in capital assets (e.g., land, buildings, machinery, equipment, and infrastructure), less any related debt that is still outstanding, used to acquire those assets. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City's net position (approximately 9.3%) represents resources that are subject to external restrictions on how these may be used and assigned encumbrances from prior year. The remaining balance of unrestricted net position \$14,677,890 may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the City is able to report positive balances in all three categories of net position for the government as a whole and for the business-type activities. The same situation held true for the prior year. Unrestricted net position of the governmental activities reflected a balance of \$2,950,744 at the end of the current fiscal year.

During the current fiscal year, the government's net position increased by \$4,689,284. This increase is approximately 6.4% of total net position. Of this \$4,689,284 increase, the governmental activities increased \$2,358,801 and the business-related activities increased \$2,330,483.

#### FINANCIAL ANALYSIS OF THE FINANCIAL STATEMENTS, continued

#### **Governmental Funds**

The focus of the City of Portland's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unreserved fund balance may serve as useful measure to a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$8,620,902, an increase of \$2,446,851, in comparison with 2019. Of this total amount, \$3,643,412 constitutes unassigned fund balance which is used for spending at the government's discretion. The non-spendable portion of fund balance (\$356,390) is reserved to indicate that it is not available for new spending because it has been committed to provide for prepaid items and inventory and the restricted fund balance (\$1,386,916) is set aside for statutorily reserved purposes. The committed fund balance (\$105,450) is designated for special projects that are provided by City Council action. The assigned fund balance (\$3,128,734) is amounts intended to be used for specific purposes primarily capital projects funded by the GO bond issue.

The general fund is the chief operating fund of the City. At the end of the current fiscal year the total general fund balance was \$7,247,359 with \$3,643,412 (approximately 50.3%) constituting unassigned fund balance. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures.

Unassigned fund balance represents 26.6% of total general fund expenditures and 39.4% of total expenditures less capital outlays. Total fund balance represents 52.9% of total general fund expenditures. During the current fiscal year, the fund balance of the City's general fund increased by \$2,261,093.

Overall revenues performed very well for the year even with the 4<sup>th</sup> quarter of the year covered by the COVID pandemic.

Overall sales tax revenues and local option tax revenues continue to improve year over year as new retail outlets continue to open or expand with additional outlets planned or in process for the coming year. The new interstate interchange continues to attract several new retail outlets. Current year levels improved 2.4% and 11.5% respectively over 2019 levels.

Collections of current year property taxes were at 96.6% of total taxes billed. Overall collections of property taxes including delinquents and penalties exceeded planned levels by approximately 2.8%.

Building permits continue to be very strong however not up to prior year level (-29.5%) versus 2019 and but up (+3.1%) to forecasted levels. Building permits are an excellent indicator of the construction business because they affect sewer and water taps and impact fees. Permits also affect the property tax revenues and sales tax revenues because of the impact of builders buying supplies and the increase in property assessment values. Building permits should continue to be strong because of growth indicators that support the road infrastructure improvements that are in process (new interchange on I-65) and the planned road project (Hwy 109 by-pass). The current year strength is attributed to the construction of

several retail facilities, strong residential housing construction and an expansion of an existing facility (Dorman).

The State of Tennessee's state shared revenues were up approximately +5.6% over prior year. Sales Tax continued to show solid improvements, +2.4%. Local option tax continues to grow because of the growth in retail business, +11.5%. The phase out of the state income tax and the delay in filing date due to COVID contributed to the decrease in revenue, down 79.0% from prior year. The Income tax level will continue to decrease under the phase-out, completely phased-out in 2021. Business tax continues to improve, up from prior year, +3.5%. These factors contributed to the improvement in general unassigned fund balance +\$522,611. The overall net change in general fund balance was (+\$2,261,093) created by the proceeds of the GO bond issue without the corresponding increase in capital spending, this is reflected in the assigned fund balance increase of \$1,980,049.

The City of Portland, recognizing fund balance problems in mid-year 2010, made several changes which continue to aid in the improvement in the fund balance. The improved economy and continued spending controls lend to continued positive signs with the strongest indicator being the unassigned fund balance of \$3,643,412 at the end of 2020.

#### **Proprietary Funds**

The City's proprietary funds provide the same type of information found in the government-wide financial statements but in more detail.

Unrestricted net position of the proprietary funds at the end of the year amounted to \$11,727,146, an increase of \$1,942,112 (+19.9%) with Water & Sewer contributing a (+\$1,191,206) and Gas contributing a (+\$750,906). Operating income was up in Gas (+\$63,949) and up in Water & Sewer (+\$944,348) versus prior year.

Gas revenues were down for the year -\$795,207 (-14.2%) as temperatures were milder than prior year. Natural gas costs for the year were down -\$937,486 due to decrease in usage and the overall margin on gas increased by 10.7% percentage points (pricing structure change with largest user). Spending was up moderately (+\$78,330) with operating expenses (+\$129,996), depreciation (+\$66,142) and administrative expenses down (-\$117,808). Overall operating income was up (+\$63,949).

Water & Sewer was up over 6.9% in operating revenues, +\$533,760. Costs were down significantly in operating expenses (-\$183,435), administrative expenses (-\$352,614) offset by an increase in depreciation (+\$125,461) creating the overall increase in operating income (+\$944,348). A significant adjustment in the OPEB liability contributed to the decline in administrative expenses.

#### GENERAL FUND BUDGETARY HIGHLIGHTS

The General Fund budget was amended during the year. The following table illustrates the change to the annual budget.

Table 3	General Fund								
		Budgeted	l Amo	unts

#### CAPITAL ASSETS AND DEBT ADMINISTRATION

#### **Capital Assets**

The City of Portland's investment in capital assets from its governmental and business-type activities at June 30, 2020, amounts to \$78,024,090 (net of accumulated depreciation). This investment in capital assets consists mainly of land, buildings, improvements, machinery and equipment, park facilities, roads, bridges, and utility plant for the water, sewer, and natural gas services the City provides. Total Capital Assets increased by \$3,333,030 due to several large projects, City Hall Building renovation/expansion, contribution of two properties (land & Building) to the city and purchase of several pieces of equipment. The cost additions were offset by the annual depreciation of \$3,322,022.

Additional information on the City of Portland's capital assets can be found in the notes to the financial statements section of this report.

#### **ASSETS AND DEBT ADMINISTRATION – Continued**

#### **Long-Term Debt**

At the end of the current year, the City of Portland had total debt outstanding of \$27,959,547. Of this amount, \$12,848,980 comprises debt backed by the full faith and credit of the government (governmental activity debt) and the remainder of the debt of the City represents debt secured by both the taxing power of the City and specific revenue sources (e.g. revenue and tax bonds) of the proprietary funds.

The total debt obligations increased by \$1,373,731. Bonds, Leases and Capital Outlay Notes with bond premium and discount increased +\$3,223,362 from the previous year due to the issue of the GO bonds (+\$3,780,000) and capital outlay notes (+\$876,000) offset by normal debt service liquidation, OPEB obligation decreased -\$1,853,352 and Compensated Absences increased +\$3,721.

State statutes impose no debt limit on the amount of general obligation debt a governmental entity may issue.

Additional information on the City of Portland's debt can be found in the notes to the financial statements section of this report.

#### **ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES**

The unemployment rate for the City of Portland is currently 5.9%, compared to the State unemployment rate of 6.3% and the national rate of 6.6%. Unemployment rates are up due to the COVID pandemic. The 2010 Census numbers revealed substantial growth and we are confident the 2020 numbers will be strong.

The Portland Airport continues to seek federal and state grant programs to enhance the airport. Realizing the benefit of air service in the northern part of the county, Sumner County provides an annual allocation of funds to partner with Portland on Airport projects. The completion of various major projects at the airport and the current additional on-going enhancement projects (Phase I Construction of a Parallel Taxiway and Runway Pavement Overlay) will provide more opportunities for service to our local industries and citizens. The improved airport also is a strong attraction for prospective industries to our City. Additionally, Civil Air Patrol (Search and Rescue Disaster Team) meets monthly at the Portland Airport

Portland's automotive manufacturers continue to thrive in our community. **U.S. Tsubaki** completed a new 250,000 square foot facility to consolidate all their Portland operations and to provide additional expansion capability. **Dorman Products** (After- market auto parts assembly supplier) is operating in an 815,000 SF facility and added an additional 181,640 SF to the facility during the year, total employment for the facility is 700.

Portland has experienced additional industrial growth with Advanced Plating locating in Portland at an existing 115,000 SF facility adding \$4 million in investment and the addition of 200 new jobs over a five-year period. S.R. Smith relocated and expanded operations into an available 166,500 SF facility. Nabholz Construction – National Commercial Contractor; SSW Holding Company – Pre-Cast Counter Weights; Pennar Global – Engineering Building Systems; Specialty Water Technologies – Water Purification Systems for the medical industry and Genessee – Metal stamping group are new Industries that located in Portland during the year. Some building modifications are underway and hiring has begun for most of the new locators. In addition, SurKoat an existing industry purchased the property previously occupied by Tsubaki. Companies who expand their operations in the same community manifest proof of their success.

Portland continues to captivate industry seeking a US Southeastern location. Our location is ideal for product to market whether it be distribution or manufacturing. Our location also serves well for access to a skilled and trainable workforce. The Portland Campus of the TN college of Applied Technology is in full operation with Advanced Manufacturing, Machine Tool, Information Technology, Construction, Nursing, Office Administration and Cosmetology and Welding classes all offered, Addition of a night shift to the welding class is providing more opportunity to enhance our local workforce training. A partnership with Sumner County School Board, TN Board of Regents and the City of Portland provided for the installation of an elevator and renovations to open up the second floor of the building to accommodate Middle School Core Curriculum classes. The TCAT staff is working closely with the local industries to meet their special training needs. The process of feeding the TCAT with high school students who wish to graduate with certifications to enter the workforce using the Middle College curriculum has been a huge success.

Road projects were a major part of the year with completion of construction on the new I-65 interchange. The new interchange ties into Hwy 109 north of Portland. Additionally, the joint project between four government entities (City of Portland, City of Orlinda, Robertson County and Sumner County) for the widening and adding of a signal at the intersection of Hwy 31W and Hwy 52, a main port of entrance to Portland, was completed. The proposed Portland By-Pass route which will tie into HWY 109 at the new interchange is in the final engineering stages, however, a delay has pushed land acquisition out until late 2021. The 109 corridor is the tie in to the northern loop of I-840, the loop around Nashville. These road projects continue to enhance our ability to recruit new industry and retail prospects.

Portland continues to have a presence at the International ICSC in Las Vegas, the TN-KY ICSC Annual Conference and the Southeastern Conference in Atlanta for retail recruitment. Additionally, the City entered into a contract with Retail Strategies for retail recruitment expertise. Developers, Investors and Retailers are showing increased interest in our community. Of particular interest is our strong growth rate in the federal census from 2000-2010 and the new interstate interchange completion. During the year we added a Dollar General Store on our east side, an independent convenience store, a Speedway store and fueling station and a 5-Star store and fueling station near the new interchange. A Dunkin Donuts is

opening in one of our downtown convenience stores. Portland is a good market for locally owned and operated businesses such as Milo's Coffee Shop. Highway 109 is still the main focus for retailers but significant additional interest is being generated along the new interchange corridor.

Tractor Supply was the first Tax Increment Financing Project (TIF) completed by the City. The project was completed in conjunction and cooperation with the Sumner County Government. The relationships forged and success experienced with Tractor Supply has initiated additional interest in the Portland market by local and regional investors and developers.

The City completed a bond issue in August 2015 of over \$7.4 million for a building program to include two fire halls, (one on the north side of town at the mouth of the interchange tie in to 109 and a joint project with the Sumner County EMS on the south side of town), a City Hall and several parks improvements. Due to increased construction costs, an additional bond issue of \$3.8 million was completed in April 2020 for completion of the renovation and addition to the City Hall. Additional funds are available under the 2020 bond to renovated the Police Station, add roads, and complete other Parks related projects. Completion of the City Hall project is scheduled for January, 2021.

The City completed the waste water plant improvement/renovation during the current year along with several sewer collection system projects and the phase II design for the waste water plant expansion. The City closed an additional \$17 million dollar Water & Sewer Bond issue in October 2020 to fund the waste water plant expansion (\$10 million) and several large collection system projects (\$7 million) in order to upgrade our system for the anticipated growth due to the road infrastructure improvements.

#### REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the City of Portland, Tennessee's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to:

Net changes in fund balance - total governmental funds	\$ 2,446,851
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period, net loss on disposal.	2,928,458
Governmental funds report retirement contributions as expenditures. These expenditures are reported as deferred outflows of resources and either pension and OPEB income or expense in the government-wide financial statements. This is the amount by which pension income exceeds pension expenditures and OPEB income exceeds OPEB expenditures in the current period.	827,269
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	(270,000)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	(3,571,355)
Expenses reported in the statement of activities that do not require the use of current financial resources are not reported as expenditures in the funds.	(2,422)
Change in net position of governmental activities	\$ 2,358,801

Net Cash Provided by Operating Activities	\$ 1,277,554	\$ 3,238,387	\$ 4,515,941		

## City of Portland, Tennessee Statement of Fiduciary Net Position Agency Fund - Statement of Assets and Liabilities June 30, 2020

	Agency Fund	
Assets		
Cash and cash equivalents - restricted	\$ 5,510	
Total Assets	\$ 5,510	
Liabilities		
Accrued liabilities Due to other funds	\$ 2,500 3,010	
Total Liabilities	\$ 5,510	

#### **NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES**

The City of Portland, Tennessee ("the City") was incorporated May 21, 1905, by the authority of the 54<sup>th</sup> Tennessee General Assembly and was chartered under the Private Acts of 1939, Chapter No. 568 House Bill No. 1377. The City operates under a Mayor-Aldermen form of government and provides the following services as authorized by its charter: public safety, water, wastewater, natural gas, solid waste (sanitation), parks and recreation, public works, planning and zoning, airport, and general administrative services.

The City's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant accounting policies established in GAAP and used by the City are discussed below.

#### **Reporting Entity**

The Portland Airport Authority as established in the city charter is responsible for development, construction and operation of the Portland Airport. Financial activities of the Portland Airport Authority are included in the Airport Fund of these financial statements.

City officials are responsible for appointing members of the Portland Housing Authority and the Housing Assistance Board of Portland, Tennessee. Accountability for these organizations does not extend beyond making appointments. They do not meet the criteria in Section 2100 of GASB's Codification of Governmental Accounting and Financial Reporting Standards for including as component units.

City officials are responsible for appointing members to the Industrial Development Board of the City of Portland, Tennessee, as established by authority of Chapter 53, Title 7 of the Tennessee Code Annotated. The City has a fiduciary responsibility to administer proceeds of revenue notes issued by the Portland Industrial Development Board ("IDB"). The IDB does not meet the criteria in Section 2100 of GASB's Codification of Governmental Accounting and Financial Reporting Standards for including as a component unit, however it does meet the criteria for inclusion as a fiduciary fund.

In evaluating the City as a reporting entity, management has addressed all potential component units for which the City may be financially accountable and, as such, should be included within the City's financial statements. Based on the criteria of financial accountability, the City had no component units at June 30, 2020.

#### **Government-wide Financial Statements**

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital

requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds. However, data from fiduciary funds are not incorporated in the government-wide financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Long-term assets, receivables, long-term debt and other obligations are recognized. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are assessed.

Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Amounts reported as program revenues include (1) charges to customers or applicants for goods, services, or privileges provided, and (2) operating grants and contributions, and (3) capital grants and contributions. General revenues include all taxes and internally dedicated resources.

Expenses are allocated among various City functions including administrative overhead charges allocated by the general fund to various City functions. As a rule, the effect of inter-fund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the government's utilities and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

#### **Fund Financial Statements**

The financial transactions of the City are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures. Separate financial statements are provided for governmental funds, fiduciary funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

#### Measurement Focus, Basis of Accounting, and Basis of Presentation

#### **Governmental Fund Financials**

Governmental fund financial statements are reported using the current financial focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are recorded when the related liability is incurred. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgements are recorded only when payment is due.

Property taxes, intergovernmental revenues, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal

period using the criteria specified in the paragraph above. All other revenue items are considered to be measurable and available only when cash is received by the government.

The City reports the following governmental funds:

<u>General Fund</u> - The government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. This fund is considered a major fund for reporting purposes.

<u>Nonmajor governmental Funds</u> – The special revenues fund of the City that are reported as nonmajor are as follows: Airport, Solid Waste (Sanitation), Stormwater, Industrial Revolving Loan, Drug Enforcement, Golf Course, and Impact Fee.

Since the governmental fund financial statements are presented on a different basis than the governmental activities column of the government-wide financial statements, a reconciliation is provided that explains the transition from one basis of accounting to another.

#### **Proprietary Fund Financial Statements**

The focus of the proprietary fund measurement is upon determination of operating income, changes in net position and cash flows. Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations.

The principal operating revenues of the various utility funds are charges to customers for sales and services. The Water & Sewer fund also recognizes as operating revenue the portion of tap fees intended to cover the cost of connecting new customers to the system. Operating expenses for the enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The government reports the following major proprietary funds:

Water & Sewer Fund – accounts for the water and wastewater services provided to customers of the system.

Natural Gas Fund – accounts for the distribution of natural gas to customers of the system.

#### Fiduciary Fund Financial Statement

The Fiduciary fund financial statement consists of a Statement of Net Position for an agency fund of the Portland Industrial Development Board which are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The agency fund is accounted for on a spending or "economic reasons" measurement focus and the accrual basis of accounting.

#### **Estimates**

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates

#### **Budget and Budgetary Accounting**

The City's fiscal operating year begins July 1st. An annual operating budget is adopted by the Mayor and Board of Aldermen prior to the commencement of the fiscal year. The budget is legally enacted through the passage of an ordinance which also sets the tax rate. Any revision that alters the total appropriations of any fund requires the Board of Aldermen action. The budgetary basis is consistent with GAAP.

#### **Cash and Cash Equivalents**

For purposes of the proprietary statements of cash flows, the City defines its cash and cash equivalents to include only cash on hand, demand deposits, and all highly liquid investments with original maturities of three months or less from date of acquisition. Certain cash is reported as restricted because they are maintained in separate bank accounts and their use is either limited by applicable bond covenants or are restricted for use by outside parties or bond issues.

Investments consist of bank certificates of deposit with maturity in excess of three months from the date of purchase.

#### **Inventories and Prepaid Items**

Inventory of the Public Works and Solid Waste departments, Airport Authority, Water & Sewer and Gas Funds is stated at cost determined by the first-in, first-out (FIFO) method. The costs of governmental funds inventories are recorded as expenditures when purchased. Certain payments to vendors reflecting costs applicable to future accounting periods are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased. The inventories and prepaid items recorded in the governmental funds do not reflect current appropriable resources and, thus, an equivalent portion of fund balance is reported as non-spendable.

#### **Capital Assets**

Capital assets, which include property, plant, equipment, and infrastructure assets are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and the proprietary fund financial statements. Capital assets used in governmental fund operations are accounted for as capital outlay expenditures. Capital assets, not including general government infrastructure assets, are defined by the government as assets with an initial, total cost of more than \$2,500 and an estimated useful life in excess of one year.

General government infrastructure assets with a total cost greater than \$10,000 and an estimated useful life in excess of one year are capitalized. All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated fixed assets are valued at their estimated fair value on the date donated.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset lives are not capitalized.

Depreciation has been provided over estimated useful lives using the straight-line method. The estimated useful lives are as follows:

#### Governmental Activities:

Buildings	40 years
Improvements Other than Buildings	10-40 years
Infrastructure Assets	15-50 years
Machinery, Equipment, & Vehicles	5-40 years

#### **Business-type Activities:**

Water and Sewer Plant	10-50 years
Natural Gas Plant	10-50 years
Machinery, Equipment, & Vehicles	5-15 years
Furniture and Fixtures	5-15 years

#### **Property Tax**

The City's property tax is levied each October 1st on the assessed value listed as of the prior January 1<sup>st</sup> for all real and personal property located in the City's legal boundaries. All City taxes on real estate are declared to be a lien on such realty from January 1<sup>st</sup> of the year assessments are made. Taxes become delinquent in March of the year subsequent to the levy date; at that time a lien attaches, and delinquent taxes are turned over for collection proceedings. Property tax revenues are recognized when levied. An allowance is established for delinquent taxes to the extent that their collectability is doubtful.

Property taxes are treated as non-exchange revenue. Accounts receivable from imposed non-exchange transactions are recorded when the City has an enforceable legal claim to the asset. The enforceable legal claim date for property taxes is the assessment date of January 1<sup>st</sup>. Therefore, the City has recorded the succeeding year's receivable and deferred inflows of resources for taxes assessed as of June 30, 2020 that will not be received until after year-end.

#### **Interfund Receivables, Payables, and Transfers**

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due from/to other funds" (i.e. the current portion of interfund loans). Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as "internal balances".

#### **Compensated Absences**

The City's policies permit employees to earn vacation time on a calendar-year basis. Any unused vacation leave at December 31 is forfeited. Vacation leave earned but unpaid at June 30, 2020 is accrued and presented as current liabilities in the government-wide and proprietary fund financial statements. The City's policies permit the accumulation, within certain limitations, of unused sick leave with vesting of unused amounts upon retirement with no monetary payouts. In the fund financial statements, governmental funds report only the compensated absence liability payable from expendable available resources. The compensated absence liability attributable to the governmental activities will be liquidated primarily by the General Fund.

#### **Long-Term Liabilities**

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts are deferred and amortized straight-line over the life of the bonds that are reported net with bonds payable. Bond issue costs are expensed as incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### **Fund Balance**

Fund balances are classified into clearly defined categories making the nature and extent of the constraints placed on a government's fund balances more transparent. The following classifications describe the relative strength of the spending constraints as defined in the City's fund balance policy.

Non-spendable Fund Balance - Amounts that cannot be spent because they are either in a (a) non-spendable form, including items not expected to be converted to cash (i.e. inventories, prepaid amounts, long-term portion of loans and notes receivable and property acquired for resale), or (b) legally or contractually required to be maintained intact (i.e. principal of permanent funds).

Restricted Fund Balance - Amounts constrained to be used for a specific purpose as per external parties, constitutional provision, or enabling legislation.

Committed Fund Balance - Amounts constrained to be used for a specific purpose as per action by the Board of Aldermen (by ordinance). Amounts classified as committed are not subject to legal enforceability like restricted resources; however, they cannot be used for any other purpose unless the Board removes or changes the commitment by taking the same action it employed to impose the commitment.

Assigned Fund Balance – Amounts intended to be used by the City for a specific purpose, but are neither restricted nor committed. The intent shall be expressed by the Board of Aldermen or a designee authorized by the Board of Aldermen. The nature of the actions necessary to remove of modify an assignment is not as rigid as required under a committed fund balance classification. It does not require formal action. This classification includes the remaining positive fund balance for all governmental funds except for the General Fund.

Unassigned Fund Balance – Amounts available for any purpose (amounts that are not non-spendable, restricted, committed or assigned) in the General Fund. It represents the resources available for future spending. This classification includes negative residual fund balances of any other governmental fund that cannot be eliminated by the offsetting of assigned fund balance amounts. An appropriate level of unassigned fund balance should be maintained in the General Fund in order to cover unexpected expenditures and revenue shortfalls.

When expenditures are incurred for purposes for which both restricted and unrestricted (committed, assigned or unassigned) amounts are available, it shall be the policy of the City to use the restricted

amounts first as permitted under law. When an expenditure is incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used, it shall be the policy of the City to use the committed amounts first, followed by the assigned amounts and the unassigned amounts.

#### **Net Position**

Net position represents the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources. Government-wide and proprietary fund net position are divided into three components:

Net investment in capital assets - consist of the historical cost of capital assets less accumulated depreciation and less any debt that remains outstanding that was used to finance those assets plus deferred outflows of resources less deferred inflows of resources related to those assets.

Restricted net position - consist of assets that are restricted by the City's creditors (for example, through debt covenants), by the state enabling legislation (through restrictions on shared revenues), by grantors (both federal and state), and by other contributors (including those who have donated to the City less related liabilities and deferred inflows of resources). Restrictions from enabling legislation include the State Street Aid Fund, Solid Waste Fund, Stormwater Fund, SOR, Impact Fee Fund and Drug Fund.

Unrestricted - all other net position is reported in this category.

When an expense is incurred that can be paid using either restricted or unrestricted resources (net position), the City's policy is to first apply the expense toward restricted resources and then toward unrestricted resources.

#### **Pensions**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about fiduciary net position of the City's participation in the Public Employee Retirement Plan of the Tennessee Consolidated Retirement System (TCRS), and additions to/deductions from the City's fiduciary net position have been determined on the same basis as they are reported by TCRS for Public Employee Retirement Plan. For this purpose, benefits (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms of the Public Employee Retirement Plan of TCRS. Investments are reported at their fair value.

#### **NOTE 2 – CASH AND CASH INVESTMENTS**

The City has no formal deposit and investment policies other than those prescribed by State of Tennessee statute and explained below.

*Policies:* Deposits in financial institutions are required by State statute to be secured and collateralized by the institutions. The collateral must meet certain requirements and must have a total minimum market value of 105% of the value of the deposits placed in the institutions, less the amount protected by Federal Deposit Insurance Corporation Insurance (FDIC). Collateral requirements are not applicable for financial institutions that participate in the State of Tennessee's collateral pool.

Deposits: As of June 30, 2020, all of the City's deposits were held by financial institutions which participate in the bank collateral pool administered by the Treasurer of the State of Tennessee. Participating banks in the bank collateral pool determine the aggregate balance of their public fund accounts. The amount of collateral required to secure these public deposits must be at least 105% of the average daily balance of public deposits held. Collected securities required to be pledged by the participant banks to protect their public fund accounts are pledged to the State Treasurer on behalf of the bank collateral pool. The securities pledged to protect these accounts are pledged in the aggregate rather than against each individual account. The members of the pool may be required by agreement to pay an assessment to cover any deficiency. Under the additional assessment agreement, public fund accounts covered by the pool are considered to be insured for purposes of custodial credit risk disclosure.

*Investments:* As of June 30, 2020, the City also held certificates of deposit with initial maturities of greater than three months which have been classified as investments. The certificates of deposit earn interest ranging from .15% to .75% and are invested with banks participating in the state bank collateral pool.

#### NOTE 3 - INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

The composition of interfund balances as of June 30, 2020 is as follows:

	Interfund Receivable		_	erfund ayable
Major Funds				
General Fund	\$	1,023	\$	3,036
		1,023		3,036
Nonmajor Funds				
Airport Fund		-		106
Stormwater		782		1,023
Solid Waste Fund		1,738		822
Golf Fund		100		
		2,620		1,951
Proprietary Funds				
Water and Sewer Fund		1,078		750
Gas Fund		1,620		604
		2,698		1,354
	\$	6,341	\$	6,341

All balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made. These balances will be repaid within one year.

The composition of interfund transfers for the year ended June 30, 2020, is as follows:

From Fund	To Fund	A	Amount
Industrial Revolving Loan Fund	General Fund	\$	171,311
Drug Fund	General Fund		15,000
General Fund	Airport Fund		50,000
General Fund	Golf		90,000
Water and Sewer Fund	General Fund		139,049
Gas Fund	General Fund		160,591
Total Transfers		\$	625,951

#### **NOTE 4 - CAPITAL ASSETS**

A summary of changes in capital assets as presented in the governmental activities column of the government-wide financial statement is as follows:

Governmental Activities	Beginning Balance		Deletions/	Ending Balance	
	July 1, 2019	Additions	Adjustments	June 30, 2020	
Capital assets not being depreciated:					
Land	\$ 6,267,174	\$ 574,048	\$ -	\$ 6,841,222	
Construction in progress	743,181	3,913,669	(2,188,541)	2,468,309	
Total Not Being Depreciated	7,010,355	4,487,717	(2,188,541)	9,309,531	
Capital assets being depreciated:					
Buildings and plant	12,167,259	769,145	-	12,936,404

Machinery and equipment	6,241,716	634,769	(230,617)	6,645,868	
Total Being Depreciated	39,051,388	2,091,816	(230,617)	40,912,587	
Less: Accumulated Depreciation	(14,267,682)	(1,462,323)	215,706	(15,514,299)	
Net Capital Assets Being Depreciated	24,783,706	629,493	(14,911)	25,398,288	
Net Capital Assets	\$ 31,794,061	\$ 5,117,210	\$ (2,203,452)	\$ 34,707,819	

Business-type Activities		Beginning Balance		Deletions/	Ending Balance		
	J	uly 1, 2019		Additions	Adjustments	Jι	ine 30, 2020
<u>Capital assets not being depreciated:</u>							
Land	\$	1,280,682	\$	6,000	\$ -	\$	1,286,682
Construction in progress		6,422,714		1,807,952	(6,679,525)		1,551,141
Total Not Being Depreciated		7,703,396		1,813,952	(6,679,525)		2,837,823
Capital assets being depreciated:							
Water & Sewer plant		42,142,410		5,957,912	-		48,100,322
Natural Gas plant		15,604,830		665,610	-		16,270,440
Machinery, equipment & vehicles		3,137,462		606,759	(372,864)		3,371,357
Total Being Depreciated		60,884,702		7,230,281	(372,864)		67,742,119
Less: Accumulated Depreciation		(25,691,099)		(1,859,699)	287,127		(27,263,671)
Net Capital Assets Being Depreciated		35,193,603		5,370,582	(85,737)		40,478,448
Net Capital Assets	\$	42,896,999	\$	7,184,534	\$ (6,765,262)	\$	43,316,271

Depreciation expense was charged to functions/programs of the primary government as follows:

Primary Government- Governmental Activities	
General government	\$ 89,081
Public safety	384,418
Parks & recreation	194,546
Planning and codes	5,827
Streets	429,925
Solid Waste	78,483
Stormwater	32,085
Golf course	29,011
Airport	218,947
Total Depreciation	\$ 1,462,323
Primary Government-Business-type Activities	
Water and sewer fund	\$ 1,404,686
Natural gas Fund	 455,013
Total Depreciation	\$ 1,859,699

#### **NOTE 5 - LONG-TERM OBLIGATIONS**

#### **Governmental Activities**

Long-Term Debt

#### **General Obligation Bonds and Capital Outlay Notes**

The City has outstanding general obligation refunding bonds and capital outlay notes from direct borrowings and direct placements related to governmental activities totaling \$10,390,000 and \$1,830,512, respectively. Direct borrowings related to business-type activities include capital outlay notes and state revolving loans totaling \$1,042,922 and water/sewer system refunding bonds of \$13,035,000.

Debt outstanding as of June 30, 2020 consisted of the following:

General obligation bonds, capital outlay notes and other loans are direct obligations and pledge the full faith and credit of the government. The City's direct borrowings related to governmental and business-type activities require the same pledge of the full faith and credit; however, none of the direct borrowings contain any provision for acceleration of payments of principal or are secured by collateral. All bonds and other loans included in long-term debt as of June 30, 2020 will generally be retired from governmental or enterprise fund cash.

Governmental fund debt service requirements to maturity for bonds and notes payable are as follows:

Years Ending		
June 30	Principal	Interest
2021	\$ 811,920	\$ 383,937
2022	785,670	370,021
2023	702,240	347,225
2024	439,660	329,131
2025	369,772	316,065
2026-2030	1,616,250	1,413,179
2031-2035	1,860,000	1,116,681
2036-2040	2,175,000	796,982
2041-2045	2,570,000	405,438
2046-2050	890,000	82,051
Total	\$ 12,220,512	\$ 5,560,710

Business-type Activities debt service requirements to maturity for bonds, notes, and loans payable are as follows:

Years Ending		
June 30	Principal	Interest
2021	\$ 807,405	\$ 466,556
2022	683,976	444,175
2023	570,128	424,748
2024	591,280	408,770
2025	597,468	394,531
2026-2030	2,948,748	1,717,865
2031-2035	2,963,917	1,200,351
2036-2040	2,485,000	691,843
2041-2045	1,990,000	270,225
2046	 440,000	14,300
Total	\$ 14,077,922	\$ 6,033,364

A summary of long-term liability activity, including debt, for the year ended June 30, 2020 is as follows:

	 Balance July 01 2019	Increases	 Decreases	Balance June 30 2020	D	Amounts ue Within One Year
Governmental Activities						
General Obligation bonds	\$ 6,790,000	\$ 3,780,000	\$ (180,000)	\$ 10,390,000	\$	255,000

Compensated Absences	105,034	3,721	-	108,755		-
Total OPEB Liability	 843,159	 -	 (675,753)	 167,406		-
Total business-type activities	\$ 16,274,545	\$ 241,110	\$ (1,505,088)	\$ 15,010,567	\$	845,236

The bond resolution authorizing the Water and Sewer System Refunding and Improvement Bonds, Series 2016 shown above requires the City to establish a Debt Service Reserve Fund, a Bond and Interest Sinking Fund, and requires the City to establish rates to its customers in order to maintain a debt service coverage ratio of no less than 1.2 to 1.0 for the 2006 bonds and all prior lien bonds and 1 to 1 for all other obligations. These refunding bonds defeased certain outstanding bonds, which were retired in October 2016.

The City issued \$15,560,000 in Water & Sewer System Refunding and Improvement Bonds, Series 2016 to refund certain outstanding debt of the City (Series 2006 and 2014 Bonds) and add approximately \$8,500,000 in new monies. The new refunding bonds bear interest at rates that range between 2.50% and 4.00% per annum for the life of the bond. The City refunded \$4,909,167 of Water & Sewer System Revenue Refunding Bonds, Series 2006 and \$2,781,091 of Water & Sewer Bonds, Series 2014 with interest rates ranging from 3.875% to 4.375% for the Series 2006 and 2.400% for the Series 2014. The reacquisition price exceeded the net carrying amount of the old debt by \$6,113. This amount is presented as a deferred outflow of resources and amortized over the remaining life of the refunding debt. The refunded debt reduced the City's total debt service payments by \$749,293 and resulted in an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$672,310.

#### **NOTE 6 – PENSION PLANS**

#### **General Information about the Pension Plan**

#### Plan Description

Employees of the City are provided a defined benefit pension plan through the Public Employee Retirement Plan, an agent multiple-employer pension plan administered by the TCRS. The TCRS was created by state statute under Tennessee Code Annotated, Title 8, Chapters 34-37. The TCRS Board of Trustees is responsible for the proper operation and administration of the TCRS. The Tennessee Treasury Department, an agency in the legislative branch of state government, administers the plans of the TCRS. The TCRS issues a publicly available financial report that can be obtained at <a href="https://www.treasury.tn.gov/Retirement/Boards-and-Governance/Reporting-and-Investment-Policies">www.treasury.tn.gov/Retirement/Boards-and-Governance/Reporting-and-Investment-Policies</a>.

#### Benefits provided

Tennessee Code Annotated Title 8, Chapters 34-37 establishes the benefit terms and can be amended only by the Tennessee General Assembly. The chief legislative body may adopt the benefit terms permitted by statute. Members are eligible to retire with an unreduced benefit at age 60 with 5 years of service credit or after 30 years of service credit regardless of age. Benefits are determined by a formula using the member's highest five consecutive year average compensation and the member's years of service credit. Reduced benefits for early retirement are available at age 55 and vested. Members vest with five years of service credit. Service related disability benefits are provided regardless of length of service. Five years of service is required for non-service related disability eligibility. The service related and non-service related disability benefits are determined in the same manner as a service retirement benefit but are reduced 10 percent and include projected service credits. A variety of death benefits are available under various eligibility criteria.

Member and beneficiary annuitants are entitled to automatic cost of living adjustments (COLAs) after retirement. A COLA is granted each July for annuitants retired prior to the 2nd of July of the previous year. The COLA is based on the change in the consumer price index (CPI) during the prior calendar year, capped at 3 percent, and applied to the current benefit. No COLA is granted if the change in the CPI is less than one-half percent. A one percent COLA is granted if the CPI change is between one-half percent and one percent. A member who leaves employment may withdraw their employee contributions, plus any accumulated interest.

*Employees Covered by Benefit Terms.* At the measurement date of June 30, 2019, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	58
Inactive employees entitled to but not yet receiving benefits	82
Active Employees	154
Total Employees	294

Contributions. Contributions for employees are established in the statutes governing the TCRS and may only be changed by the Tennessee General Assembly. Employees contribute 5 percent of salary. The City makes employer contributions at the rate set by the Board of Trustees as determined by an actuarial valuation. For the year ended June 30, 2020, employer contributions for the City were \$214,592 based on a rate of 3 percent of covered payroll. By law, employer contributions are required to be paid. The TCRS may intercept the City's state shared taxes if required employer contributions are not remitted. The

employer's ADC and member contributions are expected to finance the cost of benefits earned by during the year, the cost of administration, as well as an amortized portion of any unfunded liability.

#### **Net Pension Liability (Asset)**

The City's net pension liability (asset) was measured as of June 30, 2019, and the total pension liability used to calculate net pension liability (asset) was determined by an actuarial valuation as of that date.

#### **Actuarial Assumptions**

The total pension liability as of June 30, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.5 percent
Salary increases	Graded salary ranges from 8.72 to 3.44 percent based on
	age, including inflation, averaging 4.00 percent
Investment rate of return	7.25 percent, net of pension plan investment expenses,
	including inflation
Cost-of-Living Adjustment	2.25 percent
Martality rates were based or	actual appariance including an adjustment for some anticipated

Mortality rates were based on actual experience including an adjustment for some anticipated improvement.

The actuarial assumptions used in the June 30, 2019 actuarial valuation were based on the results of an actuarial experience study performed for the period July 1, 2012 through June 30, 2016. The demographic assumptions were adjusted to more closely reflect actual and expected future experience.

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees in conjunction with the June 30, 2016 actuarial experience study. A blend of future capital market projections and historical market returns was used in a building-block method in which a best-estimate of future real rates of return (expected returns, net of pension plan investment expense and inflation) is developed for each major asset class. These best-estimates are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation of 2.5 percent.

The best estimates of geometric real rates of return and the TCRS investment policy target asset allocation for each major asset class are summarized in the following table:

	Long-Term Expected	Target
Asset Class	Real Rate of Return	<b>Allocation</b>
U.S. equity	5.69%	31%
Developed market international equity	5.29%	14%
Emerging market international equity	6.36%	4%
Private equity and strategic lending	5.79%	20%
U.S. fixed income	2.01%	20%
Real estate	4.32%	10%
Short-term securities	0.00	<u>1%</u>
		100%

#### **Changes in Net Pension Liability (Asset)**

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees as 7.25 percent based on a blending of the factors described above.

Discount rate. The discount rate used to measure the total pension liability was 7.25 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current rate and that contributions from Portland will be made at the actuarially determined contribution rate pursuant to an actuarial valuation in accordance with the funding policy of the TCRS Board of Trustees and as required to be paid by state statute. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make projected future benefit payments of current active and inactive members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

### Changes in the Net Pension Liability (Asset) Increase (Decrease)

	Pens	Total ion Liability (a)	Fiduo	Plan ciary Net Position (b)	Net Pension Liability (Asset) (a)–(b)
Balance at 6/30/18	\$	17,782,606	\$	19,580,085	\$ (1,797,479)
Changes for the year:					
Service cost		552,366		-	552,366
Interest		1,306,593		-	1,306,593
Differences between expected and actual experience		(139,442)		-	(139,442)
Changes in benefits		-		-	-
Changes in assumptions		-		-	-
Contributions-employer		-		331,739	(331,739)
Contributions-employees		-		383,706	(383,706)
Net investment income		-		1,460,793	(1,460,793)
Benefit payments, including refunds of employee contributions		(625,990)		(625,990)	-
Administrative expense		-		(12,491)	12,491
Other changes		-		-	-
Net changes		1,093,527		1,537,757	(444,230)
Balance at 6/30/19	\$	18,876,133	\$	21,117,842	\$ (2,241,709)

Sensitivity of the Net Pension Liability (Asset) to Changes in the Discount Rate. The following presents the net pension liability (asset) of the City calculated using the discount rate of 7.25 percent, as well as what the net pension liability (asset) would be if it were calculated using a discount rate that is 1- percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

	Current			
	1% Decrease	<b>Discount Rate</b>	1% Increase	
	<u>(6.25%)</u>	<u>(7.25%)</u>	<u>(8.25%)</u>	
Portland's net pension liability (asset)	\$435,491	(\$2,241,709)	(\$4,444,368)	

### Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

Pension expense. For the year ended June 30, 2020, the City recognized pension expense of \$96,675

Deferred Outflows of Resources and Deferred Inflows of Resources. For the year ended June 30, 2020, Portland reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		De	eferred Inflows of Resources
Difference between expected and actual experience	\$	178,213	\$	649,121
Net difference between projected and actual earnings on pension plan investment		-		239,620
Changes in assumptions		194,781		-
Contributions subsequent to the measurement date of June 30, 2018		214,592		(not applicable)
Total	\$	587,586	\$	888,741

The amount shown above for "Contributions subsequent to the measurement date of June 30, 2019," will be recognized as a reduction (increase) to net pension liability (asset) in the following measurement period.

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30:	
2021	(99,040)
2022	(184,722)
2023	(117,659)
2024	(85,050)
2025	(9,356)
Thereafter	(19,920)

In the table shown above, positive amounts will increase pension expense while negative amounts will decrease pension expense.

#### Payable to the Pension Plan

At June 30, 2020, Portland reported a payable of \$45,129 for the outstanding amount of contributions to the pension plan required at the year ended June 30, 2020.

#### **NOTE 7 - OTHER POST-EMPLOYMENT BENEFITS**

#### **Local Government OPEB Plan (LGOP)**

**Plan description** - Employees of the City of Portland, who were hired prior to July 1, 2015, are provided with pre-65 retiree health insurance benefits through the closed Local Government OPEB Plan (LGOP) administered by the Tennessee Department of Finance and Administration. This plan is considered to be multiple-employer defined benefit plan that is used to provide postemployment benefits other than pensions (OPEB). However, for accounting purposes, this plan will be treated as a single-employer plan. All eligible pre-65 retired employees and disability participants of local governments, who choose coverage, participate in the LGOP. This plan is closed to the employees of all participating employers that were hired on or after July 1, 2015.

**Benefits provided** - The City of Portland offers the LGOP to provide health insurance coverage to eligible pre-65 retirees and disabled participants of local governments. Insurance coverage is the only postemployment benefit provided to retirees. An insurance committee created in accordance with TCA 8-27-701 establishes and amends the benefit terms of the LGOP. All members have the option of choosing between the premier preferred provider organization (PPO), standard PPO, limited PPO or the wellness health savings consumer-driven health plan (CDHP) for healthcare benefits. Retired plan members, of the LGOP, receives the same plan benefits as active employees, at a blended premium rate that considers the cost of all participants. This creates an implicit subsidy for retirees. Participating employers determine their own policy related to direct subsidies provided for the retiree premiums. [Entities should insert language to explain their direct subsidy policy for pre-65 retiree insurance coverage or the fact that they do not directly subsidize and are only subject to the implicit]. The LGOP is funded on a pay-as-you-go basis and there are no assets accumulating in a trust that meets the criteria of paragraph 4 of GASB Statement No. 75.

*Employees covered by benefit terms* - At July 1, 2019, the following employees of City of Portland were covered by the benefit terms of the LGOP:

payments	9
Inactive employees entitled to but not yet receiving benefit payments	-
Active employees	152
Total	161

An insurance committee, created in accordance with TCA 8-27-701, establishes the required payments to the LGOP by member employers and employees through the blended premiums established for active and retired employees. Claims liabilities of the plan are periodically computed using actuarial and statistical techniques to establish premium rates. For the fiscal year ended June 30, 2020, the City of Portland paid \$40,341 to the LGOP for OPEB benefits as they came due.

**Actuarial assumptions** - The total OPEB liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation 2.25%

Salary increases Graded salary ranges from 3.44 to 8.72 percent

based on age, including inflation, averaging 4

percent

Healthcare cost trend rates 6.03% for pre-65 for 2019, decreasing annually

over a 10-year period to an ultimate rate of 4.50%. 5.20% for post-65 in 2019 decreasing annually over a 4 year period to an ultimate

rate of 4.50%.

Retiree's share of benefit-

related costs

Members are required to make monthly contributions in order to maintain their

coverage. For the purpose of this Valuation a weighted average has been used with weights

derived from the current distribution of

members among plans offered.

Unless noted otherwise, the actuarial demographic assumptions used in the June 30, 2019, valuations were the same as those employed in the July 1, 2018 Pension Actuarial Valuation of the Tennessee Consolidated Retirement System (TCRS). These assumptions were developed by TCRS based on the results of an actuarial experience study for the period July 1, 2012 - June 30, 2016. The demographic assumptions were adjusted to more closely reflect actual and expected future experience. Mortality tables are used to measure the probabilities of participants dying before and after retirement. The mortality rates employed in this valuation are taken from the RP-2014 Healthy Participant Mortality Table for Annuitants for non-disabled post-retirement mortality, with mortality improvement projected to all future years using Scale MP-2016. Post-retirement tables are Blue Collar and adjusted with a 2% load for males and a -3% load for females. Mortality rates for impaired lives are the same as those used by TCRS and are taken from a gender distinct table published in the IRS Ruling 96-7 for disabled lives with a 10% load.

**Discount rate** - The discount rate used to measure the total OPEB liability was 3.51 percent. This rate reflects the interest rate derived from yields on 20-year, tax-exempt general obligation municipal bonds, prevailing on the measurement date, with an average rating of AA/Aa as shown on the Fidelity 20-Year Municipal GO AA index.

Changes in the Total OPEB Liability

	T	otal OPEB		
LGOP	Liability			
		(a)		
Total OPEB liability- beginning balance	\$	2,206,992		
Changes for the year:				

Total OPEB liability- beginning balance		2,206,992
Changes for the year:		
Service cost		152,342
Interest		82,955
Changes of benefit terms		(1,365,252)
Differences between expected and actual experience		(475,369)
Change in assumptions		19,405
Benefit payments		(136,753)
Net changes		(1,722,672)
Total OPEB liability - ending balance		484,320

**Changes in assumptions** - The discount rate was changed from 3.62% as of the beginning of the measurement period to 3.51% as of June 30, 2019. This change in assumption decreased the total OPEB liability. It was also decided to change the status will increase the OPEB liability. Other changes in assumptions include adjustment to initial per capita cost and slight changes to the near term health trend rates.

**Changes in benefit terms-** A change in benefit terms resulted in a \$1,365,252 decrease in the City's total OPEB liability.

**Sensitivity of total OPEB liability to changes in the discount rate** - The following presents the total OPEB liability related to the LGOP, as well as what the total OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.51%) or 1-percentage-point higher (4.51%) than the current discount rate.

	1% Decrease	Discount Rate	1% Increase	
	(2.51%)	(3.51%)	(4.51%)	
Total OPEB Liability	\$ 521,307	\$ 484,320	\$ 450,421	_

**Sensitivity of total OPEB liability to changes in the healthcare cost trend rate** - The following presents the total OPEB liability related to the LGOP, as well as what the total OPEB liability would be if it were calculated using a healthcare cost trend rate that is 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rate.

	1% Decrease (5.03%/4.20% decreasing to	Healthcare Cost Trend Rates (6.03%/5.20%	1% Increase (7.03%/6.20%
	3.50%)	decreasing to 4.50%)	decreasing to 5.50%)
Total OPEB Liability	\$ 438,669	\$ 484,320	\$ 538,924

#### OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

**OPEB expense** - For the fiscal year ended June 30, 2020, the City recognized OPEB expense of \$1,223,221.

**Deferred outflows of resources and deferred inflows of resources** - For the fiscal year ended June 30, 2020, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB benefits in the LGOP from the following sources:

LGOP					
	Deferred		Deferred		
	Outflows of		I	nflows of	
	re s	ources	resources		
Differences between actual and expected experience	\$	2,788	\$	413,793	
Changes of assumptions		16,891		251,392	
Employer payments subsequent to the measurement date		40,341			
Total	\$	60,020	\$	665,185	

The amounts shown above for "Employer payments subsequent to the measurement date" will be recognized as a reduction to total OPEB liability in the following measurement period.

Amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in OPEB expense as follows:

For the year ended June 30:

2021	(93,266)
2022	(93,266)
2023	(93,266)
2024	(93,266)
2025	(93,266)
Thereafter	(179,176)

In the table above, positive amounts will increase OPEB expense while negative amounts will decrease OPEB expense.

#### **Tennessee Plan (TNP)**

**Plan description** - Employees of the City of Portland, who were hired prior to July 1, 2015, are provided with post-65 retiree health insurance benefits through the closed Tennessee Plan (TNP) administered by the Tennessee Department of Finance and Administration. This plan is considered multiple-employer defined benefit plan that is used to provide postemployment benefits other than pensions (OPEB). However, for accounting purposes, this plan will be treated as a single-employer plan. All eligible post-65 retirees and disability participants of local governments, who choose coverage, participate in the TNP. The TNP also includes eligible retirees of the state, certain component units of the state, and local education agencies. This plan is closed to the employees of all participating employers that were hired on or after July 1, 2015.

**Benefits provided** - The state offers the TNP to help fill most of the coverage gaps created by Medicare for eligible post-65 retirees and disabled participants of local governments. Insurance coverage is the only postemployment benefit provided to retirees. The TNP does not include pharmacy. In accordance with TCA 8-27-209, benefits of the TNP are established and amended by cooperation of insurance committees created by TCA 8-27-201, 8-27-301 and 8-27-701. Retirees and disabled employees of the state, component units, local education agencies, and certain local governments who have reached the age of 65, are Medicare eligible and also receives a benefit from the Tennessee Consolidated Retirement System may participate in this plan. All plan members receive the same plan benefits at the same premium rates. Participating employers determine their own policy related to subsidizing the retiree premiums. The TNP is funded on a pay-as-you-go basis and there are no assets accumulating in a trust that meets the criteria of paragraph 4 of GASB Statement No. 75.

Employees covered by benefit terms - At July 1, 2019, the following employees of the City of Portland were covered by the benefit terms of the TNP:

Inactive employees currently receiving benefit payments	-
Inactive employees entitled to but not yet receiving benefit paymen	3
Active employees	-
Total	3

In accordance with TCA 8-27-209, the state insurance committees established by TCAs 8-27-201, 8-27-301 and 8-27-701 determine the required payments to the plan by member employers and employees. Claims liabilities of the plan are periodically computed using actuarial and statistical techniques to establish premium rates. Administrative costs are allocated to plan participants. Employers contribute towards employee costs based on their own developed policies. During the current reporting period, the City of Portland paid \$447 to the TNP for OPEB benefits as they came due.

**Actuarial assumptions** - The collective total OPEB liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified

Inflation 2.25%

Salary increases Graded salary ranges from 3.44 to 8.72 percent

based on age, including inflation, averaging 4

percent

Healthcare cost trend rates The premium subsidies provided to retirees in

the Tennessee Plan are assumed to remain unchanged for the entire projection; therefore,

trend rates are not applicable.

Unless noted otherwise, the actuarial demographic assumptions used in the June 30, 2019, valuations were the same as those employed in the July 1, 2018 Pension Actuarial Valuation of the Tennessee Consolidated Retirement System (TCRS). These assumptions were developed by TCRS based on the results of an actuarial experience study for the period July 1, 2012 - June 30, 2016. The demographic assumptions were adjusted to more closely reflect actual and expected future experience. Mortality tables are used to measure the probabilities of participants dying before and after retirement. The mortality rates employed in this valuation are taken from the RP-2014 Healthy Participant Mortality Table for Annuitants for non-disabled post-retirement mortality, with mortality improvement projected to all future years using Scale MP-2016. Post-retirement tables are Blue Collar and adjusted with a 2% load for males and a -3% load for females. Mortality rates for impaired lives are the same as those used by TCRS and are taken from a gender distinct table published in the IRS Ruling 96-7 for disabled lives with a 10% load.

**Discount rate** - The discount rate used to measure the total OPEB liability was 3.51 percent. This rate reflects the interest rate derived from yields on 20-year, tax-exempt general obligation municipal bonds, prevailing on the measurement date, with an average rating of AA/Aa as shown on the Bond Buyer 20-Year Municipal GO AA index.

Changes in the Total OPEB Lia
-------------------------------

TNP	Total OPEB Liability		
		(a)	
Total OPEB liability - beginning balance	\$	142,294	
Changes for the year:			
Service cost		3,932	
Interest		5,279	
Changes of benefit terms		(144,994)	
Differences between expected and actual experience		5,776	
Change in assumptions		127	
Benefit payments	_	(800)	
Net changes		(130,680)	
Total OPEB liability - ending balance	\$	11,614	

**Changes in assumptions** - The discount rate was changed from 3.62% as of the beginning of the measurement period to 3.51% as of June 30, 2019. This change in assumption increased the total OPEB liability.

**Changes in benefit terms-** A change in benefit terms resulted in a \$144,994 decrease in the City's total OPEB liability.

**Sensitivity of total OPEB liability to changes in the discount rate** - The following presents the total OPEB liability related to the TNP, as well as what the total OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current discount rate.

	1% Decrease	Discount Rate	1% Increase
	(2.51%)	(3.51%)	(4.51%)
Total OPEB Liability	\$ 12,878	\$ 11,614	\$ 10,531

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

*OPEB expense -* For the fiscal year ended June 30, 2020, the City recognized OPEB expense of \$136,477.

**Deferred outflows of resources and deferred inflows of resources** - For the fiscal year ended June 30, 2020, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB benefits in the TNP from the following sources:

TNP

	Deferred Outflows of		Deferred Inflows of		
	res	ources	resources		
Differences between actual and expected experience	\$	7,416	\$	-	
Changes of assumptions		112		11,321	
Employer payments subsequent to the measurement date		447		-	
Total	\$	7,975	\$	11,321	

The amounts shown above for "Employer payments subsequent to the measurement date" will be recognized as a reduction to total OPEB liability in the following measurement period.

Amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in OPEB expense as follows:

**TNP** 

For the year ended June 30:

2021	(694)
2022	(694)
2023	(694)
2024	(694)
2025	(694)
Thereafter	(323)

In the table above, positive amounts will increase OPEB expense while negative amounts will decrease OPEB expense.

#### **NOTE 8 - RISK MANAGEMENT**

The City is exposed to various risks to general liability and property and casualty losses. The City deems it was more economically feasible to participate in a public entity risk pool as opposed to purchasing commercial insurance for general liability, property, casualty and workman's compensation coverage. The City participates in the TML Risk Pool which is a public entity risk pool established by the Tennessee Municipal League, an association of member Cities. The City pays an annual premium to the TML for its general liability, law enforcement liability, errors and omissions liability, auto liability, workers' compensation and property coverage. The City's workers' compensation coverage is retrospectively rated, whereby premiums are accrued based on the ultimate costs of the experience of the City. Claims arising are paid by the Pool. The Pool has the right to assess participants for loss experience in excess of premiums collected. The City also obtains commercial insurance coverage for accidents and sick-leave for volunteer firemen. Insurance recoveries during 2020 were approximately \$35,853. Settled claims have not exceeded insurance coverage since 2008.

#### **NOTE 9 – COMMITMENTS AND CONCENTRATIONS**

#### **Commitments**

The City is committed on future capital expenditures for projects ongoing at June 30, 2020:

		Amt Thru		Additional		Total
	6	6/30/2020		mmitment		Project
Governmental Funds Projects						
City Hall Renovation/Addition	\$	2,668,084	\$	-	\$	2,668,084
Gateview Road	\$	70,745	\$	69,255	\$	140,000
Water & Sewer Fund						
Waste Water Collection System Upgrade	\$	1,043,075	\$	78,210	\$	1,121,285
City Hall Renovation/Addition	\$	-	\$	1,131,625	\$	1,131,625
Lyon Drive Lift Station	\$	343,005	\$	226,100	\$	569,105
West Side Sewer Interceptor	\$	115,580	\$	18,495	\$	134,075
WB Dye Water Line	\$	-	\$	130,000	\$	130,000
AMR Project	\$	-	\$	150,000	\$	150,000
Gas Fund						
City Hall Renovation/Addition	\$	-	\$	1,131,625	\$	1,131,625
AMR Project	\$	505,991	\$	19,009	\$	525,000

The City of Portland and Sumner County Government have adopted the Tax Increment Financing Program established by the Industrial Development Board (IDB) of Sumner County. TIF is an economic development tool that allocates all or a portion of the new, additional taxes generated by a development over a specified period of time to pay for infrastructure such as utility and road improvements related to that development.

The TIF Program is primarily for the economic development projects that provide improvements in underutilized areas. This program applies only to projects initiated by a private developer and supported

by tax increment property tax revenues. It is a discretionary program and does not create or vest any rights in any person or entity.

#### Concentrations

The business-type activities have a concentration of accounts receivable with customers who are geographically concentrated in the City service area. The business-type activities require a cash deposit from new customers or a letter of credit from a previous utility company showing timely payment of bills. These requirements are in place to mitigate the risk of uncollectible accounts.

#### **NOTE 10 - SUBSEQUENT EVENTS**

Management has evaluated subsequent events through December 07, 2020, which is the date the financial statements were available to be issued. The full impact of the COVID-19 outbreak continues to evolve as of December 07, 2020. As such, it is uncertain as to the full magnitude that the pandemic will have on the City's financial condition and future results of operations. Management is actively monitoring the situation on its financial condition, liquidity, operations, suppliers, and workforce. Given the daily evolution of the COVID-19 outbreak and the global responses to curb its spread, there is no estimate as to the effects of the COVID-19 outbreak on its results of operations, financial condition, or liquidity for the fiscal year 2021.

#### **CITY OF PORTLAND, TENNESSEE**

#### NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

#### For the Year Ended June 30, 2020

Valuation date: Actuarially determined contribution rates for fiscal year 2020 were calculated based on the June 30, 2018 actuarial valuation.

Methods and assumptions used to determine contribution rates:

Actuarial Cost Method Entry Age Normal

Amortization Method Level dollar, closed (not to exceed 20 years)

**Remaining Amortization Period** 

Varies by Year

Asset Valuation 10-Year Smoothed Within a 20% Corridor to Market

Value

Inflation 2.50%

Salary Increases Graded Salary Ranges from 8.72% to 3.44% Based on

Age, Including Inflation, Averaging 4.00%

Investment Rate of Return 7.25%, Net of Investment Expense, Including Inflation

Retirement Age Pattern of Retirement Determined by Experience Study

Mortality Customized Table Based on Actual Experience Including

an Adjustment for Some Anticipated Improvement

Cost of Living Adjustment 2.25%

Changes of assumptions. In 2017, the following assumptions were changed: decreased inflation rate from 3.00 percent to 2.50 percent; decreased the investment rate of return from 7.50 percent to 7.25 percent; decreased the cost-of-living adjustment from 2.50 percent to 2.25 percent; decreased salary growth graded ranges from an average of 4.25 percent to an average of 4.00 percent; and modified mortality assumptions.

### **CITY OF PORTLAND, TENNESSEE**

### NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE

For the Year Ended June 30, 2020

#### **NOTE A – BASIS OF PRESENTATION**

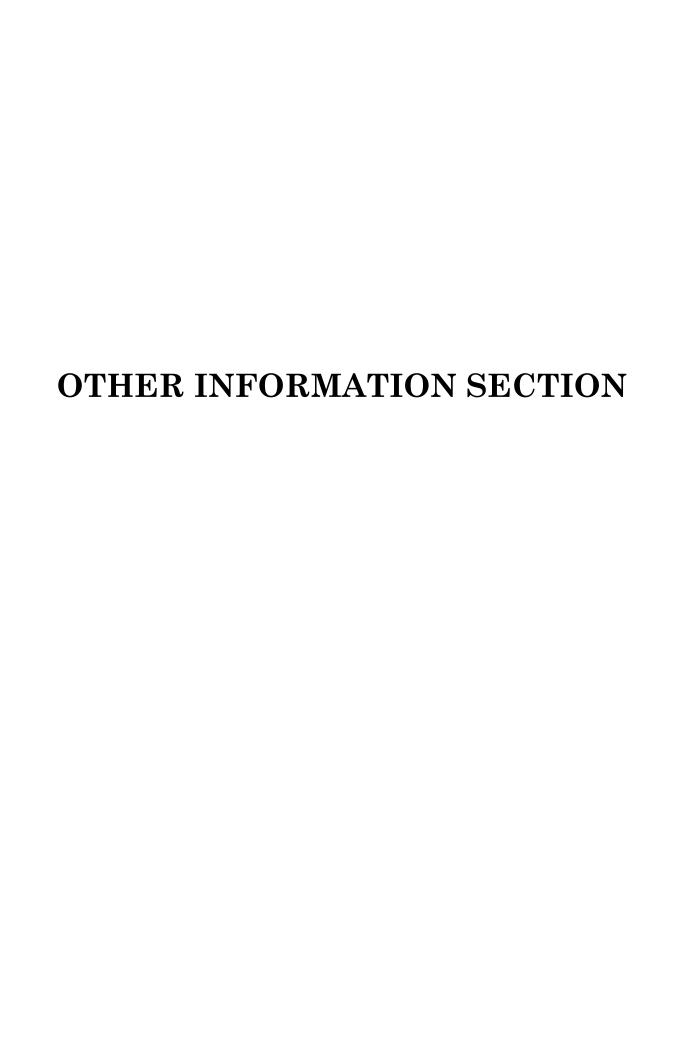

The accompanying schedule of expenditures of federal awards and state financial assistance includes the federal and state grant activity of the City of Portland, Tennessee under programs of the federal government for the year ended June 30, 2020. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the City, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the City.

#### **NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

- Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.
- 2. Pass-through entity contract numbers are presented where available.
- 3. The City has elected not to use the 10% de minimis indirect cost rate as allowed under the Uniform Guidance.

### **NOTE C – OUTSTANDING LOANS**

The City has outstanding a loan of \$805,922 obtained through the State Revolving Loan Fund (SRLF) in 2006. The loan is presented in detail elsewhere in the supplementary and other information section of this report.

### City of Portland, Tennessee Schedule of Utility Rate Structure and Number of Customers For the Year Ended June 30, 2020

Water	Customer	Rates
-------	----------	-------

Effective 7/1/16	Inside City Limits	Outside City Limits
Residential		
First 2,500 gallons	12.75	26.23
Per 1,000 gallons over 2,500	5.10	10.49
Commercial		
First 2,500 gallons	16.53	28.05
Per 1,000 gallons over 2,500	6.61	11.22
Industrial		
First 2,500 gallons	20.05	30.10
Per 1,000 gallons over 2,500	8.02	12.04
Pondville		
First 5,000 gallons	26.23	
Per 1,000 gallons over 5,000	10.49	

#### **Sewer Customer Rates**

_	Inside City Limits	Outside City Limits
Effective 7/1/19		
Residential		
First 2,500 gallons	28.75	37.25
Per 1,000 gallons over 2,500	11.50	14.90
Commercial		
First 2,500 gallons	34.38	44.73
Per 1,000 gallons over 2,500	13.75	17.89
Industrial		
First 2,500 gallons	37.25	48.45
Per 1,000 gallons over 2,500	14.90	19.38

#### Solid Waste (Sanitation) Rates

Sanitation for residential customers inside the city limits is \$18 per month.

Business customer rate is \$22 per month.

### **Natural Gas Customer Rates**

6.00	Per Month
0.28	Per CCF
0.31	Per CCF
10.00	Per Month
0.35	Per CCF
0.31	Per CCF
35.00	Per Month
0.35	Per CCF
0.31	Per CCF
250.00	Per Month
0.35	Per CCF
0.31	Per CCF
	0.28 0.31 10.00 0.35 0.31 35.00 0.35 0.31 250.00 0.35

The rate structure is made up of three components: gas cost, PTA and service fees. The cost of gas and the pass through adjustment make up the current cost of gas to the city at the city's source of supply. This cost is adjusted monthly, increased or decreased, to reflect the current market cost of gas to the city. The service fee covers the projected cost of operating and maintaining the city's gas department. The service fee and PTA rates were effective July 2019 and the monthly cost of the gas rate were in effect at June 30, 2020.

#### **Number of Customers**

Service	June 30, 2020
Solid Waste (special revenue)	4,672
Stormwater (special revenue)	4,935
Water	7,813
Sewer	4,238
Natural Gas	5,141

## GOVERNMENT AUDITING STANDARDS SECTION

### The MG Group, P.C.

### CERTIFIED PUBLIC ACCOUNTANTS AND CONSULTANTS

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Honorable Mayor and Board of Aldermen City of Portland, Tennessee

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Portland, Tennessee as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the City of Portland, Tennessee's basic financial statements, and have issued our report thereon dated December 07, 2020.

### **Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the City of Portland, Tennessee's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Portland, Tennessee's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Portland, Tennessee's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City of Portland, Tennessee's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Tullahoma, Tennessee

MG Group, P.C.

### City of Portland, Tennessee Summary Schedule of Prior Year Findings June 30, 2020

No prior year findings.
